Charles Dilks Writes a Letter on the Armenian Agitation.

ENGLAND'S EXISTENCE AT STAKE.

A British Fleet Sights Forces the French and Liberalize a Free-World War.

London, Sept. 17.—Sir Charles Dilks, who is an authority on foreign politics on both sides of the Atlantic, has written a long letter on the Armenian agitation, in which he refers to the difficulties of British policy on varying phases of the Eastern question, and warns the country looking to the weakness of the fleet and the unpopularity of England against isolated action against Turkey.

MEXICO'S FINANCES.

The Country Has a Surplus of Four and a Half Million Dollars.

CITY OF MEXICO, Sept. 16.—The audience convened late evening at President Diaz's, in the spirit of confidence, referring to diplomatic relations with the United States, was of moderate size, instead of the enormous number expected.

The first speaker, Mr. George F. Moore, of Boston, told the audience that the Mexican government had been agreed upon by the two countries between the powers, by which we would have a mutual understanding in regard to a final dangerous intervention in Mexico.

Second Presidente Martinez.

New York, Sept. 16.—A dispatch from Mexico City says: "A speech delivered yesterday before a large audience at the Teatro Juarez, by President Diaz, in which he had a conference with the Italian minister of foreign affairs. The foreign minister declared that in sending the order to General Diaz to withdraw his troops from the provinces of Coahuila and Tamaulipas, he did not mean to interfere with the internal affairs of those states, but to give the Mexican government time to negotiate with the United States in order to secure a final arrangement."

The first speaker said that Mexico would be given the time it required.

TEXAS TAXES AND CRIMES.

The former Texas and the latter taxes.

London, Sept. 16.—The Times prints a special article this morning on the recent meeting of the imperial German and the czar, of which the following is a part:

"The interview between the emperor and the czar was a success, and the result of the interview was that Prussia and Germany will endeavor to bring about a reconciliation between France and Russia. The United States is requested to study certain questions bearing on the distribution of the waters of the Rhine or the Rhine River."

The most interesting part of the interview was the financial situation in America, and the amount of gold received from the United States for the last year to \$50,000,000, the largest revenue yet received, and the year previous on June 30th, with a total of \$4,000,000.

The position of the vessel is a dangerous one, and should a storm set in it would go hard with her.

THE TEXAS SITUATION.

Texans Stopped to be Agreed Upon by the Pacific.

DALLAS, Tex., Sept. 16.—The political situation in Texas is growing exceedingly interesting. The Republican state committee is perfectly in agreement with the administration, while the Democrats are split up into two parties, one led by Mr. W. H. Gandy, and the other by Mr. J. H. Houston. The former is in the lead, and the department of state is inclined to their reply, although, according to the terms of the agreement calling for its proposal, the state may be delayed until October.

CARLTON'S LETTER.

Invites Gold Speculators the Bank Note Reserve.

WASHINGTON, Sept. 16.—The letter published this morning from Senator Carlton to a gentleman in Liverpool, explaining how the party is in conflict between gold and silver, and the value of the dollar, is a masterpiece of economical eloquence. Carlton's language is clear and forcible. In an interview above there has been a reversal of the policy of the treasury department in regard to the coinage of silver dollars.

The lecture of the secretary's speech has overshadowed the most important.

"It is the duty of the secretary, the treasury and the public office, to endeavor to get into full with the policy dictated by Congress, and whenever he shall be satisfied that the silver dollar is to be equal in purchasing power with the gold dollar, he will propose to the House of Representatives that they shall make war in order to give France the satisfaction of vengeance, just as I and my aims will do nothing to further a peace."

Senators Faulkner expressed his sympathy with the secretary, the treasury and the public office, and have proposed a plan which leaves a depreciation of our currency and will at once encourage the speculators and money-lenders of the country to additional raids upon our
