SESSION OF THE CITY COUNCIL

More Protests Against Entrance Of Interurban Ry.—City Employees' Holiday.

WEBER CO. TAX VALUATIONS

City and County Tax Levies—Tilt in Court in Fielding Hearing—Guests of Huntsville.

Ogden, July 28.—When every obstacle seems to have been overcome by Senator Simon Bamberger of the Salt Lake & Ogden railroad in gaining an entrance to this city, some petty trouble arises which only delays the entrance of the interurban a few hours. Everything is practically assured that the road will be ready for the opening on August 4. But regardless of this statement which has come from the builder of the road, Simon Bamberger, now comes a couple of protests from residents along the line of the road.

The protests were in the form of a couple of petitions which were read at last evening's session of the city council and immediately referred to the railroad committee without any discussion. The first petition was from E. H. Reader and wife who alleged that the road "crouches" upon their property which is located on Wall between Thirtieth and Thirty-first and Thirtieth streets and causes it to depreciate in value. The petitioners asked the council for some relief in this matter.

The other petition was from Stewart H. Moyes and 31 other residents on Wall avenue between Thirtieth and Thirtieth streets and protest against the building of the road too close to the sidewalk and thereby preventing the entrance of wagons and vehicles up the allies leading to the rear of the residences. The petitioners asked for relief at the hands of the council. This petition went to the railroad committee.

In connection with the question of the entrance of the interurban road into Ogden a communication was received from President Simon Bamberger of the Salt Lake & Ogden road asking the council to place an electric light on Washington avenue at a point about half way between Thirtieth and Thirtieth streets at a point where a depot would be erected for the road. This request was referred to the light committee.

Payrolls for the various departments of the city for the past two weeks amounting to \$2,013.74 were allowed and warrants ordered drawn for the respective amounts.

The sanitary inspector reported that the rear of two cases of measles in quarantine at the present time. This is the first time in a number of months.

Bids for the construction of a concrete culvert over the North Ogden canal at the mouth of the canyon were received from the following: Wheelwright Construction company, \$426.77 and William Doyle, \$417. The bid of Doyle was accepted and the contract awarded to him.

TILT IN COURT.

In the case of the State of Utah against W. F. Fielding, charged with obtaining money by fraud, and which was called for a preliminary hearing before Judge Murphy yesterday, the case was continued to a great extent by a tilt between Harry Robinson, attorney for Fielding, and John Pingree, cashier of the First National bank, an institution that is allied with the Ogden Savings bank, which is the complainant in the case against Fielding. In being cross-examined upon the selection of a site upon which Mr. Pingree stated that he did not know that he was dealing with a crook when he dealt with Fielding. Robinson said that Fielding did not know who he was dealing with either. Pingree said that he objected to being insulted and would not stand for it. The attorney asked what the banker would do about it. "I'd smash you," retorted Pingree. Further trouble between the two was interrupted by the court, who warned them that someone would be fined for contempt of court. The witness was also admonished to answer the questions of the court making any comment upon the case.

ENTER STRONG PROTEST.

Citizens of Boxelder County Object to Prize Fights.

Special Correspondence.
Brigham City, July 27.—The following petition, signed by a great many citizens of Boxelder county, was presented to the county court and county officials, and goes to show how disgusted the good citizens are towards anything so brutal as degrading as prize fights.

Honorable board of county commissioners; B. C. Call, Esq., county attorney; Joseph Josephson, sheriff, and the judges of the district court of Boxelder county, respectfully represent that a public contest of prize fighting is openly announced to take place at Hot Springs, this county, on Tuesday, August 4th, 1908, and that all such exhibitions are not only in violation of law, but are brutal, degrading and demoralizing to the community, especially to the youth of our community.

We respectfully petition that as public officers, you take all steps necessary to enforce the law and prevent this contest from taking place, and if necessary, prosecute all participants therein.

Special Correspondence.
St. George, Washington Co., Utah, July 28.—Prize George E. Whitehead, who has been to Nebraska and other states, purchasing a lot of thoroughbred cattle, returned last Wednesday night. He visited Independence, Mo., on the trip. He gave an interesting account of his travels in the general services at the tabernacle this afternoon.

The 24th of July was appropriately celebrated last Friday. A good program was rendered at the tabernacle in the morning, and a fine program of sports was prepared for the afternoon. The latter was abruptly ended, when in full blast, by the comingup of the heaviest rain storm of the season. The rain fell in torrents and the streets were soon turned into rushing, turbulent, muddy streams. No damage of any consequence is reported. Until the storm the weather has been hot and sultry. It is now some cooler.

The new steel bridge over the Virgin river near St. George is now nearly completed, the steel being all in place. The approaches are yet to be built. A large number of people have gone from St. George to Pine Valley to escape the hot weather for a few weeks.

This is the third bear that has been trapped within a week by Edwin and Austin Stevens. After catching the two large ones a few days ago they again set the traps and caught the third one. Some pleasure seekers first learned of the catch and sent word back to town, and before many hours the hunters were on the ground trying to lasso the angry animal. Having been in the trap for perhaps two days, suffering with a broken leg and without food, it was certainly on the warpath.

It was brought to town alive early yesterday morning, and is on exhibition at the home of Frank Stevenson. The weight of the bear is estimated at about 600 pounds.

CANAL PROJECTS.

Young Man Killed by Lightning While Coming Through Mountains.

Special Correspondence.

Mt. Pleasant, July 25.—W. D. Candland of the state land board has just returned from an inspection trip, over in the Price county, where a gated Lands company is constructing a canal under the supervision of the state.

Mr. Candland reports having inspected the canal throughout its course, a distance of 18 miles. It is 15 feet wide at the head and narrows down to 8 feet wide at the lower end.

Its depth will be about 6 feet. There will be \$16,000 worth of lumber expended in furring and bridges. The money to carry on this project was loaned by the state, to the amount of \$100,000, \$75,000 to be used in the canal work and \$25,000 to be spent on the Mammoth reservoir.

There is a tunnel 500 feet long in the canal, which is almost completed. The large diverting dam is built of concrete. The company expects to get water into the canal this fall. The reservoir, which is full at present, will be supplied with water from the Price river, and will irrigate 15,000 acres.

Mr. Candland reports the Cedar valley well being driven by the state land board is down 665 feet and work has been discontinued, as a continuous note of water has been found, which will yield 13 gallons a minute. This will be pumped into a tank and used by the dry farmers for culinary purposes.

The machinery used in boring the well is being moved to Dug Valley west of Nephi, where another well will be driven and later another well will be driven on the Levan bench, south of Nephi. Other sites are in view, both for one in Salt Wells valley are held and in connection with others will use all the funds appropriated for such work.
