

AUDITOR REISER MAKES REPORT.

Council Adopts the Majority Financial Statement

BY A STRICT PARTY VOTE.

It is Substituted for the Minority Report—Pioneer Park Grant Again Goes Over.

At the special meeting of the City Council held last night, there was a fruitless effort made to pass the resolution granting Pioneer Park to the Los Angeles and Salt Lake Railroad company for depot purposes. The obstacle that prevented a consideration of the resolution was the fact that the meeting was called for the specific purpose of acting upon the majority and minority reports of the finance committee. The former report was adopted. The other business considered was the special report of Auditor Reiser, which was referred to the committee on finance. It is as follows:

REISER'S REPORT.

To the Honorable President and Members of the City Council: Gentlemen—I submit this evening a statement of the condition of the contingent expense, or general fund, in compliance with a resolution adopted by your honorable body on October 23, 1900.

In doing so I direct your attention to the fact that never before in the history of the city has the City Council requested from the city auditor a statement of the condition of any particular fund; neither has the city auditor in the past been in a position to furnish such information. The division of the city's business into funds was a thing entirely unknown until previous administrations. All the city's financial transactions were conducted from one common fund, into which receipts of every nature ultimately found their way and from which expenses of every kind were met. So fixed had this custom become that the honorable gentleman who officiated as Mayor of the city during the last even- ing expressed himself in a newspaper interview, at the time the water board question was agitated last spring, to the effect that he would not favor the issue of bonds if the money proposed to be derived therefrom was placed in the common fund, as had previously been the custom.

On June 26th last I addressed a communication to your honorable body informing you of the above condition of affairs and of my intention to comply with the statute governing the office of the city auditor in the following particulars, none of which had been previously observed by my predecessors in the office.

1. To place upon each warrant or other order evidence of indebtedness issued by the city auditor a certificate stating that the same is within the lawful debt limit of the city and is issued according to law.

2. To refuse to issue a warrant for any appropriation which exceeds the debt limit, or when the legal provisions governing the issuance of warrants have not been complied with.

3. To divide the revenue of the city into appropriate funds, as follows: Contingent expense (called "general") fund; street and sidewalk fund; water fund; sewer and drain fund; and special tax fund.

4. To keep an accurate account of each sewer extension and other matter payable out of the special tax fund, and to limit the expenditures in each instance to the amount of the tax, except in cases where the city agrees to pay a portion of the cost out of the regular revenues.

5. To have the various departments submit to the city auditor with each voucher and payroll presented to the office a statement showing the account or accounts to which the same is to be charged, for the purpose of enabling the auditor to draw warrants intelligently upon the various funds.

In accordance with my communication to your honorable body, I instituted the new system on July 1st, 1900, and have ever since strictly adhered to the same. This, however, was not done until after the advice of the city attorney had been obtained. I further caused the business of the public library to be transacted out of the special tax fund, and to limit the expenditures in each instance to the amount of the tax, except in cases where the city agrees to pay a portion of the cost out of the regular revenues.

6. To have the various departments submit to the city auditor with each voucher and payroll presented to the office a statement showing the account or accounts to which the same is to be charged, for the purpose of enabling the auditor to draw warrants intelligently upon the various funds.

STRICTLY SCIENTIFIC.

Only One Pile Cure Which Can Be Considered Such.

The Pyramid Pile Cure is strictly scientific both in its composition and in its therapeutic action, and the best feature is that it is perfectly harmless. No ill effects ever result from its use.

The cure is accomplished painlessly by the stringent properties and heating oils contained in it, which cause the little tumors and constricted blood vessels to contract and the obstruction to the circulation to be removed.

The Pyramid Pile Cure is in suppository form and far superior to any saline or osmotic for convenience.

It is applied at night and absorbed into the sensitive rectal membrane, acting both as a local and a constitutional treatment.

One of the chief boxes of the Pyramid has often been sold, even in cases of many years' standing.

Reifer from pain and itching is so immediate that patients sometimes imagine that the remedy must contain some form of cocaine or opium, but a careful analysis shows it to contain no cocaine, anesthetic or injurious drug of any kind. It is guaranteed free from any deleterious substance.

The literature treatment, the knife, or the still more cruel treatment by dilatation, besides causing intense pain and sometimes collapse and death, are now known to have little value as far as a permanent cure is concerned.

Thousands of pile sufferers bear witness to the value of the Pyramid Pile Cure and even in cases where a dangerous surgical operation has failed to cure surprising results have been obtained from this remedy after a week's use.

A complete treatment of the Pyramid Pile Cure is sold by druggists everywhere at 50 cents.

The Pyramid Drug Co., of Marshall, Mich., will mail to any address a little book on cause and cure of piles, and a list of named patients from all parts of the United States.

MAJORITY REPORT ADOPTED.

The minority report of the finance committee was then taken up and read, after which a motion was made by Councilman Hartenstein, seconded by Councilman Fernstrom, to substitute the report for the majority report.

The motion was without debate, and was lost, the roll call showing four ayes and six noes, as follows:

Ayes—Fernstrom, Hartenstein, Reid, Tuddenham—4.
Noes—Beatty, Canning, Davis, Hewlett, Robertson, Buckle—8.

Councilman Robertson then moved the adoption of the majority report. Fernstrom wanted to know if it was the intention of the majority in the Council to vote it through mistakes and all.

President Buckle said that the motion carried with it mistakes and everything else.

Councilman Robertson, as the chairman of the finance committee, claimed the right to close the debate, and as no other member took the floor proceeded to speak. His speech was a vituperative attack upon the two minority members of the finance committee. In the course of his talk he said that Fernstrom had voted for nearly all of the expenditures complained of, and excused himself by saying that the chairman of the finance committee had not informed him as to their nature, but the chairman of that committee was not running a free kindergarten.

Fernstrom moved that the report be referred to the committee on municipal laws.

This was opposed by Thomas and Hewlett and on roll call was lost by many of the legal points involved had been obtained. I further caused the business of the public library to be transacted out of the special tax fund, and to limit the expenditures in each instance to the amount of the tax, except in cases where the city agrees to pay a portion of the cost out of the regular revenues.

A motion to adopt the majority report was then put and carried by the same vote, as follows:

Ayes—Beatty, Canning, Davis, Hewlett, Robertson, Thomas, Whittemore, Buckle—8.
Noes—Fernstrom, Hartenstein, C. R. Howe, Reid, Tuddenham—4.
Absent—Cottrell, Edgar, Howe—2.

The Council then adjourned to meet Wednesday evening next.
