FARM CONVENIENCES.

Carrying Rack For Sheen, Figs and Fuel-try - A Swinging Cerb. A rack for converging sheep, mirror, play or punitiry in any detected phose is ponething works a work future needs mean m has. The annual cut from to See Yiels Tribuno shows what a Fermi Systemic farmer terms "a buildy sately-

DANDY CONVENTION BASES. Ing rack," withhale for carrying one in three sheep or solves, according to size, it is easily and quickly made of any kind of soft words. His terif however, i fest wids, if feet lang, if feet high, or-mer posts of hard word, 2 by 2; horizon and top frames hords 6 incline words, three-quarkies of an inch thick; hould be post. Thus we two losses or decise, and the root is compared of material haif an used thick, for 3 by 6 incline words. A strip, if by 6 incline, 4 feet loaries in the instand of the instant functions are we lossed. In the corner functions are we in the solution floce. Beine increase we set use: "The issue frame and the instant form and they function are set used."

investigate, so they in our any convenient for di-to prevent their di-

Notice that the pate is divided in two, and two sets of hingers are not. So the ends of karring to equa the whole gate to take out pointby fram the bottom flow, only kall and he speed. Two of the side data true out to be measure on cash cuts for handless. Two mere sen take the marks for low pointy and set it on the marks for weight it. The rack may be need to observate it maximum ways to suff be advantage in ractions ways to sufficiently abready quoted given also as illustrates description of a swinging marking exchanged quoted given also as illustrates description of a swinging marking exchanged quoted given at the point or the stellows:

edge of the feeding from, as shown, forward into the feeding from, as shown, it is in a need convectort position to fill with how or to place in it a grain ration. It is then signed hack into the space before the animal small sentirely out of the feeding floor, and in a must

enversion position for the actual is contributed position for the actual is cut from. The hotom of this criticies three cornered piece of turber. This gives rigidly and prevents three hotog a increase space at the totates, into which an animal could not got his noon.

Your anxiety is for your delicate child; the child that in spite of all your careful over-watching, keeps thin and pale, Exercise thin and pale, Exercise seems to weaken her and food fails to nourish. That food fails to nourish. That child needs Scott's Emulsion with the Hypophosphites— not as a medicine, but as a food containing all the elements of growth. It means rich blood, strong bones, healthy nerves, sound digestion. No child refuses Scott's Emulsion. It is pleasant and palatable. SCOTT & BOWNE Counts, See York
