Terrible Fighting—Trenches Filled with Wounded!

Paris to be Completely Isolated

Mutiny Among Communists!

WASHINGTON, D. C.

Investigation of Southern affairs.

WASHINGTON, 22.—The Secretary of the Treasury has determined about a new plan for the payment of the interest on the new registered bonds. The plan consists in the payment of interest by a check or payable order, on the Treasurer of the United States, sent directly by mail to the address of the holder of the bond, and removes the serious inconvenience of compelling holders to attend the office of the Assistant Treasurer, in order to obtain their money. The Secretary has given directions that circulars shall be given in writing, to all parties subscribing to the new loan to furnish their addresses in order to enable this plan to be carried out.

The question as to the extra session of the Senate having been decided, and the subject of its probable length is discussed by Senators with great interest. The President, before leaving for St. Louis, was asked by a Senator how long he thought the Senate would be detained, and he replied he was satisfied, from what he knew of the subject, that it need not remain in Session more than one day. He said, however, that considering the proneness of the Senate to indulge in long debate, he had little doubt the session would last a week. It is generally believed that the main points of the questions involved between England and the United States have already been decided by the joint high commissioners, and that the only duty for the commissioners is to draft a protocol.

The joint commission of investigation into the Southern affairs met yesterday. The meeting was full and in session for about two hours. Senator Scott was recognized as chairman. After an informal but interesting discussion the committee determined to take no action while present, and adjourned until the 26th proximo. The chief point under consideration was whether or not the committee, or a due portion of it, should proceed to the South at once. As so early re-assembling of the Senate would prevent Senators from going, it was decided to take no further action until the date indicated.

The amended tax law goes into effect on the 1st of May next, at which time the special or license tax, required of all kinds of dealers, expires, except that on tobacco and liquor dealers, which continues in force, from which cause it is estimated that the receipts for the ensuing year will be decreased about a hundred and fifty million dollars. The only internal revenue collected hereafter will be on incomes, stamps, spirits and tobacco.

NEW YORK.

Affairs in the Pennsylvania Mining districts—Extensive Robbery—Stocks—Dembrowski has disappeared.

NEW YORK, 22.—Specials from Scranton says a mass meeting of miners was held yesterday in all the districts of the Delaware, Lackawanna and western coal mines, and the miners at each meeting almost unanimously declared themselves in favor of a resumption of work, and delegates were appointed to meet the officers of the various companies to arrange a basis.

The German miners who went to work on Thursday have been forced to quit by threats from the miners, but arrangements for their protection have been made and many have agreed to resume work to-day (Saturday).

The *Tribune* says an examination of the accounts of Gen. Lawrence, late pension agent of this city, shows a deficit of over $50,000.

A letter from Panama of the 5th says, that day the United States steamer Tuscarora would leave for the point where Captain Selfridge left a party prospecting the survey. He has expressed himself in favor of the route, which will not involve more than twenty-three miles of cutting to connect the Atrato and Truya Rivers. The *Nacie* would leave Colon for Atrato immediately after the arrival of the steamer from New York, due on the morning of the 7th.

Intelligence has been received here from Barranquilla, that the national post which left that city for Santa Martha on the 13th ult., was robbed of $300,000 worth of gold bars at a place called Cuyatzo Blanc, and the robbers, twelve in number, escaped with the booty.

New York, 22, 2 p.m.—Gold lower Governments dull and steady. 6's, 81, 16⅜; 5 20's, 62, 13⅛; 64, 13⅛; 65, 13⅜; new, 12½; 67, 12⅜; 68, 12⅛; 10-40's, 9⅛.

Currency, 16½. Stocks strong and excited. W. U. T., 57½; P. M., 46⅛; W. F., 43; U. P., 34⅛.

The special correspondents add little to the news from Paris. On Thursday evening the troops were massing for a grand attack. The discipline of the nationals is bad. Men placed on guard at a gate coolly left without orders. A captain of the 184th regiment was shot by his men who charged him with want of energy. Two hundred unfortunate women were arrested last night on the boulevards. Enormous barricades have been erected in the Rue Rivoli and the Place de la Concorde, besides double ditches six feet deep. Every preparation has been made in anticipation of an attack and street fighting. Horseflesh is again largely sold. General Cluseret offered his resignation, as the Communists have run into excesses, but the resignation was not accepted. At Neuilly, on Thursday, the Versailles troops drove the insurgents within 200 yards of Paris. The stragglers were boys of 18, dirty, ragged and desperate. There were awful scenes at the gates and at the Beaujon hospital. Crowds of women, with streaming hair, were uttering loud shrieks, and demanding their husbands, brothers and children. Dombrowski has disappeared, and is supposed to be dead or wounded. The last action was within 150 yards of the ramparts.

VIRCINIA.

Half a town burned.

WHEELING, 22.—Half the town of Farmington, Virginia, was burned this morning. The loss is unknown but heavy.

INDIANA.

INDIANAPOLIS, 22.—The President arrived in this city this morning, accompanied by Senator Morton, and was met by a committee consisting of the Mayor and a number of prominent citizens. The President will remain here as the guest of Senator Morton until 10:30 to-night, when he leaves for St. Louis by special train. A public reception will be given him at the Academy of Music this evening, at which addresses will be made by Senator Morton, Gov. Baker and others.

FOREIGN NEWS.

GREAT BRITAIN.

Murderous fighting—Renewed efforts for conciliation.

LONDON, 22, 4 p.m.—There is a report that, yesterday, Cluseret claims to have repulsed the Versaillists at all points. Other accounts say the fighting was murderous. The entrenchments were filled with wounded; and it is stated there is an armistice to-day for the burial of the dead, and to allow the inhabitants of Neuilly, Clichy and other bombarded places to remove. Barricades are being erected under the Arc de Triomphe.

A demonstration of English Democrats have congratulated the Communne.

The Austrian Reichsrath demands the introduction of the promised bill in relation to church and state.

The *Times* special says the Commune has delegated its powers to a committee of nine, and is organizing a company of aeronauts.

It is reported the Prussians will deliver up the forts on Sunday. Paris will be completely isolated shortly. The insurgents' shells fall short of Valerien.

The *Daily News* says serious dissentions have occurred among the members of the Commune. Communication with the provinces is cut off. All citizens under fifty-five are obliged to serve. The Prussians are preparing to evacuate Charenton. Ducrot has arrived with 20,000 men.

Menotti Garibaldi goes to Italy.

FRANCE.

Immense defensive preparations.—Mutiny.

PARIS, 21, evening.—The cannonading is incessant between Clichy and Neuilly. The general attack has not commenced. The Commune have made immense preparations for defense, raising embankments and fortifications inside and outside the ramparts, and hastening the manufacture of ammunition. The Versaillists, hold all the offensive positions from Chatillon to Gengvilliers. The Versailles Assembly has passed a law for the payment of rents.

VERSAILLES, 22.—There is an unimportant and slight cannonade between the advanced posts. A decisive battle is imminent. The reported ministerial modifications and supplementary elections to the Assembly are false. Thiers visits the wounded. The Communists have mutinied at Neuilly, burning houses.

The *Journal Officiale* publishes many appointments to the legion of honor. The order equalizes the rewards granted to the army of the Rhine, and those of Paris, the Loire and the North. Changarnier, Bourbaki and Cessy besides receive grand crosses.

BELCIUM.

BRUSSELS, 22.—It is reported that Versaillists will occupy St. Denis, interrupting the northern railroad.

PENNSYLVANIA.

Mining shaft on fire.

POTTSVILLE, 22.—The Hickory shaft, at St. Clair, belonging to the Hickory coal company, was discovered to be on fire, inside, this morning. The mules and presses were saved. It is reported it will be necessary to flood the shaft. It is impossible to estimate the loss, but it will be very heavy.

A FEW MORE WORDS!

Having obtained the Agency of the CELEBRATED

SMITH'S AMERICAN ORGANS,

WE desire to inform the public that by the judgment of all competent musicians, these instruments are unsurpassed by any ever manufactured. We are aware of the arrogant tone assumed by certain agents, but we know that any disinterested person who examines the American Organ will smile at the efforts to depreciate them.

The Smith Company has made and sold 35,000 instruments. They make none under $125, leaving to others the business of putting forth the little fifty dollar organs; and they consume more black walnut lumber, the indispensable casing of the best instruments, than any house in America. Their annual production of organs is not exceeded by any establishment whatever. And this business they have built up by the faithful labors of twenty years, without drumming for testimonials, and without making baseless claims to honors on either side of the water. It is the perfection of workmanship, the excellence of materials, the smooth and solid tone, the prompt touch, and the facility for expression that give to The American Organ its deserved rank. But there is

A VERY EASY WAY

To determine the truth of our claims as well as of others. Let those who are fond of music come and hear for themselves. We pledge our credit upon the statement that we can sell a better instrument for the price than can be had in Utah. We are willing that our instruments should be subjected to the most severe tests, and if they will not stand upon their own merits they must fall.

We refer by permission to Professors Orson Pratt, jun. and A. Farini.
