VERY CRITICAL

Seeded Only a Slight Misstep to Plunge Kentucky's Capital Into Terribie Bloodshed.

[Early Dispatches.] Frankfort, Ky., March 11 .- The pemocrais and Republicans are today, for the first time since the present poltical complications, assumed acute form, divided into two armed and organized factions. Surounding the capitol and the State executive building. and encamped in the grounds around Gov. Taylor's home are nearly 200 State militia, well provided with ammunition. while in the corridors of the Capitol hotel, in which the Democratic State executive offices are located, and in the streels adjacent to that building are sixty special officers and the men, and boys of a militla company that was erganized in Frankfort today as the nucleus of Gov. Beckham's State guard, besides scores or more of heavily-armed citizens, partisans of the Democratic daimant.

It was stated today that an attempt was to be made by the State militia to take Gov. Beckham into custody, and inside of an hour afer the report was dreulated a petition had been circulated and signed by the requisite number of men necessary to form a militia The men will guard the Capitol hotel all night against any pos-sible attempt to arrest Gov. Beckham. Only two days more remain for the egislature to continue in session, but the developments of those two days are aked forward to with apprehension by eaders of both sides.

The Democratic partisans say that hould the militia attempt to interfere with the session of the legislature, persistent rumors of which have been in dreulation all day, it will be next to impossible to avert bloodshed.

The Republican officials, however, denty that such action had been even contemplated, and that the legislature all not be molested in any way. That the report is believed in Demo-ratic circles, however, is shown by the fact that the advisability of holding the ression in some other place than the State house has been under advisement. State house has been under adwissinent, and even at a late hour tonight the question had not been fully settled. Several Republican members of the legislature left the city today, preumably for their homes.

Gov. Taylor's soldiers on duty at the state house were reinforced today by the arrival of the Barbourville comjany of seventy-one men, all of whom s fully armed and equipped. More moops are looked for tonight. The Mneville and London companies are expected some time during the night or Beckham this aftermoon apointed Col. David R. This was regarded as sig-nificant, it being undertsood that Col. furray accepted the appointment on account of the gravity of the present situation, and with the understanding that he could resign when the State beame more quiet. According to a statement made by Gov. W. S. Taylor tonight to a repretentative of the Louisville Commercial e has granted a pardon to each of the ersons for whom warrants have been issued charging them with being acories to the assassination of flochel, including Secretary of State Caleb Powers and ex-Secretary Finley. t his statement Gov. duties at this end will be directly in the interests of the sugar trust and the to-bacco trust, which are alleged by the advocates of the tariff to have acquired practically all of the sugar and to-bacco in the island. Those taking this view of the situation say if any change in the rate of duty is made the twenty-due are sent rate originally proposed four days ending on Friday the Yaqui Indians and the Mexican troops had five per cent rate originally proposed by the House committee should be refour engagements near Cocorito, Mex. stored The Mexican troops are endeavoring to force their way through this section of

The revulsion of public sentiment in favor of the bill which the Republican leaders in the House predicted with so much confidence would take place is not yet being felt in Washington, and senators and representatives continue to receive letters and telegrams urging that the original recommendation of the President be adopted and that free

trade be given to the island. These evidences of public opinion are having considerable effect in the Sen-ate and, while it is still probable that the principle of the original bill will be preserved and a tariff will be imposed it is evident that the fight against it in Senate will be a stubborn one.

Not all the pressure from outside is one way. There are some committees, like those of the California fruit growers, the tobacco raisers of Connecticut, and the cane and beet sugar growers, which advocate even a higher rate of duty than the original twenty-five per cent, and there are several Republican senators who will support amendments proposing higher rates,

The organization was effected by represontatives of Salt Lake, Ogden and Pocatello teams.

Officers were elected, and the selection of umpires, and the arrangement of a schedule will be attended to next Sunday, when the officers will meet in Ogden.

At Saturday's meeting the Rio Grande Western was represented by Manager J. T. Fulton and E. D. Hickey, and the Short Lines' interest was looked after by Manager Clippenger and Ed Kidder. The Ogdenites were Manager Willham Weaver, Assistant Manager Whipple, J. E. Bluth, Frank Gimlin, C Ferrin and Joe Baxter. Pocatello had authorized Mr. Clippenger to represent the Idaho team.

The first difficulty to contend with Ine first difficulty to contend with loomed up in the early proceedings of the meeting and may have prevented an organization. The Ogdenites ob-jected to admitting the Pocatello club, and it provoked a heated debate, end-ing by Mr. Clippenger saying: "Well boys, this meeting might just as well boys, this meeting might just as well be called off and you Ogden boys take the train home. Pocatello ought to be in the league, let us do it in the right way or not at all."

The work of organizing then followed without any unusual occurrence. Following are the officers elected: J. E. Bluth of Ogden, president; J. Clippen-ger of the Salt Lake Short Line team,

ger of the Salt Lake Short Line team, secretary and treasurer; and Frank Gimlin of Ogden, chairman. The gov-erning board elected is: Charles Meig-han of Ogden, J. H. Rand of Pocatello, J. victim is firmly within the grasp of the monster before the true nature of the disease is known. In other cases the blood is quickly filled with this poisonous virus and the swollen glands, mucus patches in the mouth, sores on scalp, ulcers on tongue, sore throat, eruptions on skin, copper colored splotches, and falling hair and eyebrows leave no room for doubt, as these are all unmistakable signs of Contagious Blood Poison.

Wrecks.

Dectors still prescribe mercury and potash as the only cure for Blood Poison. These poisonous min-erals never yet made a complete and permanent cure of Contagious Blood Poison. They drive the disease back into the system, cover it up for a while, but it breaks out again in worse form. These powerful minerals produce mercurial rheumatism and the most offensive sores and ulcers, causing the joints to stiffen and finger nails to drop off. Mercury and potash make wrocks, not cures, and those who have been dosed with these drugs are never after free from aches and pain.

S. S. S. acts in an entirely different manner, being a purely vegetable remedy ; it forces the poisen out of the system, and instead of tearing down, builds up and invigorates the general health. S. S. S. is the only antidote for this specific virus, and therefore the only cure for Contagious Blood Poison. No matter in what stage or how hopeless the case may appear, even though pronounced incurable by the doctors, S. S. S. can be relied upon to make a rapid, permanent cure. S. S. S. is not a new, untried remedy; an experience of nearly fifty years has proven it a sure and unfailing cure for this disease. It is the only purely vegetable blood medicine known.

Mr. H. L. Myers, too Mulberry St., Newark, N. J., says: "I was afflicted with a terrible blood disease, which was in spots at first, but alterwards spread all over my body. These soon broke out into sores, and it is easy to imagine the suffering I endured. COMPROMISE EFFORTS FAIL

Republicans of the Senate Will Not Agree to Puerto Rican Bill.

May Go Back to President's Original View-Position of Senators on the Question.

New York, March 12 .- A special to the Herald from Washington says: All attempts to unite the Republicans of the Senate on a compromise Puerto Rican bill have thus far failed. Senator Aldrich and other members of the steering committee are trying to bring about an agreement, but Senator Foraker is still unwilling to go any further than to accept an amendment allowing all the food products to be imported into Puerto Rico from the United States free of duty, He is not inclined to yield the management of his bill to the steering committee. He thinks that when he and his commit-

tee have decided upon a measure as proper they ought not to yield their judgment to senators who have not given the matter the same amount of Senator Aldrich is still hopeful that some compromise may be reached and he is anxious to bring it about, if pos-sible, before he leaves for Cuba, about the middle of the week. SHOT HIS MOTHER. Seven-Year-Old Boy Plays with a Re-

volver Given by His Father. Chicago, March 12 .- While playing with a revolver, Richard Essig, seven years old, shot his mother in the abdomen. Mrs. Essig is at the Lakeside hospital, where it is feared the wound will prove fatal. The child's father, Chas. pital, Essig, who is secretary of the Fort Dearborn Athletic club, is well known in sporting circles, and is manager of Joe Choynski. When the boy expressed a desire for a revolver, his father took home a 22-caliber revolver. A box of cartridges accompanied the gift, and the son was cautioned to be careful in handling the weapon.

ese who expired a few days ago under suspicious circumstances, had died, with the exception of the monkey, and it was in a dying condition. An autopsy on the rats and guinea pigs showed that they had developed symptoms of the genuine bubonic plague. After discussing the matter the board decided that the Chinese who died at 1001 Dupont street, had been afflicted with the plague. A request was made for 100 volunteers from among members of the medical profession, to make a house to house examination and aid the board thoroughly fumigating and disinfecting the entire quarter. A quaran-tine was not declared, but the board

adjourned at an early hour this morn-ing to meet at noon today, when it is predicted that such action will be taken. The board of health has agreed that the work of inspecting Chinatown with a view to improving its sanitary condition shall begin at once. The section will be districted and every day until all danger is passed every house will be

visited and every occupant inspected. Reliable Chinese will be detailed to accompany the physicians, and the po ice will render what assistance they can. These Chinese will be supplied for the work by the six companies. Until another case of plague develops Chinatown will remain free from quarantine, but people are requested to have as little communication as possible with the suspected district. When the Chinese learned of the action of the board of health there was an exodus

from Chinatown of those who are em-ployed outside of the district, which may again be quarantined. Dr. J. M. Williamson, president of the board of health, says: "Regarding the case in question there is no cause for

panic. It may be sporadic and no oth-ers may develop, but if subsequent in-vestigations show that new cases follow the one mentioned, I have every reason to believe the inspection just inaugurated by the department will minimize the danger to such an extent that Imple the disease will not succeed in getting a foothold in the city." No alarm is felt by physicians who discuss the matter, and some doubt is yet expressed as to the nature of the disease from which the Chinese died. Consul General Hoy Yow says: "I be-lieve that this is nothing more nor less than a ruse on the part of the board of health to prevent the liabliity of dam-age suits which have frequently been age suits which have frequenty been threatened on account of the outrageous act of last week in quarantining the Chinese quarter. There never was any bubonic plague in Chinatown, but if there was I would be the first person to assist in protecting the health of San Evencies Francisco "The case in question was made the

subject of a thorough examination by myself, and I will not besitate to say that the public need not be alarmed. The man was sick for some time and died of an aliment which is common, though not contagious.
