TUTT'S PILLS

TORPID BOWELS and DISORDERED LIVER.

From these sources arise three-fourths of the diseases of the human race. These symptoms indicate their existence: Loss of Appetite, Bowels costive, Sick Headache, fullness after eating, aversion to exertion of body or mind, Eructation of food, Irritability of temper, Low spirits, a feeling of having neglected some duty, Dizziness, Fluttering at the Heart, Dots before the eyes, highly colored Urine, CONSTIPATION, and demand the use of a remedy that acts directly on the Liver. As a Liver medicine TUTT'S PILLS have no equal. Their action on the Kidneys and Skin is also prompt; removing all impurities through these three "scavengers of the system," producing appetite, sound digestion, regular stools, a clear skin and a vigorous body. TUTT'S PILLS cause no nausea or griping nor interfere with daily work, and are a perfect

ANTIDOTE to MALARIA.

TUTT'S HAIR DYE.

GRAY HAIR OR WHISKERS changed instantly to a GLOSSY BLACK by a single application of this DYE. Sold by Druggists, or sent by express on receipt of $1. Sold everywhere. Office, 44 Murray St., N. Y.

PRICKLY ASH BITTERS

The majority of the ills of the human body arise from a derangement of the Liver, affecting both the stomach and bowels. In order to effect a cure, it is necessary to remove the cause. Irregular and Sluggish action of the Bowels, Headache, Sickness at the Stomach, Pain in the Back and Loins, etc., indicate that the Liver is at fault, and that nature requires assistance to enable this organ to throw off impurities.

Prickly Ash Bitters are especially compounded for this purpose. They are mild in their action and effective as a cure; are pleasant to the taste and taken easily by both children and adults. Taken according to directions, they are a safe and pleasant cure for Dyspepsia, General Debility, Habitual Constipation, Diseased Kidneys, etc., etc. As a Blood Purifier they are superior to any other medicine; cleansing the system thoroughly, and imparting new life and energy to the invalid. It is a medicine and not an intoxicating beverage.

ASK YOUR DRUGGIST FOR PRICKLY ASH BITTERS, and take no other. PRICE, $1.00 per Bottle.

EVENING NEWS.

Friday, - December 5, 1884.

FROM THE FOUR WINDS.

The careful reader of a good newspaper can learn more in a year than most scholars do in their great libraries.—*F. S. Sanborn.*

The bishop of Exeter, England, has been busying himself in the work of abolishing the habit of "moderate drinking," so called.

While living in Germany, Victor Hugo's study was in the garret of the house, fitted with a skylight and with glass doors that let him feel as if among the tree-tops.

With the exception of General Harrison, who was in office only a month, all our Presidents have had blue eyes. Few people are aware that General Butler's eyes are blue.

Sir Spencer Wells says that an epidemic of scarlet fever was caused lately in an English country town by the opening of the graves of some people who had died of scarlet fever thirty years ago.

Signor Antonniciola claims to have acclimatized coffee on the Roman Campagna, which, if so, fabulously enriches that region: but it is feared that cold winds from the Appennines may disappoint him.

The British Medical Association were recently told by Dr. G. Johnson that a patient of his, 55 years old, had been cured of Bright's disease by a milk diet, having eaten nothing else at all for five years.

"Madame" Lewis of Cleveland, "the only female pugilist," desires to knock out any man in Pittsburg for $500. If she wears soft gloves, a princesse dress, a bewitching smile and a beauty spot she might get the best of any man in the country.

The *Journalist* gave it as a report two weeks ago that Mr. James Gordon Bennett had disposed of one-third of the New York *Herald* to J. W. Mackay, the California millionaire. We can now state this to be a fact upon official testimony. Bennett became involved by the construction of the Atlantic cable and had to sell.—*Boston Star.*

Newspapers printed at sea are not uncommon. The practice of publishing a paper on board ships was inaugurated on the steamer *Great Britain* which started from Australia on the 21st of August, 1852. These seaborn journals do much to relieve the monotony of the passage, filled as they are with stories, burlesque telegrams and jokes by the passengers, and all the drift of spicy incidents that happen from week to week on ship board.

The numerous uses to which electricity is being put promises to remove a cause of many secret disagreements of married life. Before long, by simply pressing a button on the side of the bed, the electric spark will light the fire in the range, or shut up the stove and put on the kettle, and thus no longer necessitate an early trip to the kitchen on a cold morning, when the thermometer is below zero, and the oil cloth feels as if it had been hanging out over night on the north pole.

Among the interesting exhibitions promised for the year 1885 that of Russian historical furniture, which is to be held at St. Petersburg, will be much appreciated by antiquarians and artists. The primitive chairs and tables of the ancient Slavs, as well as the costly furniture which at present adorns the residences of the rich, and the bright colored deal goods in the moujik's cottage, will be exhibited, and appeals are at present being made to furniture dealers and others possessing antique furniture to send their goods to the committee.—*Chicago Herald.*

"I say, young man," said a physician, stopping him on the street, "you are not well. Your face is flushed and you are in a high fever. Let me feel your pulse."

"[—I'm all right," protested the youth.

"No, you're not," said the physician, positively. "Your pulse is over a hundred, and in less than two minutes you will be in a cold sweat. You take my advice and go home."

"I—I can't go home. I am resolved to ask old Jones for his daughter's hand to-night or perish miserably in the attempt."

"Wrong diagnosis," muttered the doctor to himself.—*N. Y. Sun.*

Chief Justice Coleridge, of Great Britain, came into notice in a dramatic manner. He was pleading the cause of a man on trial for murder; it was late in the day, and a draught extinguished the candles. He stopped speaking, and the silence and darkness were oppressive, not the less so on account of the judge's scarlet robes, the haggard face of the prisoner, and the half-lights and shadows as the candles were struggling into light. "Gentlemen of the jury," said Coleridge, "the life of the prisoner is in your hands. You can extinguish it as that candle was extinguished a moment since. But it is not in your power, it is not in the power of any one, to restore that life, once taken, as that light has been restored." He won the case.

In a report upon the volcanic eruption which occurred in the Sunda Straits last August, it is stated that the sound of the explosions was heard over an area much more vast than in the case of any other eruption yet recorded, the farthest distance between the points where the sound was heard being one-sixth of the whole circumference of the earth. Long air-waves giving no sound were also felt at great distances, rending house walls more than 500 miles away. More than, 2,000,000,000 tons of solid substances were ejected and the gaseous matter may have been hundreds of times as great in volume, furnishing ample cause for the brilliant sun-glows which have been observed throughout most of the world.

Prof. Loomis suggests a very uncomfortable theory in regard to the safety of the earth itself. He thinks it not impossible that sufficient steam might be generated in the burning centre of the world to blow the whole world to pieces. A volcanic eruption, under the sea or near it, may at any moment convert the earth into a huge steam boiler, by letting the water in upon the central fires, to be followed, for aught we know, by an explosion that shall rend it apart, and send the fragments careening through space as small planets or meteors, each bearing off some distracted member or members of the human family, to make, perchance, new discoveries and new acquaintances in other parts of the planetary system now revolving with us.

Inflammation, coughs, catarrhs and pneumonia, resulting from colds, may be cured by Ayer's Cherry Pectrol. It allays the inflammation, removes the irritation and soreness, soothes the organs, and restores the sufferer to health.

A REMARKABLE ESCAPE.

Mrs. Mary A. Dailey, of Tunkhannock, Pa., was afflicted for six years with Asthma and Bronchitis, during which time the best physicians could give no relief. Her life was despaired of, until in last October she procured a bottle of Dr. King's New Discovery, when immediate relief was felt, and by continuing its use for a short time she was completely cured, gaining in flesh 50 lbs. in a few months.
