The Eye In Old Age.

Dr. Chryallereau is one of the foremost sys specialists in Paris and the model of word. He equition was therefore simple upon the effect upon eyesight in these times of sumiveron reading, which is such a characteristic of the sign.

Speaking to a Heraid correspondent, he said it was very difficult, in fast, at most impossible, to leg dreen any grecraf rado in the matter. A frequenmalady of the eye, as old age comes on he cutstract. This is gradual, so much so that it is often advanced for before it i mattered.

It is not probable, however, that the eyestight will endealy full, unless there is some extraneous cause, such as hemorthage of the retirm, which constitues is to be found when the patient is adtained in age.

Dr. Abodie of 9 Rus Volney pararectinally the sums opinion, pointing at that it was hardly likely that say so who had empyod normal epecipits would at an advanced eye suffer from he sudden failure of the stabl unless it care caused by soom shock or great motion.—Faris Harald.
