FORTY-SIXTH CONGRESS

CONGRESSIONAL.

SENATE.

WASHINGTON, 29.—The bill introduced by Teller to grant titles to lands patented by the United States and the joint resolution authorizing the President to call an International Sanitary conference, passed.

Allison's amendments to the bill establishing a retired list of non-commissioned officers and directing the President to appoint two colored cadets each year, was debated during the morning hour, after which the Indian appropriation bill was taken up.

Coke offered an amendment authorizing the purchase of supplies manufactured at the Indian training schools whenever advantageous; adopted.

The bill was reported back to the Senate.

Plumb's amendment appropriating $5,000 for seeds and implements for the Cheyennes, was adopted.

The amendment striking out the clause abolishing the Indian Commissioner was agreed to, 34 to 23. All the other amendments were agreed to in bulk and the bill passed.

The deficiency bill was taken up. It reduces the amount in the aggregate to $237,000; agreed to. Adjourned.

HOUSE.

WASHINGTON, 29.—The conference report on the special deficiency bill was agreed to. The House then went into a committee on the internal revenue bill.

Carlisle submitted an amendment to the leakage clause of the bill, providing that proof of distilled spirits shall not in any case be computed at the time of withdrawal at less than 100 per cent., and in case it shall appear on such regauging that the proof of such spirit is less than 100 per cent., the distiller or owner shall pay tax on wine gallons; adopted.

The committee refused to strike out the leakage section.

Cabel moved an amendment providing for the trial of revenue offenders in their respective counties; ruled out.

The committee rose and the House took a recess.

MORE CONVENTION NEWS.

Pennsylvania Democrats.

HARRISBURG, 29.—An hour's wrangle occured as to the 28th district. The committee on resolutions reported before it had concluded as follows:

First, Adherence to democratic principles.

Second, The just powers of the Federal Union, the rights of States, and the liberties of the people are all necessary to the life of the nation.

Third, The military ought to be subordinate in all things to the civil authorities. The federal administration has no right to keep a standing army to invade the States for political purposes, regardless of the Constitution, to control the people at the polls, protect a fraudulent count of the votes, or inaugurate candidates rejected by the majority.

Fourth, The right of free ballot is the only means of redressing grievances and reforming abuses; and the presence of troops at the polls, with a host of hireling officials, claiming power to arrest and imprison, is illegal and destroys freedom of elections and upturns the foundations of self-government; call upon all good citizens to aid in preserving our institutions from these imperial methods and in removing the army to a safe distance from the polls.

Fifth, That Hayes was fraudulently placed in power against the will of the people; represents the conspiracy; denounce his use of the veto and troops and deputy marshals as insults to the country.

Sixth, A constitutional currency of gold, silver and paper, convertable into coin.

Seventh, Oppose subsidies and appropriations of public money for any object but the public service. The reforms and economies which the democratic party have enforced thereby saving millions to the country.

Eighth, Promises sympathy and protection to workingmen as heretofore.

Ninth, Demands restriction upon the great transportation companies which defy the laws.

Tenth, Refers to legislative bribery in Pennsylvania and denounces it.

Eleventh, Denounces the republicans for electral frauds in 1876-7 as the most deadly blow ever aimed at our Government; declares only motives of patriotism induced the democracy to submit, feeling assured the wrong would be rebuked in 1880.

The delegates were by the resolutions instructed to vote as unit, and to oppose the abrogation of the two-third. At this point Snowden moved to amend by substituting for the unit resolution another abrogating of the two-third rule. Warm debate ensued, Wallace opposed the amendment and desired that Pennsylvania vote as a unit in accordance with her dignified position. Snowdon said the iron bound dictation would do for the cumbecus, but not for a Democratic Convention. He wanted no more firebrands here. Gibson made a speech in the same vein. Spier got in a speech in favor of the unit rule, as applied to Hancock for President, Randall opposed the unit rule, and it would bring trouble and defeat oftener than victory.

Snowdon's amendment was adopted by a close vote, 125 to 122, and the platform as a whole was adopted. The Wallace party nominated Cassiday and Spear and the Randall party Scott and Stenger as delegates at large to Cincinnati and they were elected. John A. Jenks was nominated for supreme judge; R. P. Deckert, auditor general. Wallace says that the delegation stands for Hancock against [illegible].

South Carolina Republicans.

CHARLESTON, 29.—The Republican convention was [illegible] till 1 o'clock this morning. The resolutions denouncing the outrage at West Point animated debate, and without action the convention, after electing delegates to Chicago, adjourned till 8 o'clock this a. m, when the Whittaker resolutions passed. The resolutions condemning the bestowal of Federal patronage on democrats also passed. The resolution that in the event of Grant not being the nominee, the delegates should support Blaine, but in no contingency to vote for Sherman, was tabled. Adjourned *sine die*.

Iowa Greenbackers.

INDIANAPOLIS, 29.—The State convention of the national greenback party met to-day, H. S. Leonard, chairman. Committees being appointed, Congressman De La Matyr addressed the convention, nearly all parts of the State are represented, some 300 delegates being present. Levi Ferguson was made permanent chairman. Recess.

The Whittaker Case.

WEST POINT, 29.—Adjutant Michelor testified that Whittaker had 89 demerits since 1876. Cadets were allowed 800 without being marked deficient. He had been punished but for four offences in three and a half years; carelessness in drill, a dirty gun and for being out of bed at taps. Not half a dozen cadets in the corps had so good a record or as many demerits.

Lieut. Coffin, commanding Whittaker's corps, testified that his character as a soldier was very good indeed. Had not had occasion to report him a single time, because he always paid strict attention to his duty.

Prof. Andrews believed the words of the cadets, who upon honor, said they knew nothing of the outrage, was perfectly reliable. When a cadet is caught lying he is treated with utter contempt and suffers social ostracism. It is the best body for truth he ever met.

Prof. Michelor testified the same of 2,826 graduates from 1822 to 1878, only 18 had been expelled from the army exclusive of those who joined the rebellion.

Prof. Greener, whose pupil Whittaker was in South Carolina, said he was a model student, had the best character out of 300 in the university and the best in a class of 25. He was sent to West Point on account of his scholarship. Witness was the first colored student to enter Harvard. He was universally well and courteously treated; was a member of the college societies; ate with the white students, and had a white room mate. It didn't speak well for the academy at West Point when a student of blameless department attended there three years and only two cadets spoke to him all that time, and the instructors didn't come near him. Prof. Greener suggested further that Ryan's testimony should be followed up and all the students be put on oath and not on honor merely.

The Kalloch Case.

SAN FRANCISCO, 29.—The *Post* this afternoon publishes the following card from young Kalloch:

Editors Post: I have not a word to say about the facts or merits of my case. I wish it to be tried in ordinary fair play, especially towards a man charged with murder, supposed to be characteristic of American communities; but I expect no fair play on or before my trial, if fast men and corrupt detectives who surround the *Chronicle* office and assume to run this city can prevent. It is infamous that public officers who are paid by the community should work illegitimately for private individuals and convert what ought to be honorable prosecution into malignant persecution. The drivel published in the *Chronicle* of last Sunday shows how some of our detectives will invade private houses and try to frighten ignorant people. As for the arrest of Clementshaw, I have this to say, I do not know the man and I make no statement as to my version of what transpired. I do not say whether his testimony was correct or incorrect, but I do declare that he had no motive, so far as I can see, to conceal or pervert the truth, and that there is nothing in his evidence to indicate perjury. It looks to me as if his arrest is intended by the *Chronicle* and the detectives to warn the citizens of San Francisco that they must not testify to any fact that would even tend towards my exculpation.

Yours truly,

I. M. KALLOCH.

The *Post* in another column says: However improbable it may appear in the face of the testimony given at the inquest on the body of the late Charles De Young, it is confidently asserted by the friends of I. M. Kalloch that at least a dozen witnesses will support the testimony of Clementshaw to the effect that De Young did fire the first shot. The rumor is given for what it is worth, but there is no possible doubt that such evidence will be offered and form part of the defense.

In the police court this afternoon I. M. Kalloch had a preliminary examination on the charge of killing Chas. DeYoung. The prosecution offered the testimony of eye witnesses to the shooting, and of medical men who were present and performed an autopsy, also the arresting officer. Defense offered no testimony and the prisoner was held without bail.

A Couple of Cyclones.

COLUMBIA, 29.—A heavy rain fell here this afternoon, during which a cyclone swept across the southeast portion of the city. Large trees were blown down, and two houses, one with a family of eight negroes, the other with three, were completely wrecked. A woman and three children were seriously injured. News from below the city is to the effect that many farm buildings were carried away.

Galveston, 29.—Specials to the *News* show that quite a storm prevailed in various parts of the State yesterday and to-day, doing some damage. The Methodist Church at Plano was utterly destroyed. Near McKenny a gin shed was blown away, peach and plum trees stripped and considerable damage done to the crops. The storm passed to the northeast of Brenham, uprooting trees, leveling fences and unroofing outhouses.

At Davilla yesterday several buildings were totally destroyed and others seriously damaged. Among those destroyed was Murray's Hotel. Murray's wife was slightly, and a young man seriously injured. The seminary building at Greenville was destroyed, also barns and fences were leveled. No loss of life reported.

No Opposition.

WASHINGTON, 29.—It can be authoritively stated that the recent establishment of naval coaling stations by the United States vessels *Kearsarge* and *Adams*, on the coast of Costa Rica, has been met with no opposition whatever from the authorities of the localities in question, nor are any objections to the stations anticipated, statements to the contrary notwithstanding. It is known to be a fact, that when the local officials were apprised of the mission of the vessels they assisted the commanders in prosecuting the work. Had any opposition on the part of the government of Costa Rica been encountered, the commanders of the respective vessels would have been ordered to cease work immediately, but no necessity for the issuance of such an order having arisen, stations were quietly established.

Canadian Loans.

NEW YORK, 29.—The *Express* says: The flurry arising out of the calling in of loans by the Canadian banks is over. It is generally believed those institutions have now withdrawn all or nearly all the money they had out on call in this market. They have a large amount of time loans outstanding, but most of these do not mature until well into the summer. There was nothing specially new to-day in regard to the taxation bill which now awaits the signature or veto of Gov. Cornell.

FOREIGN.

GREAT BRITAIN.

Foreign Notes.

LONDON, 29.—Parliament was formally and simply opened to-day by Lord Selbourne, Lord High Chancellor, the Duke of Argyle, Earl Granville, Earl Sydney and Lord Northbrook acting as the Royal Commission. There was a fair attendance of Commons, including many new members. Only 20 Tories and 14 liberal peers, two bishops and 15 peeresses were present in the House of Lords. In the House of Commons there was a meagre attendance of Irish members. A conference on the land question in Dublin to-day de'ms Parnell and his adherents! The House floor and galleries were crowded.

The handicap race at Newmarket was won by Sanford's Aristocrat, Flatsam second, Frivola third.

The betting just before the race was two to one against Aristocrat; six to one against Flatsam and seven to one against Frivola. Aristocrat and Flatsam kept close together till half way down the hill when Aristocrat came away and won by four lengths with Frivola a bad third.

It is announced that last week's steamer touched off Lundy Island, at the entrance of Bristol Channel, for the purpose of transferring two passengers to a fishing smack. The steamer, named *Helena*, has a cargo of 12,000 rifles, 4,000,000 cartridges and a torpedo launch. These will be landed in Crete about the end of May, when a revolution is to break out in various parts of the Island. The two passengers are Cretan agents.

The Land League conference in Dublin to-day unanimously passed a resolution in favor of the speedy pushing forward of the bill for the suspension of ejectments for non-payment of rent for two years, and Parnell and O'Donoghue and three members of the Land League were appointed a committee to draft such bills.

The search ship *Nyc* has returned but no tidings of the *Atlanta*. The bottle business is regarded as a hoax.

There appears now to be no doubt that the Turkish officials who were charged with the surrender of the ceded territory to Montenegro, did not adhere to the tenor of the convention, and it is rather questionable whether the Porte, with the forces at its disposal, can carry out the convention, so the whole question appears again on the point of being reopened.

It is probable that the Reichstag, which has been recently ill by attended, will be closed the 10th of May. Grave doubts are entertained whether the same deputies will be ever again assembled. Bismarck has declared to some political friends his firm intention to go to the House when the commercial treaty with Austria is being debated, for the purpose of officially expressing his views on the political situation. Bismarck deeply and sincerely regrets the victory of the liberals in England.

The Reichstag to-day decided to refer the imperial stamp bill to a committee. Most of the speakers were opposed to taxing receipts for postoffice orders. The Secretary of the Treasury warmly supported the proposal, urging that Bismarck pointed out last year that the imperial revenue must be increased to an extent that would enable the empire to apportion the separate States from its own resources sums necessary to effect the reforms in their several systems of taxation.
