Speaking generally, and from indications shown in business at this morning's call on the Salt Lake Mining and Stock exchange, the market was improved over the close of last week. Mining stocks sold at better figures and there were more shares allowed to change ownership.

One of the very infrequent sales of Silver King was made today and \$8200 in good, hard money was paid for 100 shares on the open board, meaning that 75¢ a share was realized. The prices posted on the board were 75¢ bid and 80¢ asked, but a bunch of 100 shares could be obtained for no such figures, and the buyer was glad to get it at 82¢. The gilt-edged nature of this security is such that to coax out the share one must be possessed of a fat purse and a liberal disposition in its use.

Carissa was out for the money and dipped into the trading for a good lump of it. As the sales were not so numerous, the stock improved in price until it brought 81½ cents a share, having begun business at 78 cents. There was little hesitation in the swap, and they went along at a merry rate until a total of 22,200 shares had gone under the hammer.

Uncle Sam was a regular dandy, making a debut in the sales at 72½ and reaching 79 in the very next trade. The upward trend continued until 81½ was realized and then it lost its foothold and slipped back to a final sale at 80½ cents.

California was also better and did a business exceeding only by Carissa, which showed up largest of all. This Park City stock opened at 59½ cents and rose to 61½, presenting a slightly stronger front than in last week.

Most of the stocks that entered into the buying and selling were in better form and there was a more comfortable feeling all through.

THE TRADING.

Following are the shares sold today and the prices received for them:
