WORDS FAIL, "Words fail to express my gratitude," says Mr. SELBY CARTER, of Nashville, Tenn., "for the benefits derived from

Ayer's Sarsaparilla.

Having been afflicted all my life with Scrofula, my system seemed saturated with it. It came out in Sores, Ulcers, and Mattery Sores, all over my body." Mr. Carter states that he was entirely cured by the use of AYER'S SARSAPARILLA, and since discontinuing its use, eight months ago, he has had no return of the scrofulous symptoms.

All baneful infections of the blood are promptly removed by this unequalled alterative.

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.

Sold by all Druggists; $1, six bottles for $5.

XLVIII CONGRESS.

SENATE.

WASHINGTON, 12.—Bills introdnced and referred:

McPherson, to suspend the coinage of the standard dollar. It provides that the coinage shall be suspended until January 1st, 1886, and that the trade dollar shall be received in sums of $5 or less for postage and revenue stamps and converted into bullion.

Voorhees, a resolution calling on the Attorney General to explain the delay in advising the Postmaster General as to the interpretation of law regarding the adjustment of postmaster's salaries. This was taken up, and after a sharp debate, during which the dilatoriness of the Attorney General was severely criticized, it was agreed to.

Voorhees, at this point, introduced a bill to prohibit assessments for political purposes by government officials and employees. He said he was prepared to show that assessments were now being made on employees of the government for political purposes. The bill punishes the giver as well as the man who makes the demand. Voorhees asked that the bill be referred to the judiciary committee.

Hawley thought it ought to go to the civil service reform committee. The bill was referred.

The Senate bill authorizing the construction of a building for the accommodation of the Congressional Library passed.

Adjourned.

HOUSE.

WASHINGTON, 12.—Bills reported:—Dowd, for the retirement and re-coinage of the trade dollar.

Willis, to aid and temporarily support common schools. Printed and recommitted. Hopkins, to establish and maintain a department of labor statistics.

A bill was reported for the erection of a public building at Carson City.

The House went into committee of the whole, Converse in the Chair, on the naval appropriation bill, and soon adjourned.

AMERICAN.

The Floods.

FORT SMITH, Ark., 12.—Heavy rains have swollen all the streams. The Arkansas river has risen eleven feet. Rising nine inches, it will be in the houses. It is three feet above the danger line. The prospect is of higher water than since 1844.

Pomeroy, O., 12.—The Hartford City Coal & Salt Company estimate their damages at $100,000. The Syracuse Coal & Salt Company have suffered nearly as badly. At Racine, nine miles above here, 125 houses are moved from their foundations, and a number floated away. A similar condition of affairs exists all along the river between here and Parkersburg. Middleport, twenty-five miles below Pomeroy, is also under water. Many merchants not anticipating an unprecedented rise, left their goods in the store, and awoke Saturday morning to find them under water.

At 10 p.m. there was about twelve feet of water on Front street, the main business street of the town.

The Secretary of War is taking active measures looking to the immediate relief of the sufferers from the overflow of the Ohio and tributaries, in accordance with the act appropriating $300,000 for that purpose. Orders were issued to-day for Gen. Amos Beckwith, Assistant Commissary General, stationed at St. Louis, to proceed to Cincinnati, where he will have general charge of the distribution of supplies. He will establish his headquarters at Cincinnati, and act directly under the orders of the Secretary of War. Orders were also issued for the purchase of supplies and the charter of a sufficient number of boats to distribute them where most needed.

Jeffersonville, Ind., 12.—Nine thousand people were compelled to move to second stories.

Gallipolis, O., 12.—The river is falling slowly. Four relief boats were sent to Pomeroy where 10,000 people are camping on the hill tops, many suffering from hunger.

Pittsburg, 12.—The river is swelling again at the rate of two inches an hour. Dispatches from above report continued rains, and the water rising. People living on bottom lands are filled with apprehension of another flood. Many have not yet recovered from the late deluge. There is a discouraging outlook with 10 feet of water now submerging the lower districts of the two cities. The situation of sufferers in Allegheny is worse, if possible, than any day since the flood abated. Additional cases of destitution are reported. 2,500 people were supplied with food yesterday, an increase over any previous day.

Demoralization of the Weather.

CHICAGO, 12, midnight.—It rained here all day, freezing as it fell, coating the sidewalks with ice to the depth of an inch or more. Telegraph wires are heavily coated with sleet, and badly demoralized in every direction. Many of the lighter wires have gone down under the weight of ice. Reports to the Associated Press indicate serious meteorological disturbances throughout the territory between Omaha and Pittsburg, Winnipeg and Memphis, and a general mixed up condition of things. At one point reports show snow a few miles in one direction, and fog in a like distance in another, in another rain, and in still another sleet. At Sioux City at 6 p.m. it was 4 below zero, while at Des Moines it was 28 above. At Chicago at this hour the rain has ceased and it is growing slightly colder.

BRIEF TELEGRAMS.

San Francisco, 12.—Santa Rosa, Cal.: The trial of the celebrated Colton case was resumed this morning.

San Francisco, 12.—Merchants' Exchange advices: Captain Worth and the crew of the wrecked steamer *Umatilla*, were picked up and taken to Port Townsend.

Washington, 12.—The House committee of commerce, voting on several propositions designed to test the sense of members upon the general question respecting the advisability of providing by Congressional legislation for the regulation of inter-State commerce, it was decided by 14 to 1, that there ought to be remedial legislation of some kind, O'Neil casting the negative vote. Upon the proposition to deal with the matter by a commission, there were nine affirmatives and six negatives. Upon the proposition to extend such legislation to water ways, the vote was yeas 2, (Boyle and O'Neil) nays 13.

Washington, 12.—The Senate passed the bill directing the Secretary of the Treasury to pay Mrs. Louisa Boddy, of Oregon, $3,400 in full settlement of her claim against Government for the depredations committed and the property taken and destroyed by Modoc Indians in November, '72. The Boddy family settled upon public lands in Oregon, and were among the first victims of the Modoc war. The husband of the claimant, her two sons and son-in-law were murdered, and their property taken; for this she put in a claim which the Senate voted to allow.

Philadelphia, 12.—The Pennsylvania Railroad Company has contributed $4,000 for the sufferers by the western floods, $2,000 to be distributed from the Pittsburg office, and $1,000 each along the line of the Panhandle and the Pittsburg & Ft. Wayne.

Baltimore, 12.—Robert Garrett has ordered free transportation of provisions and other gifts on the Baltimore & Ohio for the sufferers by the flood, also the free use of the Baltimore & Ohio telegraph line.

Never wash the feet in warm water except just before retiring. Cold water with a little ammonia or salt dropped in, is much more pleasant and healthful. adv 62

CITY COUNCIL.

The City Council convened last evening at the usual hour, Mayor Jennings occupying the chair and disposed of the following business:

A petition was presented from the Pleasant Valley Coal Company, per W. F. Culton, secretary, asking for a license permitting the Denver & Rio Grande Railway company, to lay, maintain and operate a railway track for a term of ten (10) years on Second South Street, from the present depot of said company on Fifth West Street, eastward, along Second South to the northwest corner of block 62 in Plat "A," of the city survey, said corner being at the junction of Second South and Fourth West Streets, said track to be laid, maintained, and operated, in such manner as might be provided in the license.

Referred to the committee on streets and alleys.

A petition was presented from Abraham Coon and 50 others, asking that the Council cause to be opened for public use that portion of Ninth West Street lying between North Temple and Third South Streets, and representing that such action was necessary for the convenience of the inhabitants of the western portion of the city for an outlet South, and to protect land owners who depended on the waters of Agricultural Canal for irrigation.

Referred to the committee on streets and alleys.

Dwight Spencer, agent of the American Home Mission Society of New York city, represented by petition that he had just completed an edifice for the First Baptist church of this city, and a building for their day school on the south-west corner of Second South and West Streets; and asked that the crosswalks leading to said corner be graveled so as to make access to the buildings both pleasant and easy.

On motion, the petition was granted and the supervisor of streets instructed to gravel the four crossings on the corner of Second South streets, without unnecessary delay.

A petition was presented from D. F. Nicholson and thirteen others, asking that the water main be extended along Fourth South street to a point twenty-six rods east of Third East street, said petitioners agreeing to pay the amounts set opposite their respective names, representing more than three-fourths the cost, said amounts to be returned in water rates.

On motion the prayer of the petition was granted and the Superintendent of Water Works instructed to perform the work after the completion of other extensions heretofore ordered by the Council, and after the total amount subscribed had been paid in full to the Treasurer.

Dennis A. Saunders and twelve others, residents of the Tenth ward, by petition, represented that they had suffered much annoyance and loss in consequence of the overflowing of water from an ice pond owned by John Heil; that their property had been damaged and their building injured thereby; that on the nights of January 6th and 7th, 1884, the water rushed through the premises of D. A. Saunders, under his house and into his cellar, arousing his family at midnight and ruining them to great inconvenience; that the damage had been caused by the neglect of the said John Heil to make proper ditches, etc; that John Heil had taken the water which lawfully belonged to petitioners and they asked that the Council to protect them in their rights and cause the annoyance to be stopped.

Referred to the committee on irrigation.

The Salt Lake Dramatic Association, per Caine and Clawson, represented by petition, that the license now charged for running the Salt Lake Theatre was $200 per annum, although in 1882 it was only $100, having been reduced for that year on petition. Said reduction was granted by the Council at a time when they were not other theatres, opera houses, or skating rinks in the city, solely on the grounds that the license was not in just proportion with that charged on other legitimate business throughout the city. That last year they were required to pay $200. Although their income, owing to the great increase of other places of amusement, was much less than ever. The petitioners therefore asked for such reduction of license hereafter as would seem right and just in the premises.

Referred to the committee on license.

A petition was presented from Thos. Ellt and nineteen others, asking the Council to have a footbridge constructed across the canal on the corner of Fourth West and Seventh South Streets, for the accommodation of citizens residing in that vicinity.

Referred to the committee on streets and alleys.

The City Surveyor submitted profiles of street and sidewalk grades in book form, as per order of the Council as follows: East Temple and First East, from South Temple to First North Streets; Canon Road from First East to Fourth Street; A, B, C, D, E, F and G streets from South Temple to Fourth Street; North Temple and First North, from East Temple to First east; First street from First East to G street, Second and Third streets from Canon Road to G street; Fourth street from A to G streets.

Referred to the committee on streets and alleys.

The committee on improvements to whom was referred the petition of G. F. Culmer and 70 others asking the city to place lamp lights up Centre street over the hill as contemplated in the charter to the gas company, or to erect an electric lamp at a suitable place on the hill, recommended that—as soon as the gas company should have fulfilled the requirements made of them by the City Council to extend the gas mains and put up lamps in those streets already recommended—then if the company run their mains up Centre street, the committee recommended that gas lights be placed on said streets. Adopted.

The committee on municipal laws, to whom was referred the subject of a new charter for Salt Lake City, or to consider the propriety of making amendments to the present charter necessary for the best interests of the people in the growth and development of the city, and the good government thereof, reported that they had given the subject consideration, and presented a bill for "An act amending the charter of Salt Lake City," and recommended that it be presented to the Legislature of Utah, and its passage urged before that body.

On motion the report was accepted and filed, and the accompanying bill was laid on the table to come up in its order.

The committee on public grounds, to whom was referred the petition of Edward Brain asking the privilege of purchasing a certain piece of land near the military reservation, and the petition of remonstrance offered by Alfred Gunn, reported that they had inquired into the matter and found that the strip of land described in the petition of Mr. Brain did not belong to Salt Lake City and therefore no conveyance could be made to petitioner. Adopted.

The committee on claims, to whom was referred sundry claims, reported as follows: On the claim of John C. Cutler, county clerk of Salt Lake County, for copies of the registration lists supplied by judges of election for cost of copying said lists, $25, they recommended that it be allowed; on the claim for $23, of James H. Johnson, for damages to his lot near Liberty Park, occasioned in making improvements on the park, they recommended that $15 be allowed; on the petition of Z. Snow for relief, it appeared to the committee that hardship was occasioned in the repeated change of grade of petitioner's property, and they recommended that $100 be allowed for his relief.

On motion the report as regards the last two bills was adopted and the amounts appropriated.

The bill of John C. Cutler for $25 for copies of the registration lists supplied the judges of election was disallowed.

A communication was presented from Hons. E. G. Woolley, Joseph Barton, A. Hatch, D. H. Peery and John Morgan, members of the Utah Legislature, and composing a committee appointed by that body to provide for the entertainment of the Wyoming Legislative Assembly during their visit to Salt Lake, informing the Council that, desiring to show such respect as properly becomes the representatives of a sister Territory, they had made arrangements whereby the Representatives of Utah would meet the Representatives of Wyoming at a concert in the Walker Opera House on Wednesday, February 13th, and at a performance in the Salt Lake Theatre on Thursday, February 14th, and respectfully requesting the co-operation of the Mayor and City Council in making them welcome by attending both places at the times stated, and participating in the enjoyment of the occasion.

On motion of Alderman Raleigh the invitation was accepted, and the Recorder instructed to acknowledge the courtesy.

Brief speeches were made by Councilors Riter and D. H. Wells, both of whom considered the visit of the adjoining Territory's law-making body an event of considerable importance, and a compliment to the city, and they were of opinion that the municipal government should not only participate in the entertainment of the distinguished guests, but should extend the hospitality of the city and provide arrangements, if possible, for the further entertainment of the visitors.

A motion was accordingly made by Councilor Riter, and carried, that the Mayor appoint a committee of three to confer with the Legislative committee and ascertain if the city could not share the honors of entertaining the Wyoming Legislative Assembly. The Mayor named as said committee Councilors Riter, J. F. Wells and Alderman Diawoodey. This committee then withdrew to confer with the Legislative committee, which was in session in an adjoining room.

The committee on cemetery to whom was referred the subject of bringing water on to the city cemetery reported that they had investigated the matter and submitted estimates marked exhibit "A" and "B," giving the cost of pumping water from the artesian well and of conveying water through flumes from Dry Canon.

Laid on table subject to call.

The committee on construction of the Jordan and Salt Lake City canal made a final report of the amounts paid for the construction and repairs of the canal, on the various amounts, to Jan. 31st, 1884, showing total expenditure, $286,740.76, contra account as per auditor's books; $5,300.29; property on hand $796.75; amount to balance net cost, $280,501.62.

Report adopted and canal committee discharged.

A bill was presented from Jesse W. Fox, Jr., city surveyor, amounting to $351.20, for sundry surveys made by himself and party between the 5th day of December, 1883, and February 12th, 1884, which was allowed and the amount appropriated.

The bill for an act amending the charter of Salt Lake City, prepared by the committee on municipal laws, for presentation to the Legislature, came up in its order for approval by the City Council. The bill provides for more extensive powers in relation to the licensing of billiard tables and the running of pin and ball alleys; also for prohibiting the playing at any game for money or other property or anything representing money or property, conferring power to refuse licenses to liquor dealers for one year, if convicted of manufacturing, selling or giving away such liquors in violation of law; authorizes the Mayor to appoint, by and with the advice and consent of the City Council, the regular police to the number which may from time to time be presented by the City Council, and to remove the same at pleasure; to appoint special police when in his judgment the public good may require it, but not for a longer period than ten days without the consent of the City Council. It also provides that wherever in the charter and amendments thereto the power to license persons is granted, such power shall be extended and deemed to include the business or occupation in which such persons may be engaged, and vice versa; and that females shall not be employed in the selling, giving away and other disposition or delivery of intoxicating liquors, and providing punishment for any female so employed or any person employing her.

The bill was sanctioned by the Council, and ordered to be placed in the hands of Hon. John Clark, member of the House of Representatives from Salt Lake County, with the request that he present the same to the Legislative Assembly, and seek to have it passed.

The committee appointed to consult with the legislative committee on entertainment of Wyoming legislature, reported that they found that Friday night, the 15th inst., was left unoccupied, no entertainment being provided as yet for that evening. Several propositions had been suggested but none decided upon. The one which seemed to meet with greatest favor was to engage the Home Dramatic Club to give a performance on that evening in the Salt Lake Theatre, though a number of obstacles presented themselves in the shape of prior engagements by members of the club, a number of whom had arranged to give various exercises at an entertainment to be given on Friday night, in the Eighteenth Ward Chapel.

The Legislative committee were quite willing to co-operate with the city officers in such manner as might be agreed upon, and had extended an invitation to the City Council Committee to accompany themselves and the Governor on their reception trip to the Wyoming line, leaving the City at 7 o'clock Wednesday morning. On motion it was decided to formally extend the hospitality of the City to the Wyoming Legislature and officers accompanying them, and the City Council committee were instructed to continue their labors to provide some appropriate entertainment for the visitors on Friday evening, and the Mayor was associated with said committee. The invitation to accompany the reception committee and the Governor to welcome the visitors, was also accepted by the City Council committee.

Adjourned for one week.

SCIENTIFC AND USEFUL.

The first ingredient in conversation is truth, the next good sense, the third good humor, and the fourth wit.

Coarse brown paper soaked in vinegar and placed on the forehead is good for sick headache. If the eyelids are gently bathed in cool water the pain in the head is generally allayed.

To prevent iron from rusting in the ground it is painted over with a mixture of 100 parts of resin, 25 parts of gutta percha, 50 parts of paraffin, and 30 parts of magnesia, besides mineral oil. A temporary paint for the movable parts of machinery contains 20 or 30 per cent. of magnesia or burnt dolomite, with some vaseline added to prevent drying.

The edge of the razor is a very delicate thing. Heat and cold affect it. Under a strong magnifying glass the edge of a razor which has been exposed to the cold world seem like a saw. Hot water throws the litte particles back into place and makes the edge smooth. A sudden change in the weather always affects the razors in a barber shop and the tempers of the barbers.

The difficulty in making the butter come quickly at this season is commonly found in the fact that the cream is kept at too low a temperature. It is not enough that at churning the cream show a warmth of 60 to 65 degrees. If it has been kept much colder than this the sudden increase of warmth will make the cream foam in the churn and not form into butter globules except with great difficulty, occasionally not at all.

President Johnson, of the Indiana State Horticultural Society, states that he prevents entirely the attacks of peach borers, "by removing a small portion of the earth from the body near the roots, and filling its place with a pint to a quart of soft soap, from the middle to the last of May. If the grub has previously found his way into the tree, the soap will kill him; if he is not there, he will not get in after the soap is placed there. This method has never failed with me."

Experiment has shown that if a portion of the eye of potatoes is cut out or injured it causes the remainder to push forward more vigorously. In a whole potato it is rare that more than three or four eyes grow. By cutting in two or three pieces and removing part of the eyes on each, they will all produce strong shoots, if the pieces are not afterwards injured by heating from being piled in two large heaps. It will make a great difference to the coming crop if potatoes intended for seed are spread thinly in a light place, where the temperature remains a little above the freezing point.

William Horne, a widely known veterinary surgeon, writes that in many years' experience in giving hens barley as a part of their food, he has never had a case of chicken cholera. There is no doubt that barley may often be profitably substituted for corn in feeding all animals. It weighs 48 pounds per bushel and will commonly produce as much weight per acre as oats. It is excelled by corn in favorable seasons; but it can be grown with so much less labor than corn that it is nearly or quite as economical a food where land is cheap and labor dear.

One reason why progress in breeding good milkers among native cows has been so slow is the fact that the influence of the male is too little understood. It has been the habit of many farmers to save only heifer calves from deep or rich milkers, while calves of the other sex were fattened as veal. It is even yet common for many farmers to use bulls chosen for size, good looks or other merits rather than dairy prepotency. The best breeders of dairy stock now understand that it is quite as important for the progeny that the bull be from a good milk or butter strain as that the mother be a good milker.

The Duke of Cleveland, who is 80 years of age, is the oldest Duke in the United Kingdom, and the Duke of Newcastle, aged 19, is the youngest.

It Did its Work.

Mr. S. S. Walker, 5 Coral street, Lowell, Mass., says: "I have used St. Jacobs Oil for the immediate relief and cure of chilblains, and it accomplished both."

Gentle Women

Who want glossy, luxuriant and wavy tresses of abundant, beautiful Hair must use LYON'S KATHAIRON. This elegant, cheap article always makes the Hair grow freely and fast, keeps it from falling out, arrests and cures grayness, removes dandruff and itching, makes the Hair strong, giving it a curling tendency and keeping it in any desired position. Beautiful, healthy Hair is the sure result of using Kathairon.

AYER'S Cherry Pectoral.

No other complaints are so insidious in their attack as those affecting the throat and lungs, one so trifled with by the majority of sufferers. The ordinary cough or cold, resulting perhaps from a trifling or unconscious exposure, is often but the beginning of a fatal sickness. AYER'S CHERRY PECTORAL has well proven its efficacy in a forty years' fight with throat and lung diseases, and should be taken in all cases without delay.

A Terrible Cough Cured.

"In 1877 I took a severe cold, which affected my lungs. I had a terrible cough, and passed night after night without sleep. The doctors gave me up. I tried AYER'S CHERRY PECTORAL, which relieved my lungs, induced sleep, and afforded me the rest necessary for the recovery of my strength. By the continued use of the PECTORAL a permanent cure was effected. I am now 62 years old, hale and hearty, and am satisfied your CHERRY PECTORAL saved me.

HORACE FAIRBROTHER."

Rockingham, Vt., July 15, 1882.

Croup.—A Mother's Tribute.

"While in the country last winter my little boy, three years old, was taken ill with croup. It seemed as if he would die from strangulation. One of the family suggested the use of AYER'S CHERRY PECTORAL, a bottle of which was always kept in the house. This was tried in small and frequent doses, and to our delight in less than half an hour the little patient was breathing easily. The doctor said that the CHERRY PECTORAL has saved my darling's life. Can you wonder at our gratitude? Sincerely yours,

MRS. EMMA GEDNEY."

159 West 128th St., New York, May 16, 1882

"I have used AYER'S CHERRY PECTORAL in my family for many years, and do not hesitate to pronounce it the most effectual remedy for coughs and colds we have ever tried.

A. J. CRANE."

Lake Crystal, Minn., March 13, 1882.

"I suffered for eight years from Bronchitis, and after trying many remedies with no success, I was cured by the use of AYER'S CHERRY PECTORAL. JOSEPH WALDEN."

Byhalia, Miss., April 5, 1882.

"I cannot say enough in praise of AYER'S CHERRY PECTORAL, believing as I do that but for its use I should long since have died from lung trouble. E. BRAGDON."

Palestine, Texas, April 22, 1882.

No case of an affection of the throat or lungs exists which cannot be greatly relieved by the use of AYER'S CHERRY PECTORAL, and it will always cure when the disease is not already beyond the control of medicine.

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.
