LAST NIGHT'S DISPATCHES.

CONGRESSIONAL.

SENATE.

WASHINGTON, 11.—The Senate by a vote of 37 to 13 passed a resolution directing the Secretary of War to report as to the expediency of setting apart a portion of the Island of Mackinaw for a public park.

Caldwell's case was considered and his statement received.

Clayton asked that his case be taken up after Caldwell's was disposed of.

Wright, of the special committee of last session, introduced a resolution that the charges against the official conduct of Clayton were not sustained, and that the committee be discharged from further consideration of the subject.

Gordon, senator elect from Ga., was sworn in.

The Senate resumed the consideration of the case of Senator Caldwell. His statement was read. He puts his defense upon these grounds:

First—The election of a Senator, like the enactment of a law, is an act of the State in its sovereign capacity, and the motives of the members voting cannot be inquired into for the purpose of invalidating it.

Second—In judging of qualifications, the Senate cannot add to those prescribed by the constitution. In judging of returns the legal requirements cannot be amplified, and in judging of elections the only questions to be considered are, was it the legislature of the State that made the election? Was it held at the time and place and in the manner prescribed by the act of Congress, and did the certified person receive the majority? In this case these questions are all answered in the affirmative.

Third—Not a dollar is traced from Caldwell or by his authority, or from anybody else to any member of the legislature as a consideration for his vote.

Caldwell concludes as follows: "I beg, therefore, that Senators will stop to consider well before committing themselves to a precedent which will result in great wrong to me and may, in future, work great injury to others. I fully appreciate the dignity of a senator of the U.S., and I am proud to say that not even the satanic malignity of my enemies has been able to invent a breath of suspicion as to my official conduct, nor have they, after two exhaustive investigations, been able to connect me with one dollar corruptly used to influence any member of the legislature. They have been forced to rely upon their own false statements as to my admissions, which I here, before this body and upon my conscience, pronounce wickedly and maliciously false; and I have most solemnly declared that I never did, directly or indirectly, pay or cause to be paid, one dollar or any other thing of value, or any consideration whatever for any man's vote for me for the Senate. Am I then to be the victim of a wicked conspiracy? Are these bold bad men, whose very names are synonyms of crime and corruption in their own State, to succeed by force of their own false statements in bringing disgrace and ruin upon me, and that too because I chose to cross their political paths and declined to submit to their unrighteous demands, Wherever my enemies could, by misrepresentations, prejudice me in the estimation of newspaper men, they have turned upon me the wrath of an all-powerful press. I beg senators to reflect that it is not alone to retain a seat in this body that I have for the past 18 months, been resisting the wicked designs of these men, but rather to defeat them in their base and infamous attempt to attach disgrace and dishonor to my name."

Carpenter said it was with surprise and grief that he listened to the argument of the Senator from Indiana yesterday. He said he had never before seen a Senator, in the warmth of a political debate, vigorously extending his right hand to support his own views and bringing it down on the Senator from Kansas with all the earnestness that he would attack a political opponent. When you come to the mere fact of the money having been drawn out of the bank at Lawrence and paid to a party on the same day, you have not proved that the money was used to bribe a legislator; the money might have been expended for railroad or other legitimate purposes. The Senate ought to confine themselves to the judicial rules of testimony. The testimony against Caldwell was not such as would be submitted by the court to a jury. As to Caldwell's guilt he should vote against the expulsion of the Senator, and he asked the Senators, before they cast their votes to disagree with him, at least to read and study the testimony. He would ask for Caldwell what he would ask for any man charged with crime. He would ask the court to discharge its duty, no matter what might be said by the mob outside.

Without proceeding further in the debate the Senate went into executive session and soon afterwards adjourned.

EASTERN.

NEW YORK, 3 p.m., 11.—Two more floors in the old House of Refuge have fallen. The police refuse parties admittance to search for the boys reported buried in the debris. An extra force of police has been called out to prevent the crowd becoming riotous.

At a meeting of the Erie R. R. directors to-day the only business done was voting thanks to General Diven, who resigns the vice presidency on account, he states, of ill health and urgency of private business. No successor has yet been appointed.

WASHINGTON, 11.—The sub-committee of the Republican caucus has not come to any conclusion on the question of giving the Democrats increased representation in the committee. It is generally believed that they will report in favor of acceding to the proposition. In that event it is understood that Fenton will be named by the Democrats for the finance committee and Schurz for continuance in the foreign relations committee.

NEW YORK.—The Atlantic Mail S. S. Co's steamers *Moro Castle* and *Columbia* were sold at auction to-day, by order of the U. S. District Court. Both were purchased by W. H. Starbruck; it is rumored that they will soon be transferred to the old company.

A fire, to-day, occasioned by an explosion of gas, caused the destruction of the brewery and ice house of Charles Illig, Williamsburg. Loss on the building and stock $150,000, insurance $ 86,000.

The impending strike by the carpenters is not fully developed, but the men are determined to resist payment by the hour. Committees have been appointed to confer with the bosses in the hope of an amicable arrangement.

The board of apportionment have been authorized to issue stocks in $3,800,000, for widening and paving Broadway.

Patrick Leary, the wife murderer, is to be examined by medical experts as to his sanity.

Van Syckel, the Brooklyn wife poisoner, has been refused a writ of *habeas corpus*, and his trial is set for April.

In the court of Oyer and Terminer, to-day, when the District Attorney moved the trial of Bleakley for the murder of his niece, Maud Merrill, counsel asked for a postponement, saying that the accused insists that he was sane, while his counsel considered him insane. A medical commission will probably consider Bleakley's sanity. The counsel for Nixon said the plea of insanity would not be raised in that case.

CHICAGO, 11.—Judge McAllister, of the Supreme Court of Illinois, refused to grant a supersedeas in the case of Wm. Driver, convicted of the murder of his wife in this city in December last, and sentenced to be hanged here on Friday next, and he will probably suffer the penalty of the law.

Osborne, who murdered Mrs. Matthews at Yates city, Ills., last Fall, and who was sentenced to be hanged at Galesburg next Friday, has also, so far, been unable to procure a new trial, commutation, or respite.

BOSTON.—In the Senate this p.m. the first ballot for U. S. Senator resulted in Boutwell 10, Dawes 11, Loring 9, Hoar 4, the rest scattering; 38 out of 40 votes being cast. In the House Boutwell had 110, Dawes 83, Loring 16, Hoar 7, Whiting 9, Banks 9, the rest scattering, 237 votes being given.

NEW YORK, 11.—A Washington dispatch states that a run was made on the Washington City Savings Bank this morning. All demands were met promptly. At 12 o'clock the excitement had subsided. Assets over a million.

W. L. Hull, the absconding banker, was arrested to-day, sixty miles from Austin, and the sheriff has started from there with him.

A *Republican* special, from Jefferson city, says it is understood that a memorial was drawn up at the Planter's House, St. Louis, on Sunday, by several leading Democrats in and out of the legislature, and forwarded to the committee on privileges and elections at Washington, which contains some new testimony in the alleged Bogy bribery matter.

NEW YORK.—This a.m. the lower floor of a building in Twenty-third St., First Avenue, formerly used as a house of refuge, fell into the cellar. Three boys are reported buried in the ruins.

ST. LOUIS.—A special from Denison, Texas, dated yesterday, says the last rail on the Texas Central Railroad was laid at 5 p.m. to-day, and at 5:30 p.m. a special train came in from Galveston, so there is now unbroken railroad connection between St. Louis and the Gulf. The citizens of Denison are celebrating the event.

ALBANY.—The locomotives belonging to the Central Railroad Company, which were seized by the United States Collector, have been advertised for sale, two weeks hence. In the meantime the company is permitted to use them with the understanding that the tax shall be paid within the period named.

CONCORD, N. H., Midnight.—A hundred and thirty towns give Straw 24,971; Weston, 21,857; Blackmer, temperance, 836; Mason, liberal, 466. The relative gains and losses show a Republican net loss of 90.8.

PHILADELPHIA.—At a meeting of the fire commissioners to-day, arrangements were made by which probably the city at night will be patrolled by firemen.

PROVIDENCE.—A large four story, wooden hotel, erecting at Horse Neck, has been completely demolished by wind; loss, $10,000.

INDIANAPOLIS.—The Woodburn Turbine Wheel Works have been burned. Chief Engineer Dan Glazier was killed by a falling wall.

NEW YORK, 11.—The Samana Company has appointed General Dick Taylor commissioner, and Captain Samuels vice-president.

BOSTON.—On the 22d ballot in the House Boutwell received 124 votes to 92 for Dawes, and 22 for all the others. The Senate balloted four times without result, Dawes leading on each ballot.

The President to-day re-appointed the present government directors of the Union Pacific Railroad Company for one year from to-day, they are Hyrum Price and James F. Wilson, of Iowa, J. C. Harrison of Ind., J. H. Millard of Neb., and D. S. Ruddock of Conn.

The Republican Senatorial caucus this afternoon agreed to add two more members each to the committee on appropriations, public lands, post office and privileges, and elections. Each of these committees will have two opposition members, as will also the committees on judiciary, naval and military affairs. Several committees may have three opposition members. The committee on foreign relations will have only one opposition member. The Republicans will leave to the opposition the filling of reserved vacancies.

NASHUA, N. H.—Reports up to noon say the vote is light. The vote at Portsmouth up to noon indicates about two hundred Republican majority for governor.

BOSTON, 11.—The marble cutters of the burnt district struck yesterday, demanding 21 dollars a week instead of fifteen, their present wages.

CONCORD, N. H.—Henry A. Bellows, chief justice of New Hampshire, was found dead in bed this a.m., supposed to be of heart disease, aged 70.

☞ The State election is progressing with usual quietness. The aggregate appearance is considerably less than a year ago when the Republicans elected Straw by 999 majority. There is a depth of snow impeding travel to the polls, and another storm is threatening. A dispatch from Kearne says that many Republicans are scratching their candidate for Congress.

UNION

SAFETY LAMP

IS conceded by all who have seen it to be possessed of great merit, and to be altogether the best thing of the kind ever put in the market.

The lamp is constructed with two tubes, the outside one intended only for the attachment of the burner, and the inside one to contain oil and receive the wick. As there is no connection between these tubes it will be evident that there is no possibility of communicating any heat to the oil, and as long as the oil in a lamp can be kept perfectly cool there is, of course, no chance for an explosion.

The Lamp is strongly and well made, attractive in appearance, and sound thing entirely new and novel. It will burn kerosene adapted to any burner. With all of these advantages it combines cheapness, and from present indications it is destined to become very popular.

In case of accident, the Lamp falling or thrown over, by which many accidents occur, is the cause of the oil running to the flame, in this Lamp it is not so; it can be thrown over and cannot send the oil to the flame; it will run from it, so there is no danger of catching fire.

The public may rest assured that the Lamp is all that we claim for it, and we cordially invite the most critical to examine the same, and we feel confident the verdict will be the same as that of the most scientific men of the Eastern States—that it is superior to all Lamps that have yet come to public notice.

This Lamp can be filled from the font, on the top of which is a screw.

The Lamp can be attached to any Chandelier or Bracket made.

ALSO A LARGE STOCK OF

GLASS AND METAL LAMPS

LATEST IMPROVED BURNERS, CHANDELIERS, BRACKETS, KEROSENE OIL AND PETROLEUM FLUIDS,
