SPEEDY RIDING AT SAUCER TRACK

Postponed Meet Brings Out Fighting Finishes in Each Event.

FAVORITES ARE DEFEATED.

McFarland is Passed by Downing and Lawson is Trimmed by Clark In Handicap Race.

Just for fun the riders at the saucer track last night turned loose one of the very best meets of the season. It was only advertised as a postponed meet, to take up the rain checks issued Tuesday. so that free seats would not crowd out good money on Friday evening. The riders, however, got in and delivered a brand of goods that tickled the hearts of the fans. Every race saw a fighting finish. with the favorite nearly always a game

Such meets are preessary in a summer's work to properly adjust the bal ance of power, and prevent one man from becoming an all star constellation. Down-ing beat McParland, when the crowd never thought it was in him. Clarke beat Lawson, when everybody thought Clarke was to remain in the also ran class, and Crebs beat West after himse had pulled the youngster into good post-tion to win.

McFarland Nearly Wins.

The race of the evening, of course, was the French style three heat match between McFarland and Downing. The first heat was close, almost a tie, as it was on the Tuesday evening running. Then came one for McFarland, by a good margin as Heady Hardy crowded Mac this time, and let him make pace all the way to the bell tap. In the final heat Hardy changed his tactics and passed Mac two full laps from home, when Mac apparently wasn't expecting it. Of course, there was a fighting inish, and with all the gigantic force of his piston-like propellers McFarland sweoped down upon the tape only half a wheel behind. The crowd went wild, as it realized that Heady Hardy king of the buccaneers, had swiped good money from Long McFarland, high priest of the King Iver's realm of sprints. McFarland offered to bet \$100 he could beat Downing in a similar race, as soon as the prace was over. He declares his saddle broke in the last heat. McFARLAND NEARLY WINS race was over. He de broke in the last heat.

LAWSON ALSO RAN. The three-mile lap handicap saw Mc-Farland turn Iver Lawson loose for home well in the rear of the foreward bunch, and when the sprint was finished Lawwell in the rear of the foreward building and when the sprint was finished Lawson had only got into good fighting distance of Clarke's wheel. Clarke was pulled to the stretch by Pve, although he rode only from the 25-vard line. The little Australian received a mighty glad hand from the audience for his performance, and he seemed to appreciate it. Lawson had a sprint of a lap and a half to catch his man, and had the race gone a little farther he would have reached him, as he drew up alongside of his rear wheel at the tape, going fast.

The two-mile lap handleap amateur was a speedy affair from the start, and the rear men had a hard time pulling up. Hume sacrificed himself to bring West up to the burch, and turaed him loose a lap from home, with a good chance of winning. He proved not to have the lasting power, however, and went all in before he reached the tape.

CRAMER IS DUE.

The summary:

LAWSON LEFT ALONE.

Floyd McFarland will enter the big handicap race at the saucer tomorrow night with the first handicap charged up to him in many years of riding. Instead of starting with Lawson at scratch he will start down the line with a handicap. During the past few meets McFarland has ridden without his usual supply of re-serve steam and has shown plainly his limits of endurance. On this account he has been favored with a slight chunk of

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 16 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and teatimonials. Address F. J.
