Dooley's Baking Powder Reigns. And well does it deserve the success attained, as it is by far the BEST and CHEAPEST in market. No baking powder has ever been manufactured so free from deleterious substances, and so exactly proportioned that good, sweet, light rolls, biscuits or pastry could be made each time with success. It is always ready for use, reliable, and requires but about half the quantity of any other in market. Will not spoil in any climate. Grocers everywhere keep it.

Having lately received extensive additions to our already large and varied stock, in the shape of type, presses, &c., &c., our facilities for executing all kinds of Job Work in the best and most improved styles have been greatly increased. Co-operative and other establishments can be supplied with plain or tinted Order and Receipt Books, Certificates of Stock, and every kind of work. Orders from the city and the country settlements are respectfully solicited.

We have received one of the latest improved ruling machines, and are, therefore, prepared to do all kinds of ruling according to order, on the shortest notice. s&wt

WARRANTEE DEEDS for sale.—The citizens of this Territory are now in possession of all the rights and privileges accruing from the enjoyment of the Pre-emption and Homestead Laws, and hereafter all transfers of titles to land will have to be effected by means of Warrantee Deeds, instead of the Quit Claim Transfer Deeds heretofore used. In view of the demand for such documents, we wish to inform the public that we have them on hand, at this office, in legal form, and are prepared to sell them singly, or otherwise, at very low rates, to suit purchasers. d&w

Nothing improves the appearance of the hair so much as Burnett's Cocoaine.

A Fashionable Comparison—"As sweet as Florimel." There is a freshness in this perfume found in no other.

Burnett's Cologne Water received first premium at Illinois State Fair.

Burnett's Kalliston cures eruptions of the skin. Whitcomb's Asthma Remedy removes phlegm and is good for any oppression of the chest.

LOCAL AND OTHER MATTERS.

FROM TUESDAY'S DAILY.

THOMAS MORRIN will confer a favor by corresponding with Benjamin Morrin, 20th Ward.

REMEMBER THE FAIR.—We hope that the artisans of all grades, and farmers, horticulturists and floriculturists, from the extreme limits of the Territory, north, south, east and west, will remember the coming fair. In thirty-three days from the present time it will commence. We have craftsmen of every kind scattered through the Territory, and if all feel the interest in the development of industry and the arts of the Territory, which they should,

we shall have an exhibition that would be a credit to much older settled countries than this. We expect also to see specimens of grain, fruit, flowers, and stock that cannot be excelled anywhere.

CONSOLING TO SOME.—Charles Gutzleff, in his *Journal of Three Voyages Along the Coast of China*, speaking of the people dwelling in those portions of that country from which most of the Chinese now emigrating to this country come, says: "The major part of them are opium smokers, gamblers, thieves, and fornicators. A person who has lived among these men would be best qualified to give a description of Sodom and Gomorrah."

We are perfectly satisfied that some people will readily believe the foregoing; it strengthens their arguments against, and shows the folly of encouraging Chinese emigration. The country is wicked enough already.

IN TOWN.—Hon. T. W. Tipton, who represents Nebraska in the Senate of the United States, accompanied by Mrs. Tipton, arrived in the city last evening. They appear to be pleased with the city and its surroundings. Their stay will necessarily be brief. We hope their sojourn may be pleasant and their future journey a safe one.

LOW FARES AT SAN FRANCISCO.—The Pacific Mail Steamship Company has put down its fares very low since the completion of the railroad and the reduction of the rates of travel on it. From San Francisco to New York the fare by steamship for cabin passengers is only one hundred dollars; for steerage it is only fifty dollars. Board at a good hotel in San Francisco for the same length of time as that occupied in the voyage costs as much as is charged by the steamship Company for the trip to New York. The trip overland by rail is one hundred and twelve dollars, to which must be added sleeping-cars and meals along the route. But then railroad travelers save considerable time, are not sea-sick and have no risks to run such as have to be met in crossing the Isthmus.

IN GRIEF.—There was a Democratic meeting at the Metropolitan Theatre, San Francisco, last Thursday evening, at which Hon. S. B. Axtell, Member of Congress from California, Mayor McCoppin and J. F. Cowdery made speeches. After the meeting, Mr. Sam Brannan and one or two gentlemen got into a discussion. Immediately a crowd of some one hundred or more persons gathered around them, shouting and laughing in a very boisterous manner. Mr. Brannan went through the window of a drug store, breaking the glass; whereupon a policeman blew his whistle, and as soon as assistance came, arrested Mr. Brannan and another gentleman and conveyed them to the Station House, where they gave bail to answer any charge that should be preferred against them.

COMMENCEMENT OF THE DRAMATIC SEASON.—After five weeks' rest, the representatives of the drama will resume their laborious vocation on the evening of Saturday next. The weather is now considerably moderated and the evenings cool, which will render the resumption of dramatic representations generally acceptable.

A STRANGE ATTEMPT.—The San Francisco Chronicle, of last Friday, says:

"Yesterday morning a little boy named Raphael ran into a butcher shop, on the corner of Taylor and Clay streets, and cried out that his mother was killing herself. The persons in the shop immediately followed him to his house at 1118 Taylor st., where they found the mother, Mrs. Angelina Raphael, lying at the foot of her bed, bleeding from five or six wounds in her head, which were made by a hatchet that was lying near. It would appear that she had tried to hack her head off piecemeal, as she had struck each side alternately. Temporary insanity, caused by the loss of money by her husband, is said to be the cause of the attempt.

P. O. GENERAL DELIVERY.—We are requested by Mr. Street, Postmaster, to notify the public that on and after to-day, the Post Office will be open, for the general delivery of letters, from 8 o'clock a.m. until 7 p.m.

THE LECTURE TO-NIGHT.—Remember the lecture to-night, at the Theatre. George Francis Train, the inimitable, the irresistibly comic and droll, the "Charlatan, mountebank and humbug" will lecture on the "Doctor, Lawyer and Parson," a subject that, in such hands, will afford ample scope for fun and sarcasm. The price is lowered to suit the times, and all who want to spend an hour or two in listening to a treat of an extraordinary character had better attend; they will have their money's worth.

FATAL ACCIDENT.—We are sorry to learn of a fatal accident, which happened on the 27th instant, to David Lewis, 17 years of age,

the adopted son of Bro. A. Norton, of Brigham city. While he and Stephen Wight, a boy of his own age, were in the canyon, Stephen was trying to fire an old Derringer, which missed; and while putting on another cap, the pistol went off, the ball lodging in the heart of David, who stood near by, causing his instant death. We are under obligations to our attentive correspondent, A. C. of Brigham city, for furnishing us this sad news.

FROM THURSDAY'S DAILY.

MISSIONARY LABORS SOUTH.—Elder Joseph Mathews, now on a mission in the Southern States, writes to his friends at Santaquin, that he is laboring in Mississippi, among a kind of people as live on the earth. The calls for preaching are far more numerous than he can attend to, and a rivalry is going on among the people as to who shall have him to preach to them first. He was desirous of going among his relatives in Alabama, but the people of Mississippi, where he is laboring, desired him to stay there. There is great poverty among the people, and it is a source of grief to many that, when baptized, it will be out of the question to obtain the means to gather to Zion.

The health of Elder Mathews is, at present, very feeble, he having recently had the chills and fever; but he is gaining slowly.

EXCURSION PARTY—OLD FRIENDS.—A party of gentlemen and ladies from Quincy, Illinois, arrived in this city from the East yesterday evening. They intend to leave here for California to-morrow morning. Their names are: Ex-Governor John Wood and wife, and daughter, Mrs. John Tillson, whose husband is editor of the Quincy Whig; Miss C. N. Reynolds; C. M. Pomeroy, Esq., and wife; E. K. Stone, Esq., and wife; J. Seaman, Esq., and wife; Mr. Buddee; and Mr. and Mrs. Bond. Mrs. Bond has many relatives here; she is a sister of Mr. John B. Kimball, of the firm of Kimball & Lawrence, is an aunt of Mrs. Henry W. Lawrence and a cousin of Mrs. Wm. H. Hooper. The party are accompanied by C. W. Calvert, Esq., and wife, of Philadelphia. Among our old citizens these gentlemen and ladies have many acquaintances. We can never forget the kindness which our people experienced from the hands of the citizens of Quincy at the time of our expulsion from the State of Missouri. If there ever was a time when friends were needed by them it was then. Driven from their homes by mob violence in the depth of an inclement winter, stripped of their property and in many instances broken down in health, they landed at Quincy in a most forlorn and destitute condition. The sympathies of the citizens were touched, and they formed committees to take means to relieve the necessities of the distressed Saints, and made arrangements by which they were ferried across the river at half price. Prominent in this work of philanthropy was ex-Governor Wood. He was Mayor of the City of Quincy at that time, and he adopted measures to pacify some of the laboring class in the city, who thought that their wages would be cut down by this great influx of working people in their midst, and took up collections to aid the most needy of the Saints. While the necessity for help continued, the Governor rendered himself conspicuous by his acts of kindness, and his course during that period of our history, has caused him to be remembered in a warm and affectionate manner by them since that time. Afterwards, when the Twelve and the main body of the Saints had left Nauvoo, and the city was attacked by the mob, he strongly deprecated those acts of violence and used his influence to check them and afterwards took measures to relieve the wants of those who were driven out. We wish the party a pleasant sojourn while they remain, and a safe and prosperous journey.

DOG DAYS.—August being the hottest month in the year is generally considered most favorable to the development of "rabies,"—a species of madness confined chiefly to the canine race. This season, we are inclined to believe, it has attacked many animals generally considered of a higher grade of intelligence,—we allude to certain members of the scribbling fraternity; and instead of water being the special irritant,—which none in the least versed with their habits, would for a moment suspect,—"Mormonism" is that towards which their ire is directed. A great many very small, very short-sighted gentlemen of this ilk, in various quarters are chuckling and toasting their shins in the vain anticipation that the system at the head of which stands Brigham Young, is falling. Poor things! Their cases are pitiable. Their mental capacities are so dwarfed that they are utterly incapable of forming anything like a correct judgment in relation to "Mormonism." But on their account, we are happy in the belief that for the present season, dogs days are about over, and with the ad-

vent of the temperate season, now near at hand, it is to be hoped that some of the most violent symptoms of their idiotic mania will disappear and their ebullitions be of a less violent character. It will be beneficial to their health, poor creatures!

HOPEFUL FOR THE JUVENILES OF OMAHA.—The Omaha Herald of the 28th ult., says "the names of sixty prostitutes were handed in yesterday by Marshal Hollins to Judge Porter, as persons who are likely to be called upon any day to give up their earnings towards the advancement of education in Omaha."

Geo. Francis is the modern champion of reform, and wants to see the morals of the nation purified. Omaha with its army of prostitutes offers a splendid field for his labors and a man cannot possibly be better employed than in purifying his own house.

CASTELLO'S ELEPHANT LOOSE.—Dan and his famous circus were exhibiting a few days ago at Oakland, Cal. At the close of the exhibition the Oakland News says the elephant, in some unaccountable manner, got loose from his fastenings, walked out with the audience after the canvas was raised, and proceeded to the garden of Mr. Flint, on Twelfth street, where he tore down the fence and walked in. He then rolled himself in a watermelon patch, playing base ball with the squashes, and regaled himself plentifully on the fruits and vegetables growing thereabouts. Great consternation was produced among the employees of the circus, who were responsible for his keeping, when they found he had gone; and greater still was that of the denizens in the vicinity of the garden. The latter bolted their doors, barred their windows, and climbed out on the roofs of their dwellings for safety. The dark Malay, who punches the elephant through the streets with a sharp stick, collected his followers, mounted them on fleet horses, and giving chase by moonlight, in due time discovered the absconding specimen of the genus pachydermatus mammalia regaling himself as above stated. He was inclined to be obstinate, and evidently in love with his newly acquired freedom; but resistance was vain, and he was at once "marched away" to his old quarters at a double quick.

While Bro. Gudmundsen was on his late mission, she gave birth to a child, but unfortunately caught cold, and finally took that fatal disease which terminated in her death.
