CAPETOWN, 6.—The commander of the German gunboat *Wolf* has taken formal possession in the name of the German empire of all the west coast of Africa, between the 18th and 20th degrees of south latitude, with the single exception of Walvisch Bay, annexed to the British possessions a few weeks ago by the authorities of Cape Colony.

PARIS, 6.—Advices from China state that Admiral Courbet left Kelung and joined the fleet in Min river, where he will await reinforcements from Saigon before attempting to occupy Kelung. A steamer runs daily between Sharp Peak, the landing of the cable, and Foo Chow, to carry telegrams.

The *Gazette* asserts that England is in a position of such utter naval collapse as will take years to remedy. It is reported that the Chinese agents in Glasgow, Liverpool and London are trying to arrange for privateer commissions with the object of preying on French commerce.

Vanity Fair publishes the memorandum which Gen. Gordon prepared for the Chinese government in 1880 on the power of China to make a privateer war. Gen. Gordon lays stress on the legal necessity of marque from a Chinese port.

The report that subjects of England and Germany in the Chinese service have been recalled by the governments of those two countries, is declared to be untrue.

Rome, 6.—In the past 24 hours 293 new cases and 158 deaths of cholera have occurred in Italy. The epidemic in the provinces is generally confined to Spezia and vicinity. One hundred and sixty-eight cases and 69 deaths are reported in the city of Naples.

Naples, 6.—Two hundred fresh cases of cholera are reported here the past 24 hours. The number of deaths today shows a decrease over the previous day. An effort has been made to procure a supply of meat. The stock in this city is exhausted.

At the rehearsal of the ballet, "Sylvia," in the opera house, Manager Maser rebuked Senora Vally for making a wrong step, saying: "You dance like a chicken." After the performance the husband of the danseuse entered the manager's box and demanded an apology. Maser denied he insulted the lady, whereupon the husband plunged a dagger into the manager's heart.

LONDON, 6.—The German bark *Montezuma*, Captain Simonson, from Punta Arenas, arrived at Falmouth with three men belonging to the yacht *Mignonette*, found out on the way from Southampton to Sidney. They report that when the vessel went down they and a boy, all on board, took to the small boat without provisions or water. For 19 days they drifted about, when the boy died, and the others fed on his body and were enabled to hold out five days longer when the *Montezuma* rescued them, in a horrible condition. Three of the men were placed under arrest by order of the board of trade for the death of the boy. The matter is to be investigated.

DUBLIN, 5.—Informers Casey and Philbin, who have claimed they swore falsely against Myles Joyce in connection with the Maamtrasna murder case, are again talking. Casey has declared there were seven men concerned in the murders: himself, Michael and Patrick Casey, Patrick Joyce and three others. One of these was a wealthy farmer, still living near Maamtrasna. This man instigated the massacre, and held the lamp while the family were murdered. It was he, too, who compelled them to return and murder the aged grandmother. Casey asserted the Joyces, Patrick and John Casey and Martin, were not present. The interviewer was impressed that Casey was telling the truth. The *Freeman's Journal* alleges that the government is well aware of the truth of Casey's statements and again demands that a public inquiry into the case be made.

GLASGOW, 6.—An immense demonstration in favor of the franchise bill occurred here, and 70,000 persons took part in the procession, which stretched the enormous length of ten miles from the starting point.

PARIS, 6.—Admiral Mir cables he has seized Passandana Bay, Madagascar, without resistance. The French still occupy Tamatave.

Several inferior and dangerous "substitutes" for the genuine "Horsford's Acid Phosphate" are being offered for sale; and we hereby caution the dealers and public against buying or using them, as they will not produce the same effect upon the system as the genuine "Horsford's," and the ingredients in some of them are dangerous to health.

Some of these "substitutes" or imitations are simply Dilute Phosphoric Acid, which interferes with the digestion; while the genuine "Horsford's" not only causes no trouble with the digestive organs, but materially assists in their action.

One preparation that is being offered for sale, by the gallon, contains Meta- or Pyro-Phosphoric Acid, which are declared by the highest authority to be **poisonous**.
