

DESERET EVENING NEWS.

TRUTH AND LIBERTY.

VOL. VIII.

SALT LAKE CITY, UTAH TERRITORY, MONDAY EVENING, DECEMBER 21, 1874.

NO. 25.

ANOTHER "OPEN LETTER."

Dear Public:
We have often observed how naturally, when you wish to purchase any article of comfort or necessity, you endeavor to procure it at the lowest possible price, cheapness generally constituting the most important point in favor of buying. This frequently proves a mistaken economy, because low-priced goods must be made of inferior materials, consequently such goods invariably fail to give satisfaction; in perhaps no branch of trade is this fact more apparent than in Boots and Shoes. We are not advocating high prices, however, but take great pleasure in stating that the policy we have adopted of using only the best materials, and making none but good, "honest" warranted Boots and Shoes, has gained us hosts of customers, who, as evidence they are satisfied that our goods are well made and truly cheap, always come again and send their friends. Any defect in workmanship is repaired free of charge. Old Boots and Shoes are made "as good as new."
In addition to the goods of our own make, we keep a choice assortment of the best qualities of imported Boots and Shoes, including Rubbers, etc., suitable for the season.
Your obedient, faithful servants,

Pacific Railway Land Decision.
WASHINGTON, 19.—The Secretary of the Interior has decided that no lands shall be patented to the Union Pacific and Central Pacific R. R. Companies under their congressional grants, until they pay the cost of the surveys of the lands heretofore patented to them; the lands on which these arrangements are due were patented under the department ruling of Nov. 6, 1869, which has been abrogated in consequence of a decision rendered by the U. S. Supreme Court, to the effect that the Pacific R. R. Co. must pay the costs of survey prior to the issuance of a patent.

The Chinese Question—Alaska.
The Senate committee on foreign relations shows more disposition than ever before to consider favorably the proposed legislation restricting Chinese immigration; Congress, however, will not go beyond prohibiting coolies and depraved whites.

Henry Elliott, special treasury agent, is preparing a report on Alaska, based on his personal observations there. He pronounces a fiction all the stories about its mineral wealth, and says its surface is a mass of basaltic rock, which never contains mineral deposits. He says the fisheries also fail to furnish a sufficient food supply to the natives, and the only revenue derivable therefrom is from furs, from which the Government gets \$200,000 annually toward \$350,000 expended in maintaining troops, besides the expense of the civil establishment and a heavy interest on the purchase.

Republican Cautious.
The Republican Senators in caucus agreed that the citizens of the south must be protected by new military arrangements or by an increase of the federal force; the question has been postponed for a few days. There was no discussion on the Arkansas question, and there was an indisposition manifested to discuss the case of the Kallaggs government. As to admitting French, it was said that there were questions before the committee on privileges and elections, affecting him, which should first be settled. There was an extended debate on the finance question, and it was agreed that some harmonious action was necessary. A committee of eleven made a unanimous report which was adopted in caucus, and the bill agreed upon will be reported at the early day. According to the best attainable information, it provides for the resumption of specie payment on January 1st, for free banking, and for retiring greenbacks to the extent of eighty per cent of the new national bank notes issued; it also requires forty-six millions of new currency to be gradually withdrawn, and coin, in denominations of from five to fifty cents, issued in its place. The Secretary of the Treasury is authorized to use the surplus coin in the Treasury and after the day fixed for resumption, to remove the same, if necessary, to fill bonds for the same purpose if the amount of specie is not sufficient.

Modoc War Claims.
The Secretary of War recommends Congress to appropriate \$250,000 to pay the Modoc war claims of the State of Oregon and of the citizens of California, in accordance with the report made by Inspector General Hardie, on the basis of government prices; the amount allowed for Oregon is \$70,000, which is little more than half the amount claimed and paid by that State. The claims of California citizens are reduced in about the same proportion; the latter are now in the hands of the military commission.

Finance Investigation.
The chairman of the Pacific railroad committee says that a majority report against Lottrell's resolution for a Central Pacific contract, a majority report, will be reported to the house, and that the committee will not try for the consideration of it as a privileged question, being doubtful as to whether the house will accept it, and so they will temperize, but when permission to present is asked, Stanford, of Ky., from the minority, will ask the house to reject the majority report and to order an investigation, and Lottrell will support the movement unless checked off.

The Highland Chief Silver Mine.
In the circuit court for the District of Columbia, to-day, a bill was filed in behalf of Allen Shennet, of Boston, and Norris W. Mundy, of Chicago, for an injunction against Joseph R. Walker and others, to perpetually restrain them from making use of the Highland Chief Silver Mine, in Salt Lake City, Utah, the complainants allege that the defendants illegally took possession of this mine in July, 1874, and have since been holding possession, and have damaged the complainants to the amount of \$500,000, for which they claim compensation.

A Shocking Assault.
BOSTON, 19.—A daughter of the United States judge, aged twelve years, while returning home from skating, after tea, was seized and assaulted and mutilated by an unknown negro; the child is thought to be fatally injured.

A Walking Post.
NEWARK, 19.—Western, to-night, accomplished the feat of walking five hundred miles in six days.

Charlie Ross To Be a Cardinal.
New York, 19.—Messieurs are now taking to learn whether an unknown child, found dead in New York, in Nov. 10, can be identified by his clothing as the missing Charlie Ross. It is known that the child was found near Bay and Duane streets, and that nothing has ever been heard of him since. The Edinburgh Courier confirms the statement that the child is about making Archbishop Manning a cardinal, and that he is to be made a cardinal for that purpose.
