SALE OF THE JOHN CREEN GROUP

Hands of Salt Lakers.

NEW COMPANY ORGANIZED.

Rich Shipment From the O. K. Group -Ridge & Valley Difficulties-Big Tunnel for Brighton.

The first payment was made yesterlay afternoon on the purchase of the John Green property near Bonanza Flat, Park City. The group consists of claims patented in the early '70's. The laims have been purchased by a party of Salt Lakers, consisting of Clarence McCornick, M. Effinger, D. H. Peery, Jr., Louis A. Jeffs and W. G. Nebeker, who have organized a company with 150,000 shares, which are divided among the incorporators in proportion to their payments on the purchase price. Nothing is said about the price further than that it is a good round

The new company will be known as the Wolverine Mining company, M. Effinger is president of the company, with Clarence McCornick, vice president, and D. H. Peery, Jr., secretary and treasurer, Louis A. Jeffs will be

managing director. A very fine surface showing is said to exist on the property, though little work other than the required assessment work has been done to prove up the value of the big ledge which outcrops for a distance of nearly 300 feet wide on the surface. Assays of surface ledge matter show as high as 18.5 ounces silver and 8.2 per cent lead. Work is to be started immediately on a 500-foot tunnel which is expected to tap the lead about 500 feet deep owing to the steep declivity of the mountain. The incorporators are putting up the money for development purposes and a snug sum is already in the treasury. Mesers, Effinger and Jeffs expect to go to the Park in the morning to start operations at the property.

MAY ASK FOR RECEIVER.

Meeting This Afternoon of Minority Shareholders of Ridge Valley Co.

The trouble between D. S. Lombard and the Ridge & Valley company, which has been brewing for some time, is now on a fair way to a strong ex-pression from a number of shareholders which may drag the settlement with the Gemini company into court. A meeting was to be held late this afternoon at the Cullen hotel for the purpose of discussing the matter, and it is said that a receiver may be asked for.

Mr. Lombard has been in town for several days seeking council on the matter and he has engaged Judge W. H. King to look after his interests. The first gun was fired yesterday when Judge King knocked the recent assessment in the head owing to the fact that it was levied by less than a quorum of the board. He said today that he had not decided what course would be pur-sued, but that if Mr. Lombard's statements are correct it would seem that the company's affairs have been mismanaged. Mr. Lombard states that the principal owners of the Ridge & Valley are also heavily interested in the Gemini which lead to a settlement in the recent trespass suit, which is un-satisfactory to Mr. Lombard and other shareholders. It is stated that the Gemini people secured the Last Chance claim, the Cumberland claim and 400 feet from the Bapta claim. By virtually turning over to the Gemini company the above property and re-ceiving \$7,500 in cash the Ridge &Valley directors are said to have settled the suit. This settlement is now objected to by Mr. Lombard. It was said today that the disaffected shareholders hold about one-fifth of the stock and a lively time is anticipated.

SILVER BELL IMPROVING.

This Thayne's Canyon Property Showing up Well in the Winze.

President N. W. Sonnedecker of the Sliver Bell Mining company, has been up to Thayne's canyon to see how the work at the mine is progressing and re-ports the most satisfactory results from the development work which is being done there. "We feel very much encouraged," said Mr. Sonnedecker today, "because of the good showing we are making. We have six claims, the Norma, Ida Steele, Gold King, Silver Bell, Arthur and Nevin, and there are three tunnels and two shafts upon the property. The Ida Steele shaft is 114 feet deep and the Silver Bell shaft is 115 feet. In tunnel No. 1, which is 445 feet long, we have commenced sinking winze at a point 365 feet from t mouth of the tunnel. This winze is now down 70 feet on the vein and the fissure is well mineralized and about five feet wide. This vein upon which we are now working resembles very much all the other veins of Park City in that it is narrow at the surface, with rich ore as a filing. The ore in it resembles that taken from the Ontario and Daly except that the gold values in our ore is little superior and we have absolutely

governed by the porphyry governed by the porphyry dyke that carries hime he creat of the ridge. An average of the many assays we have had made from the ores already encountered show from 6 to 19 per cent copper, 45 to 60 per cent lead, 47 to 85 ounces silver and from \$7 to \$10 in gold. Our working facilities have been improved and we have four men constantly employed in development."

RICH COPPER ORE.

Ten Car Shipment from Beaver County Surprises Everyone.

The Majestic Copper company, operating the O. K. group in Beaver county, settled for 10 cars of copper ore today on controls showing 40 per cent copper, 7.5 ounces silver and \$3.50 gold per ton. The assays came o', between 5 and 6 o'clock yere rday a ternoon and surprised everyone, including Manager T. R. Jones of the American Smelting company. It was not expected that the ore would run more than 30 per cent copper. The lot consisted of about 258 tons, which is valued at about \$27,000, or a

little over \$100 per ton.

In reference to the shimment, Monager Lewis said today that he forwarded the present lot - Jw what the O. K. could do. He does not expect to repeat the shipment again for some time. The shipment is one of the richest ever made from Beaver county and in more general demand. The local

compares very favorably with the rich shipments from Jenning's Grand Gulch, Carisa and Centennial Eureka mines.

WILL RUN A LONG TUNNEL. David Evans and Jesse Knight to Develop Brighton Claims.

Hon. David Evans announces that a 3,000-foot tunnel will be run from the mountains east of Brighton to tap sev-eral veins which outcrop on the surface of a large group of twenty-three claims heretofore owned by Senator Rawlins of this city. Mr. Evans visited the property last year and was very favorably impressed with the ground. Arrangements were then made for the purchase of 160,000 shares out of the 200,000 shares of the company. Mr. Evans has been joined in the purchase by Jesse Knight and a very active campaign is promise It is expected to reach a depth of 1,500 feet in the tunnel. Several Arospect tunnels have been started from assays showing from 1 to 40 per cent copper and from 80 cents to \$50 gold per ton with from 2 to 30 ounces silver.

Exchange Seat to be Sold.

The Salt Lake Mining exchange owns six seats on the exchange, five of which have been retired. The other one will be sold tomorrow to the highest bidder. The minimum price has been fixed at cal \$500. If a sale is consummated at this 5.10 figure it will be the highest price ever paid for a seat, as the highest price heretofore paid was \$450. The exchange has 69 members at present and the sale of the above seat will increase the membership to 70

Petroleum Claims Located.

Special Correspondence. Provo, Aug. 20.—James G. Wendell, of Oswego, New York, and others have filed notices of location of Wendell Nos. 1 to 31, both inclusive, petroleum claims, containing an area of 160 acres each, situated near Kyune canyon, between Allred and Clift canyons, in Spanish

ork canyon. D. B. Higgins has filed notice of location of the Colton Wax mines Nos. 1, 2 and 3, situated about one and a half miles easterly from Colton.

MINING NOTES.

The Copper Belt of Marysvale had car of ore on the market today. The Shawmut of Bingham had a car of crude ore on the market today.

The Phoenix of Bingham had two more cars of ore on today's market. The Ophir Hill reached the market today with 10 cars of concentrates. Leasers on the Niagara of Bingham

had a car of ore on the market today. Manager Thomas Weir of the Ajax went out to that property last even-

A car of concentrates was on the market today from the Cascade property at Marysvale. A car of ore was on the market today from the Excelsior property at Eureka, Nevada.

A shipment of three or four cars of lead ore is being loaded at the Red Wing of Bingham. The Columbia Mining company of Bingham is running 200 tons of dump

ore through the Rogers' mill. The output from the Tesora of Tintic week was four cars of concen-

trates and two cars of crude ore. James W. Neill, the well known expert, expects to leave this evening for British Columbia to examine a group of mines.

Col. Bruback was in Tintic today looking after operations at the Argenta and Silver Bow Mining company's properties.

Five cars of ore were on the market today from the Lower Mammoth of Tiptic. Assays were expected late this afternoon The Taylor-Brunton sampler reported

10 cars of ore from Stockton, six from Bingham, one from Nevada, 16 from Tintic and two from Marysvale Lafayette Holbrook, president of the

Grand Central Mining company, came down last evening from Canada, where he has been investigating the beet industry since August 1st.

Victor M. Clement, the widely known mining expert, is scheduled to reach Salt Lake on the 24th inst. from Mexico, where he has been starting up work on two or three large proper-

The Uncle Sam marketed six cars of ore today for about \$7,000. One lot assayed 53,5 per cent lead, 29 ounces silver, and \$1.20 gold per ton. The other lot assayed 82 ounces silver, 9 per cent lead, and \$5 gold per ton.

The Ely Mining company's shaft is down 110 feet below the tunnel. At this point the management is drifting this point the management is drifting both ways on the vein. At one place the drift is expected to soon enter an ore chute, which has been followed down 70 feet below the tunnel level in

E. L. Probert and D. C. Fullmer have flied notice of location of the Dia-mond Coal mine No. 2, situated about four miles above the three forks in the left hand fork of Diamond Fork, Spanish Fork canyon, and about three-fourths of a mile northeast of the White Sulphur Springs; the location covers 220 acres.

W. F. Snyder is expected back from the Crown Point mine at Mountain-holme, Ida., in a day or two. The property, which is developed to the depth of 250 feet, belongs to the newly incorporated company called the Western Exploration company, in which Messrs. P. L. Kimberly, W. G. Filer and Willard F. Snyder are large share-

WE'RE JUST A LITTLE AHEAD OF TIME IN DISPLAYING EARLY FALL STYLES, BUT THEY'RE HERE, AND WHAT A GORGEOUS ARRAY OF ORIGINAL DESIGNS IT IS.

THE LONG NARROW FOUR-IN-HAND are more prominent than ever, showing an eye-pleasing variety of new color blendings and striking contrasts in all sorts of stripes and figures, that are decidedly different from anything that's been shown. They're in three grades. 50c, 75c and \$1.00.

And with our usual assortment of new effects in the regular styles from 25c upward, makes a Neckwear Showing of which we are justly proud. It's our pleasure to show you these new ideas. BOYS' TIES.
