

SCALES OF JUSTICE.

LAWYER BEATS JR. REJECTS PENSION
OF HIS SON'S BUREAU.

JR. BENTT AND THE BICYCLE.

TODAY. PRIVATE (cont.)—Meeting of the
"Friends" Club—The Watch
Gives Up Its.

Now that Chief Justice Merritt has cleared up his holiday plans, Associate Justice Burt will not hold the reins of the Third circuit court until his colleague's return three weeks hence. He will sit when necessary during the interval, but his pronouncement is that there will not be much to do.

ADVISORIES TO CITIZENSHIP.

ANNA G. GARDNER, a widow, now a resident of Salt Lake City, was by her husband to accompany her Judge Burt.

ARGUED AND DECIDED.

RANDAL D. JONES vs. HENRY M. MORRISON. Decided to answer and motion to strike out part of answer and substitute.

THE HARRINGTONS VS. RYAN.

The representative suit of Leon Evans Jr., vs. William Harrington brought to recover possession of two lots of alleged wheat barns, claimed to have been sold or otherwise transferred by Commissioner McNulty this morning. His claim, based on facts of plaintiff, indicated that the barns, or its value, he turned over to Evans, and allowed all \$100 damages. Fifty dollars had been claimed on the latter item.

ALL THROUGH A HURRICANE.

A few days ago Dr. D. H. Howell, the dentist, in Commissioner McNulty's court, on account of the defendant having run him with a bicycle, arrested him three and imposed both his person and his clothing. Dr. Howell declined, however, to pay his all essential way expenses and said the bicycle which had been the cause of all the trouble was seized upon and set aside by a deputy sheriff. Plaintiff asserted that the bicycle was his own property and not the defendant's in any way, and upon this representation the wheel was restored, but the master was never there. Dr. Howell has been in touch with the attorney for defendant, McNamee, and this afternoon on supplementary proceedings, and then an effort will be made to direct what really is the actual owner of the article to question.

THE WATCH GIVES UP.

C. H. Parsons fell into the clutches of a deputy sheriff between 5 and 6 o'clock yesterday afternoon, but he surrendered the watch which he had been holding in trust, and agreed to turn over to his attorney of defense, the sum of \$100, plus his expenses of the judgment recently entered against him on supplementary proceedings at the suit of A. H. Ochs & Co., and so escaped confinement for one day. His attorney, in his defense, said that plaintiff's cause of action was "fanciful," and that was the reason why he was compelled to much money in so small a case.

TODAY'S PRIVATE COURT.

Estate of Annie F. Higley, deceased. Hearing on petition for letters of administration. Irving M. Higley, appointed administrator on filing a bond of \$500.

Estate of Thomas McCallum, deceased. Hearing on petition for appointment of committee to investigate. L. M. Calfee was appointed to that office.

Estate of Anna A. Williams, deceased. Hearing on petition for letters of administration. Merle G. Taylor appointed administrator on filing a \$500 bond.

CARTER HELD TO ANSWER.

The adjourned preliminary hearing of William Carter, on a charge of straitlacing, resulted in a guilty plea, and the trial date was set for July 20, to take place in Commissioner Carter's court this morning. After some additional witnesses had been examined by his lawyer, the defendant, in view of the judge's adjournment, did not appear.

Carter is moving around with the shield at his side, trying to obtain clemency.

THE "WORLD" CASE MADE.

There was a meeting of the "World" Club in the Supreme Courtroom last evening. John James was elected president for the ensuing three months. Charles Harvey vice president, and C. L. Lee secretary. The club's general committee was chosen as follows: M. E. Kangas, Alex. McMaster and Fred W. Morrison.

A paper on "Agency" was partly read by John Murphy and will be continued on Wednesday evening. The meeting, which is an active program, will be taken up. A paper on "Loyalty" by J. W. Chever, a paper on "Pessimism" by M. E. Kangas, etc. etc. etc. It is believed that should it be adopted, the club will have a large trial to work out, and the members will take part. The club is doing some excellent mutual work in the way.

WEATHER AND CROPS.

The yield of wheat is good—Potatoes plentiful—Bitterroot Squirrels and Rabbits.

The weather of last week was unusually, with warm days and cool nights. It was dry, except from scattering showers, which were heavier in the southern counties. According to all reports, the weather was unusually favorable for crops. Grain ripened rapidly, and harvesting has made considerable advancement. Some threshing has been done in early locations. The wheat yield lagged, in one place only, where it was reported very small. Potatoes are plentiful and healthy in each case making especially

a copious crop. Bitterroot and rabbits have not come in good. Corn is growing nicely. Beans are in market.

DR. BENTT AND THE BICYCLE. The last session of winter school is in progress.

BEST—Bicycles. No. 100, Second St. First trip of lesson, 10 miles. Cost, 25¢. Total cost, 100¢. What is best? What is best?

SHOES—Perfume. Timothy and Company, 100, Second St. Girls' clothing, cost, and a good deal of not much. Boys' caps and hats will soon ready to go.

SHOES—Handout. Haying begins early now. Green beans are in market.

WHEAT—Habits. Every day of the week was one of nearly continuous rain. Very low and cool, and very little wind, good growing weather. The grass is in full leaf. Early spring flowering. Heavy snows near the mountains, covering the ground with water and moisture. Snow grain was washed away.

WHEAT—Utah. Nights have been unusually cold. Precipitation, especially of good quality where they have been taken out. Buckwheat and datura plentiful, and late out. A good rain now would give a special opportunity.

WHEAT—Logan. Weather is still hot. It is making well in a day or two. Second crop of rice is being gathered. Green beans are in market.

WHEAT—Logan. Weather is still hot. Weather is still hot. Green ripening very fast, keeping the blades running from daylight till dark. The green is above the average, and very heavy in some places.

WHEAT—Logan. Occasionally slight showers. Very variable weather at first. Yield of grain promises to be good, about 40 bushels per acre.

WHEAT—Logan. Green ripening very fast, keeping the blades running from daylight till dark. The green is above the average, and very heavy in some places.

WHEAT—Logan. Weather is still hot. Weather is still hot. Green ripening very fast, keeping the blades running from daylight till dark. The green is above the average, and very heavy in some places.
