Book Announcement.

Each Christmas season finds us with a larger, more varied and a better selected stock of books. We are encouraged each year by the growing taste for good books and we are compelled to meet the increasing demand.

Our purchases were made early, so we are ready for the early buyer who likes a large and complete stock to select from.

There are thousands of things which are sold for holiday gifts whose value is limited. Many of them hardly last through the holiday season. But a book is more likely to be cherished and to be read and reread long after Christmas has become a memory.

For this season the giving of books is becoming increasingly popular. This demand has encouraged us to make a steady improvement in our stock.

## SIX NEW FOREST DISTRICTS OPENED

Nearly Four Hundred Foresters,  
Clerks and Stenographers  
Make Up Force.

OFFICIALS OF UTAH DIVISION

Clyde Leavitt Is District Forester,  
With Headquarters at Ogden—  
Personnel of Assistants.

Special Correspondence.

Washington, Nov. 24.—The names of the 377 foresters, clerks, and stenographers who are to make up the personnel of the United States forest service headquarters of the six districts in which the national forests have been divided have just been announced. The district foresters' offices, located in Denver, Colo.; Ogden, Utah; Missoula, Mont.; Albuquerque, N. M.; San Francisco, Cal., and Portland, Or., will open on Dec. 1.

The new field organization of the forest service will greatly facilitate the use of the national forests by the people. It will mean that the national forest business which formerly was transacted in Washington will be handled by officers on or near the ground. The establishment of the district headquarters is the culmination of a plan towards which the forest service has been working steadily, since it took charge of the national forests.

Each national forest district will be in charge of a district forester. The work at district headquarters will be distributed among four offices, operation, grazing, silviculture and products, each equipped with men of special training for the work of their office.

WORK OF DEPARTMENTS.  
The office of operation will be charged with responsibility for the protection of national forests, for the building of roads, trails, and other permanent improvements upon them, for the organization of the force of national forests, and with the supervision of all business relating to the operation of national forests. The office of silviculture will have supervision of the free use and sale of timber from national forests, forest planning upon them, and will conduct forest studies on national forests as well as in co-operation with private owners in the district. The office of grazing will supervise grazing business in the district, and will conduct the actual fixing of allowances, periods, and rates, and will make studies looking to the improvement of the forage crop on national forests. The office of products will make both independently and in co-operation with private owners, studies leading to a more profitable use of timber on national forests with the district, and to their preservative treatment.

FORCE OF PICKED MEN.  
From the district foresters down, the personnel of the district offices is made up of men picked for their proved capacity, for their thorough training, and for their experience in the west. Most of them are men who not only have worked in the west after they entered in the service, but who lived in the west before they took up the government forest work. Many of them are men who formerly were employed on the national forests and have been promoted to larger responsibilities as a result of their high efficiency.

OFFICIALS OF DISTRICT 4.  
The personnel of the district offices has just been announced, and the officials in charge of District No. 4, including Utah, southern Idaho, western Wyoming, eastern Nevada, and northern Arizona, with headquarters at Ogden, Utah, are as follows:

## AMUSEMENTS.

Theater—An over-whelming house greeted "The Alaskan" last night, again demonstrating the truth of the saying that Thanksgiving is the best show night in the year. Not so much can be said for the afternoon, as the day is one that people find their entertainment chiefly at home or on the foot ball field, so that the theater and the other houses only drew fair sized audiences.

"The Alaskan" goes again tonight, and tomorrow afternoon and evening, to be followed by the Jefferson Brothers on Monday. The seat sale is now going on.

Orpheum—People were turned away from the Orpheum box office last night unable to obtain seats. The bill of the week, in which there are two headliners that call for equal applause, "The Night of the Wedding" and the Howard Brothers, will be repeated this afternoon and evening and tomorrow afternoon and evening.

Colonial—Murray and Mack also shared in the big Thanksgiving prosperity and had an enormous audience at last night's presentation. Next week "Fantasia" will be the bill with Teddy Wobbi, who is remembered for his hit "The Alaskan" last year, as the principal comedian.

Grand—A liberal portion of holiday patronage was bestowed upon the Grand, Thanksgiving afternoon, and evening, the matinee being especially well attended. "A Gambler's Sweetheart" had the opening performance of a half week's engagement, and is a bill much more to be appreciated than its predecessor. The play is melodramatic yet not extremely so, and is an interesting story, western in character. The efforts of the players were appreciated as well attested in the liberal applause accorded. The leading roles were essayed by Miss Grace Hale and Mr. Armin, and the latter appeared also in between-act specialties that added much to the entertainment.

Next week H. Henry's Minstrels will be seen at the Grand, the first of that class of amusement to appear at the house this season.

STORM DAMAGE ENDED.

The inconveniences occasioned by the late record breaking storm are practically at an end, with the return of fair weather. The Western Union experienced considerable trouble with its wires, but the cable system, but the linemen have now got things to rights. The Postal Telegraph company had very little trouble, and the telephone companies are in normal shape once more. The Utah Light & Rail-way company is appreciative as the mountains are full of snow. But with cold weather to help the snow back, there is not much danger, though constant watch is being kept.

Uly's Cream Balm has been tried and not found wanting in thousands of homes all over the country. It has won a place in the family medicine chest among the reliable house hold remedies where it is kept at hand for use in treating cold in the head just as soon as some of the members of the household begin the preliminary sneezing or snuffling. It gives immediate relief and a day or two's treatment will put a sup to a cold which might, if not checked, become chronic and run into a bad case of catarrh.
