PIOCHE NOTES.

From the *Record* of May 28—

The day before yesterday it was windy and dusty, and we growled about that, and yesterday it was windy and wet, with occasional spats of snow, and we are going to grumble about that also. This thing of getting folks accustomed to warm weather, and then turning Jack Frost loose on them, is no joke. Most of our citizens had taken their stoves out of the saloons, restaurants and sitting rooms, and when this young Winter made its appearance it set everbody shaking and shivering, and hurling all sorts of anathemas at their stupidity in taking their stoves down in a clime like this. To be provided against all contingencies in Nevada, one wants a huge wood pile, a good stove and a well stocked ice house, for it is sure to do one of two things, and you never know which, or when one condition will succeed the other. One time you will think you are burning up, and need glacial refreshment to cool your throbbing brow, and in a few hours you will require a roaring fire and a heavy overcoat.

By a friend of ours who has just returned from Eureka, we learn that the folks abroad are giving Pioche a terrible black eye. This does not surprise us at all. Times here have been getting duller and duller for some time; still that argues nothing against the future prosperity of Pioche. Every mining camp has its ups and downs, periods of undue excitement and as little warranted depression. For her population, the mines of Pioche, even under the present unfavorable auspices, are producing no inconsiderable quantity of bullion. When the great companies reach paying ground in their lower levels, then the black will no longer obscure Pioche's visual organs, and then the outsiders will be just as ready to unduly puff this locality as they are now disposed to underrate it. We have every hope that the immediate future of Pioche will be a busy and prosperous one, and therefore during the undesirable present shall do the best we can, patiently waiting for and fully believing that the good time coming is not far distant.

We are informed that the owners of Vulture mine, situated in this district, have concluded arrangements by which they sell to parties in San Francisco, who will soon commence its development. If all reports concerning it are true the most sanguine expectations of its purchasers will be fully realized. The merits of the mine being known only to a few, it has lain idle a long time, but its locators finally having been made an offer, concluded to sell, rather than trust to future contingencies or attempt its development through their own limited means.

About dark last evening a most unearthly gabbling in Chinatown made every cur in town howl a response. Upon investigating the cause of the fearful din, we found the Mongolians were merely taking the most expeditious and effectual means of fighting the devil away. If anything could frighten him, it certainly would be that ear-piercing clamor.

The Summer of 1874 has been unusually short—it lasted about ten days. We suppose it has gone for good, for yesterday it was cold enough for any Winter. Wind, rain and snow was served up in the most liberal manner possible, but it was decidedly a cold collation, so cold that a mere taste was sufficient to satisfy the most craving appetite. With the aid of a blanket overcoat and rubber shoes we hope to struggle through the Winter until the Summer of 1875, which we trust will be a trifle longer than that of 1874. For without putting too fine a point on it, ten days is rather a short Summer.

Reliable Testimony!

CARL C. ASMUSSEN,

BEING very desirous to dispose of all his fine Jewelry, Watches, Clocks, Field and Opera Glasses, Spectacles, etc., etc., offers a rare chance to the public for investment.

The JEWELRY is selected with the utmost care, both for beauty and excellence. The WATCHES are unsurpassable both for strength and good going.

All goods are warranted.

Appended are testimonials from most reliable gentlemen well known in the Territory:

"The Watch I bought of you in 1872 goes most excellently, never varies a minute; has never had any repairs to it since I got it, although it has been exposed to very hard usage.
A. C. BROWN,
Brakesman U. S. R. R."

"The Watch I bought of you last year has proved to be the best article I ever had, having lost it twice in the water, once at the depth of six feet, besides a great many other hardships, and stands all with perfect ease, being always right to time.
JOHN SANDS, Camp Douglas."

"The Watch I bought from you is all that can be desired. As a timekeeper it beats anything I ever had, and stands the jolting and rough usage without the least variation.
DANIEL G. BRIAN,
Paper Mill, Salt Lake Co."

And the like high recommends from Messrs. H. R. W. Cheales, Salt Lake City; C. J. Lambert, Paper Mill, Salt Lake Co.; G. C. Lambert, *Juvenile Instructor* Office; T. O.
