Interurban Franchise Forfeiture Under Consideration-Three Years for Edwards-School Affairs.

Ogden, June 6.-When the storm which has been hovering over this section of the country ceases, it will then be the time to figure the damage done to the crops in this and surrounding countles. According to the estimates of well known and reliable farmers and canners, the damage to the tomato, beet, berry and vegetable crops will reach a very large sum.

The loss of the tomato crop to the canners is estimated at figures vary-ing from 20 per cent in the highlands to 35 and 40 per cent in the lowlands. to 35 and 40 per cent in the lowlands. In the western part of the county and in Davis county the tomato crops are almost drowned out. Acres and acres of tomato beds are under four and six inches of water. The same applies to the sugar beet crops in the matter of being flooded as in the tomatoes.

for the tomatoes. From Boxelder county, the correspon-dent of the "News" learned that the dent of the "News" learned that the beet and tomato crops are suffering as they are in Weber county, and the crops will be about 40 per cent of what whis planted. The strawberries are also suffering and in many cases several acres of the plants are in danger of being toof the plants are in danger of being to-taily destroyed. The plants have borne heavily this year, but during the stormy weather it has been impossible to pick the ripe ones. While the ripe ones are cong to waste the green ones are weighting the plants into the mud and water and they are absolutely rotten. While the farmers are in dire distress ownet the heavy rains the fruit growers of Weber and Boxelder counties are in high spirits over the splendid outlook for an unusually heavy crop. Accord-ing to reports from the various north-ern districts of the county, it is stated that the indications point to one of the harrest crops in years. In the Maked largest crops in years. In the Malad valley the apple crop will be a little light owing to a frost which visited that district shortly after the trees

were in bloom. If the canners have a short season on tomatoes which are now about 30 days behind what they were last year at this time, they will have an unusual-ly heavy pack of fruit. While only bout 30 per cent of the acreage of forher years was contracted for this year for tomatces and the crops will be very light, the tomato market will hot suffer very light, the tomato market will hot suffer very much from scardiy on account of the geat stocks of the pro-duct that are on hand at the ware-houses of all the factories in Davis, Weber and Boxelder counties.

CLOSE OF DENTAL CONVENTION.

Doctors Spend Afternoon in Ogden

URBAN. The law committee of the Ogden city council held a meeting this afternoon for the purpose of discussing the mat-ter of a revokement of the Bamberger franchise. A meeting of the committee with the city attorney was held yes-terday afternoon and the matter dis-cussed in all its phases, but nothing would be given out by those present. If the city undertakes to revoke the franchise it will most probably have a costly legal battle on its hands as there is no doubt that Sen-ator Bamberger will fight the case. Ac-cording to those who are familiar with the franchise there is not any clause in the franchise which could possibly be construed as the forfeiture clause. As to what will be the outcome of the meeting this afternoon will not be known until Monday night when, if there are any recommendations, it will me made to the council. But in spite of the gathering threatening cloude the indeputable context con spite of the gathering threatening clouds the indomitable senator conclouds the indomitable senator con-tinues the building of his interurban line into Ogden and which will un-doubtedly bring hundreds of visitors to this city on and after the first of HOT SPRINGS TIME TABLE. VETERAN HONORED. One of the events of the week was a surprise party tendered Mrs. Eliza 3. Keller on her birthday, June 4, at the home of her son, Alva S. Keller, in East Mill Creek. She is the wife of Alva Keller, a pioneer of 1848, and is the mother of five children; she has also 33 grandchildren and nine greatgrand-children. She was born in Clifton, England, and at the age of 16 was left an orphan and later with her needle worked her way from England to Utah, crossing the plains in Capt. Wheelock's ox team company. She is still in good health and in the possession of all her faculties, and present appearances in-dicate that she will reach the century mark; she can still produce the finest needlework. SUPT.
