CO-OPERATIVE COMBOOWEALTH,

COOPERATIVE COMBONNEALIS.

The annuncement in ide by Rav.
Myron Reed in Denver on Tauraga;
is a confirmation of the correctness on
the Chicago Board's account of E. V.
Deby's instension regarding his pripased cooperative commonwealth.
Mr. Reed made the further declaration, foreshedowed in Mr. Deby's
statement, inst Ulash has been estimated
as the field of operations. This having
been agreed upon, it's well to remeaber the salious' features of Mr.
Deby's statement, are published in
Chicago, and given by the Nawa
a couple of weaks age. One of tasse
was link in the Heitherhood of the Cooperative Commonwealth, whilet it is
expected in American Railway,
Union will go to in a body at the con
vention on Jure 16, intended to expure
poilineally some westers sisks, and by
a change in its consituation and laws
resulve it into a co-operative commonwealth, or, rantily, a communistic
commonwealth, or, rantily, a communistic
at that the Birstherhood could make
at the Birstherhood could make
at the Birstherhood could make
at the Birstherhood could make the
last and Maidel West.

Fram Thursday's leiggraphio news
It appears that Ulan has been

available Booked mass received from the East and Middle West. From Threstay's telegraphic newell appears that Usah has been cheesen as the victim of the proposed metamorphosis. How far it will be earlied out, or whether there really will be any sections attempt to-word it, rounds to be seen. But it the effect really fe made to force, there is likely to be considerable actions continued to the continued out of the west of the way of the worked from the desert this garden apot of the West, and now the proposition from the desert this garden apot of the West, and now the proposition from the desert the following the second of the things of the the continuing. That system is A merican its farm, and American improved ing in all the states, not to the continuing and the second of covernment primits all the mooperative schemes of an homerable character that people may onler fints, but the plan to seller the State positionally the countries promined by the mare dear made the offerth energy it out. There is a possibility sinte with objections will come out more promined by the mare dear reallway strike or 110%, but it likewise lacks the essential element of successes.

Then there is objection to the

linewise lacks the essential element of success.

Then there is edjection to the proposed limited colony named by Mr. Beed, and because it is co-sparsition, but because of its embedded disconless. We have a set of the colonial to be a set of the colonial to the colonial to

THE TREEKS CLLESTOPE.

Great things are expected from the Yerkes biosecupe new placed in position for the exactly of astronome. It is estimated that the great lens brings the mount within a distrince of 200 miles from the earth, and it is expected that new light will use thrown on the cardinary prevailing on our satellite, as sometime the institute of nor when it is summingent that from light have been therevel at a distance of 200 miles, it is easy to imagine the descripts there will be the corners with which come of the descripts to the corners with which come of the descripts of the milestory surface may
