Britain Determined to Complete the Work - Resignation of Prest. Kruger-15,000 Boer Prisoners.

End to the War.

London, Sept. 14 .- The following dispatch has been received at the war of. fice from Lord Roberts: "Machadodorp, Thursday, September 15 .- Kruger has fled to LoudenzoMarques, and Botha has been obliged to give over the command of the Boer army, temporarly, to Viljoen, on account of ill-health. In consequence of this, I have circulated a proclamation as follows:

"The late President Kruger, with Reitz and the archives of the South African Republic, has crossed the Por-tuguese frontier and arrived at Lourenzo Marques, with the view of sail-ing for Europe at an early date.

KRUGER HAS RESIGNED.

"Kruger has formally resigned the position which he held as president of the South African Republic, thus severing his official connection with the Transvaal. Kruger's action shows how hopeless, in his opinion is the war which has now been carried on for nearly a year, and his desertion of the Boer cause should make clear to his fellow burghers that it is uscless to continue the struggle any longer.

15,000 BOER PRISONERS.

"It is probably unknown to the in-habitants of the Transvaal and Orange River Colony, that nearly 15,000 of their fellow subjects are now prisoners of war, not one of whom will be released until these now under arms against us surrender unconditionally. "The burghers must be cognizant of the fact that no intervention in their behalf can come from any of the great powers, and further, that the British empire is determined to complete the work which has already cost so many lives, and carry to a conclusion the

lives, and carry to a conclusion the war declared against her by the late governments of the Transvaal and the Orange Free State, a war to which there can be only one ending.'"

A RUINOUS WAR.

Lord Roberts' proclamation then points out that with the exception of the small area which Gen. Botha is defending, the war has degenerated in-to irregular operations, which must be brought to an early conclusion, and concludes:

cludes: "The means I am compelled to adopt are those which the customs of war prescribe as applicable to such cases. They are ruinous to the country, entail endless suffering to the burghers and their families, and the longer this guerilia warfare continues, the more vigorously must they be enforced."
