ishardly a hamiet in the whole of Utan that has not its representative or rep-resentatives of polygamy. The Mormons and their rulers have broken the ows they had to take before becoming citizens of the United States. When we ask the abolition of such practises, we ask only that which is good, clean and honorable; we mean all of Christian Utah.

BISHOP SATTERLEE.

Most temperate of all those who spoke was Bisnop Satterlee of the Episcopal church. He said: "There are three points I wish to state briefly. First, we believe in the separation of church and state, and while this meeting might give the impression that we want the state to interfere with the church such is not the case. We only want to uphold our high standing of morals.

Second, all states, even Utah, have laws against polygamy, and we desire that the law be observed, and that the church be not allowed to go directly against the state.

Third, we have a social law that has been in existence for thirty-five hundred years, looking to the preservation and purity of the family. This has been a law of all republics, kingdoms and empires, and we ask that our country keep it unbroken.

RESOLUTIONS ADOPTED. The following preamble and resolutions were adopted:

Belleving that the so-called Church Latter-day Saints is antagonistic to our federal Constitution and every form of religion based upon the Bible and it is a menace to our American home ife and an insult to American womanhood.

And, believing Senator Reed Smoot of Utah to be a pledged representative of that institution, bound by its laws and requirements to render first al-legience thereto, and that he, therefore, must of necessity be unfaithful to the laws of the United States;

"And, believing that Apostle Smoot auld not have been elected to the United States senate without the dic-tation and command of the Mormon which is a complete union of church and state and, therefore, in lirect opposition to the principles of the Constitution of the United States;

"Resolved, That the congregation here assembled most earnestly protest against Apostle Smoot retaining his seat in our national senate.

"Resolved, That we call on all loyal and patriotic men and women of every state to send protests to the senators from their states, and urge upon such citizens immediate and prompt action." The resolutions were signed by Mrs. Frederic Schoff, president of the Nalonal Congress of Mothers; Clara L. Roach, of the National Women's Union of the District of Colombia, and Mar-Raret Dye Ellis, of the National W.

New York, Dec. 14 .- In a sermon on the life of the late Herbert Spencer, the Rev. Dr. Monot J. Savage, in the Unitarian church of the Messiah has given the theory of evolution credit for having "forever destroyed intelligent belief on the part of anybody, in the Garden of Eden, Adam, Eve or the fall of man. Evolution," he said, "has forever removed those stories and kindred ones, to the land of myth, where they belong." In concluding his remarks, Dr. Sav-

age said: "Humanity has been on this earth two, or three hundred thousand years

at least. Humanity, however, slowly has been evolving, claiming from the far off beginning there never has been any fall. Evolution has wrought out not the fall of the man, but the ascent of man. That means the complete re-construction of the entire theology of Christendom. It is coming; it has got to come. There are things of the church today in which the Eden story is quietly referred to as though it were poetry or allegory. There are thousands of others where it quietly laid to one side.

company's employ to confer with the management of the company. Mr. Kra-mer said he had stated time and again that after such a date no striker would be taken back, and in response to the printed notices that had been circulated wo had returned to work. The limit

had expired at Sunnyside, and would expire at noon tomerrow at Winter Quarters and Castle Gate. Mr. Kramer referred to a telegram that had been received some days since from Agitator Price, by one of the morning newspapers, requesting that a reporter be sent to interview Mr. Kramer to inquire with reference to men being received back irrespective of

membership in the union. But in the same dispatch was a statement to the effect that the rikers had the company on the hip, and were bound to win. This paragraph should have been clipped off, but "through an inadvertence" was left on, and "gave the whole snap away;" showed the dove of peace bearing in one claw the olive branch, and in the other a pair of brass knuckles. This message has given Mr. Kramer a good deal of amusement. It is hardly necessary to say that Mr. Price was not accommodated.

The company's offices were in receipt this morning of a copy of a petition in circulation, and being largely signed at Scofield and Winter Quarters by men

at work for the coal company, and who had remained faithful during all of the trouble, and do not consider the strike really broken, protesting against the management taking back any of the striking miners under any consideration

Mr. Kramer referred to last Friday evening's meeting of strikers at Help-er, and the alleged pacific attitude assumed by the imported agitators and directors of the strike. They had counseled the strikers to hold up the hands of peace, and not to resort to violence if evicted, and that it would be well to return to work, if no discrimination were made as to union or non-union. At the same time, Mr. Kramer had positive assurance that word was sent out on the Q. T. to the different camps not to accept the offers of the company management to return to work. It can be set down as a fact, that none of the strikers will be taken back if they remain out after tomorrow noon, and they may rest assured also, that no member of the union will be restored to

his position. The management of the Fuel company has had all it wants of union labor for years to come, and considers it, as far as coal operating in this state is concerned, as a device to stir up trouble and mischief.

The news that he had been arrested, and that he was the man who commit. ted the dastardly deed, spread like wild fire among "the boys." There was a hurrled consultation among the soldiers and when they heard that Fuller was to be taken to town on the street car they decided to intercept him and deal with him as they thought proper. They hastily left the post prepared take the law into their own hands. From the expressions of the men there can be no doubt as to their intentions. Fortunately for Fuller, some of the boys gave the officers a tip that there would "soon be something doing." They held a consultation and decided to change their plans. The army ambulance was summoned and four soldiers were ordered to arm themselves act as a guard for the prisoner. He was hurriedly placed in the vehicle sur-rounded by the armed soldiers with Lieutenant Clarke in charge. The po-lice officers rode on the seat. The trip to the police station was made as rapas possible. Between the soldiers in their loaded rifles, Fuller was with. marched into the desk sergeant's office. CHARGED WITH RAPE.
