It is reported that the President's message with reference to the South message with reference to the South American question, does not read at all like the manuscript furnished by Blaine as the views of the Department on the subject. It is the habit of heads of Departments to furnish the Executive facts bearing upon their branch of the service for the President's resume of the state of the Union and the consequent recommendations. It is understood that Blaine, in transmitting the State Department recommendations, had incorporated language altogether too vigorous for discretion in regard to Chili and Peru. morThe Dynamite Bustness. NEW YORK, 9.—The Times reporter interviewed a prominent Irish agitator, who said about McNamara, who is wanted in Montreal in connection with the recent attempt to blow up public buildings: "I saw him no later than to day. He returned from Canada night before turned from Canada night before last, and is at this moment only a few blocks away. He is a determined fellow, brave as a lien and true as ateal. Six months ago he abot a landlord in Ireland, and came to this country. In Ireland he was a gentleman, and kept a pack of hounds, but he was in full sympathy with the poor peasantry. The intention was to blow up the Court House in Montreal, the House of Parliament in Ottawa, and the Arsenal in Quebec, and this will yet be done."

Several newspapers in commenting on Secretary Folger's recommendations to withdraw from circulation the outstanding silver certificates deprecate such a policy, saying that it would result in a stringency in the money market. Secretary Folger has no intention of effecting such a sudden withdrawal, but he does earnestly recommend a change in the present law, because it has operated to the disadvantage of the government in many ways.
