CONDITIONS AT THE AJAX.

Over 377,000 Shares Sold for the Manager Weir Discusses the Outlook in the North Drift.

AJAX WAS THE FEATURE. EAGLE & BLUE BELL ASSAYS

Grand Central Firmer Today Tesora | Last Shipment Soid Today Centennial-Eureka Output - Martha Washington Sales

Manager Thomas Welr of the Ajax change today with the sale of 24,960 | reached the city this morning after, shares for \$33,248.50. The sales for the | thoroughly examining the Ajax, which week were much lower than the previ- has proved so alluring to stock specuous week when the records of many laters during the past week. Mr. Weir months were broken. According to the deprecates anything which tends to record of the exchange, 377,481 shares | boom the stock. He has no desire to changed hands for the sum of \$345,- influence any of the stockholders, but 161.27. Ajax and May Day were the he cannot refrain from expressing features of the week. The former pleasure at the appearance of the north opened at \$1.24 on Monday, but jumped | drift on the 1,000 level. As to the reto nearly \$2,00 later in the week owing | ported strike, Mr. Weir says there is to a reported strike. Sales were made | no strike yet, not in the sense he would as low as \$1.68 today. May Day, which | speak of a strike. The particulars as gold as high as \$1,36 on Monday, fell to given by Mr. Weir are as follows. On pieces as soon as the rich car of ore | Wednesday he received word which led was sampled, which returned less than him to go to the mine, where he found a fine looking crevice in the above drift, about two feet wide, which was filled sold as low as \$1.60 today. Swansea opened the week at \$2.00, but it has since advanced to \$2.25 bid. United since advanced to \$2.25 bid. United six ounces silver, \$1.40 gold and 3 per cent copper. When examined before cent copper. leaving Mr. Weir says it was a little narrower in the top of the drift, but was wider in the bottom. The average will probably run a little over two feet now. It looks extremely encouraging and may lead into a body of ore, but nothing has yet occurred to send the stock up 50 cents a share or add anything like \$150,000 to the value of the

> EAGLE & BLUE BELL ASSAYS. Car of Ore Sold Today-Messrs. Janney & Harkness to Examine Mine.

A car of ore from the Eagle and Blue Bell of Tintic was sold today on controls showing 2.3 ounces gold and 12 ounces silver per ton. Another car of similar ore is being loaded at the mine The ore is partly the result of the development work of the past few months, though the improved condition of the mine is said to be partly responsible for the lot. The last steps in the deal by which A. Hanauer, Jr., acquires an option on the property were taken yesterday, when all the papers were signed granting him a 60-day option at \$2.50 per share. Preparations have already been made to examine the property and the sampling of the group will begin on Monday. The work will be in charge of Professor Walter P. Janney and Martin Harkness, both of whom are widely known in the mining world. They will begin their work on Monday

HEAVY SHIPMENTS. Centennial Eureka Sends Out 1,360 Tons in Seven Days.

Manager Clarence E. Allen of the Centennial Eureka, reports sensational shipments from the old bonanza during the past week. No other mine in the state has even approached the same tonnage. In seven days the company stoped 68 cars or ore amounting to about 1,300 tons. The total shipments for the seven days amounted to 73 cars, some of which was stoped the week previous. After making this astonishing output the bins were left full of ore. This was done with a force of 225 men and would seem to show that a great mistake has been made by those who thought and said that the Centannial Eureka could not maintain the heavy shipments being made uncontract with the American Smelting company. The ore is said to carry 2 per cent more copper than was the case a few months The mine is looking splendid in the lower levels.

ITEMS FROM BINGHAM.

Star of Pine Canyon Improving -Chicago Grading for Concentrator.

In its weekly review of the camp the Eingham Bulletin says: The Ben Butler is shipping another

ear of first-class today. St. Joe long tunnel is driving by two shifts and making ten feet a day, Among new machinery being installed in Carr fork is a compressor for the

R. S. Guillani has two carloads of first-class on dump at the Venice, which will be hauled to depot as soon as road

to mine is in repair:
Hoist for the Nast was received last week but new boiler has not arrived and it will be a week or two before the new plant can be installed. Recent locations in Bingham district, include the Mystic Shrine lodes No. 1

to 6 inclusive, in Freeman gulch, by
Young, and the Virginus lode, by
E. Covington and W. H. Childs. From the Star (Pine canyon) group last Monday came news that lower

tunnel is running in six feet of low grade ers. When driven about 70 feet turther the tunnel-will be undere the id workings, from which a considerable tonname of good pay was taken. G L and E. H. Bemis are new sole proprietors of the Dewey custom con-centrator, having on Monday purchased the stock held by other members of the Dewey company.

The Chicago company is grading for a concentrator and boarding house. A botter and engine for the new mill was e yesterday. On Chicago dump is 150 to 300 tons of very fine On July 2rd and 4th the Rio Grande of first-class carrying over 50 per cent

joint on the lines. Tickets good until July 8th. Take the Heber and Prove Canyon trip. Glorious outlings in the canyons about Scotield, Maryesvale, Last week Red Wing Extension lower Fine fishing, Cheap trips to Ogden, feet from hanging a 10-inch streak o firstelass ore carrying about 50 per cent lead was cut. A contract has now been let to extend tunnel another 50 feet, also one to cross-cut 50 feet. When they are completed the company will

begin drifting on the high-grade lead. Martha Washington Sale.

The delinquent sale of the Martha The delinquent sale of the Martha Washington proved very unattractive today. Less than half a dozen people were in attendance as the secretary went through the list of delinquents and knocked down about 30,000 shares to several buyers for the assessment and costs. Of this lot Henry Rives bought over 19,000 shares. A little over 10,000 shares went into the company's best edited, best printed, best bound, and most modern work in all respects yet issued. Only a limited number on hand. Adheren News.

treasury. Meantime many of those who paid 45 cents a share for their stock have profited by the lesson and will refrain from touching all propositions with which some names are connected.

Marion Group to be Incorporated.

The Marion group of three claims on the west side of the Godiva mountain, in Tintic, will shortly be made the basis of an incorporation. The property is patented and belongs to B. Christen sen, the well known Tintle mining man R. G. Wilson is forming the company in which he will be joined by several prominent mining men. The arrange nents will be completed during the next few days.

Chicago Oil Company.

Articles of incorporation of the Chicago Oil company will be filed in the county clerk's office on Monday. The company owns four claims in Utah county which it proposes to develop. capitalization is fixed at 300,000 The capitalization is fixed at 300,000 shares of the par value of 10 cents a share. The officers are: Frank E. Burmester, president; R. G. Wilson, vice president, and H. Barnett, secretary and treasurer. These, with Theo Meyer and Martin N. Rathbone comprise the directorate.

Values in Tale Increasing.

A very encouraging report reached the city today from Eureka in reference to the Ridge & Valley property in that camp. For some time past the manement has been driving westerly a fissure between well defined walls. indications are so good how that an ore body is expected at almost any shot. A body of tale stained with iron lies on one of the walls, the values in which are said to be increasing.

Planet Company Formed.

The details were being arranged this afternoon for the formation of a company on the basis of the Planetary group at Park Valley. The company will be known as the Planet Gold Mining & Milling company. The capitalization is placed at 200,000 shares, though the par value has not been fixed. The group consists of 14 claims, on which about feet of work has been done. J. T. White is president of the com-pany, while P. W. Madsen is vice president and J. B. Toronto is secretary. The company has a small force at work which will shortly be increased.

Created Unfavorable Comment.

The market course of Utah Consolidated stock has created unfavorable comment, says the Boston News Bureau, by reason of the generally accepted theory that the powers that be are not desirous that the stock should

at present sell higher, President Broughton starts for Europe next Wednesday, but his trip is believed to be without significance so far as it relates to Utah. It would, however, be very pleasing to American stockholders if arrangements could be effected whereby the Utah could be made an American company and there-by save about \$100,000 per year for the stock-moeny which now goes to the British government in the shape of an income tax.

wise is that there is not a very large amount of it held here and it lacks a "sponser." Mr. Leonard Lewisohn, who s now in Europe, owns about 25,000

MINING NOTES.

The Carisa of Tintic had four cars of ore on the market today.

Dr. P. A. H. Franklin is expected back from Idaho next week. F. E. Wilson left for Ely, Nevada,

today to examine the Sapho. A car of ore was on the market today from the Mystic Shrine of Bing-

ham. Four cars of lead ore reached the arket today from the Uncle-Sam-

Humbug mine.

The Taylor-Brunton sampler reporter eight cars of ore from Tintic and one from Bingham today.

Manager W. J. Dooly of the Johnny who is up from Stateline reports the

mill pounding away on ore, The contract for the large boilers for the new U. S. Smelter has been let to

the Sterling Boiler company of Illinois. The annual meeting of the Consolidated Mercur Gold mines company is scheduled to take place on Monday in New Jersey.

Two carloads of mining machinery reached Weiser, Idaho, this week for the Blue Jacket mine in the Seven Devils district.

After awarding the principal contracts for the erection of the new 1,000-ton smelter, Managing Director A. F. Flolden of the United States mining company left for the East last night.

A very rich discovery of gold quartz is reported to have been made near Summit Flat, about 25 miles from Idaho City. The ledge is said to be six feet wide and the quartz is richly laden with the yellow stuff.

GRAIN AND FLOUR.

There has been a stiff demand at home for Utah wheat during the week with some little export trade to Colorado. Good white wheat has been bringing from 551/2 to 56 cents a bushel, carload lots, while the red article has been going from about 2 to 2½ cents less. Oats are still brought in from the East and are selling at \$1.40 and \$1.41 a hundred weight for the best grade and the mixed variety at 2 or cents less. Barley is about cleaned up. Flour prices are unchanged over last week and it will be five or six weeks more before the new article is on the market which will be about ter days later than last year on account of the season being that much back-

Bank Clearings.

ASSOCIATED BANKS STATEMENT

New York, June 29.-The statement of the associated banks for the week ending today shows:

THREE BIG DEALS CLOSING TODAY.

Utah Sugar, Co-op. Wagon and Uncle Sam.

MONEY FOUND AT HOME.

All Three Were Financiered Without Causing a Stir in the Local Market.

The importance of Salt Lake as a money center is well illustrated by the occurrences of the week ending today. The end of the first half of 1901, the greatest year thus far in the history of Salt Lake's trade, was celebrated by the financing of three enterprises calling for \$1,100,000, all of which came out of the local banks, and all of which was paid over without creating a stir in financial circles; this, too, in the same week that witnessed two big failures in New York, events a few years ago, which would have set the nerves of

local capitalists all on the quiver.

The payment of the new capital of \$500,000 into the treasury of the Uiah Sugar Co. was practically completed to-day, and every dollar will have been paid when the time limit expires on Monday. The office of the company in "News" building, has resembled bank all the week, and the secretary states that the stockholders, who number over 700, and are scattered all over the west, have almost unanimously taken up their allotments. Those who have not, sold their rights at figures reaching all the way from \$5.00 to \$5.75 The stock books reope Monday and sales of stock dated July have been made at from \$15.85 to

The Co-operative Wagon and Machine company will have received the \$100,000 of its new capital to the last dollar by Monday. Manager Odell states that practically all the money is already in, the old stockholders having subscribed, or in a few cases, sold their options at premlums ranging from \$3.00 a share up

The Uncle Sam Consolidated called on local men for another half million, and this, too, was brought out with a readiness that spoke volumes for the confilence in the properties taken over by

As far as the banks are concerned, of ourse, these transactions have made but little difference, as they have all been made by check and the money taken out has immediately found its way back again. But as above stated, the closing up of three such deals, in addition to carrying on the immense volume of regular business, serves well to show the capacity of our banks, and illustrates anew the financial importance of Salt Lake City.

BUSINESS NOTES.

The week has been one of decided activity in local stocks, Utah Sugar ugain heavily leading, the new shares dated July 1, going at \$15.90 and \$16. H. J. Grant & Co., and the Salt Lake Dramatic association paid their regular dividends today. Following are the latest quotations:

Architect J. A. Headlund has completed the plans for three handsome residences to be erected for Perry J. Anson on the corner of Second and G streets, at a cost of \$13,000. There will be a corner house of ten rooms, one facing north of eight rooms and one facing west of seven rooms. They will all be of pressed brick and stone and up-to-date in every respect. Architect Head-lund is now working on the plans for a 12-room residence to be erected on the southwest corner of Third South and Seventh East streets for J. J. Trenam, the mining man. The house will cost \$6,000, and will be built of pressed brick and stone. The masonry contract, for the new \$20,000 J. J. McDonald candy factory now being erected on Third South street, has been awarded by Architect Headlund to C. J. Brain for . . .

The second shearing is pretty nearly over and most of Utah and Wyoming wool has been sold. No great quantity has been stored this year. It has either been sold outright or shipped east on commission. The greater part of it has gone direct to the Atlantic seaboard, Boston getting the most of it, of course, though St. Louis and Chicago have taken a great deal of the western clip. Two hundred and fifty thousand pounds of Utah wool, comprising a lage number of small clips, sold during the week at from 10 to 11% cents a

The Portland Cement company of Utah yesterday afternoon executed and filed a trust deed on its plant, property and sundry mining claims in favor of the Camfornia Title and Insurance company. The trust deed is to be given as security for an issue of bonds in the sum of \$10,000.

J. W. Smith of Ruby Valley, Nevada has purchased the home of Attorney H. J. Dininny on the corner of Logan avenue and Ninth East street for a figure approximating \$5,000. The transfer, it is understood, will not take place until September.

Henry Heath, an old resident of Salt Lake, has purchased from W. J. Hal-loran, the house and property known ns \$40 south West Temple, for \$2,500. The property has a frontage of 35 feet. is a 5-room house and a good barn on it.

Building permits were issued during Jesse Magginetti, 143 west Third

The Salt Lake bank clearings for the first six months of this year amount to \$78.674,226.10, as compared with \$55,665,-727.97, the clearing for the corresponding six months of last year. The June clearings amount to \$17,619,707,22, as compared with \$8,759,482,98 for the corresponding month of last year. The increase of more than 100 per cent over June of last year is a very good indicator of the increased prosperity of the West. The week's clearings amount to \$4,869,549.93, as against \$2,248.583.25 for the corresponding week of last year, Today's clearings amount to \$854,901.03, as compared with \$386,607.90 for the corresponding day of last year,

The Eastrn wool market is showing signs of improvement as the season advances and buyers are paying somewhat higher prices than maintained a The season in Utah few weeks ago. The season in Utah, Idaho and Wyoming is practically over and the wools are pretty well cleaned up. All the large clips have found a market and the wool buyers who have been making headquarters at the Knutsford are preparing to leave for Montana. It is estimated that altogether about twenty-five million pounds of wool have been marketed in Utah, Idaho and Wyoming, at prices ranging from 8½ to 13½ cents per pound.

The wool buyers are very much pleased with the outlook of the Eastern market and hope for an improved demand for wools. On Tuesday next the London market opens and it is ex pected that there will be no change in prices except in the coarser wools which

TRADING WAS VERY BRISK.

will probably rule at lower figures.

Market Opened With Fractional Net Gains, With One or Two Exceptions.

London Helped Union Pacific and Atchison - Realizing Cost Prices Some-Closing Was at Top.

New York, June 29.-Trading in stocks was brisk at the opening at fractional net gains with one or two exceptions. Atchison and Union Pacific were helped by higher prices from London. Realizing sales caused a slight setback in some leading stocks but there were good gains at other points resulting in confused trading.

Rock Island rose to 158 and the rights Rock Island rose to 158 and the rights brought 10½@11½. After the first half hour there was a more general demonstration of strength, the trunk line group gaining good fractions and General Electric moving up 4 points. Quite a good business was done in stocks in anticipation of the bank statement, the corn carrying grangers figuring conspicuously on corn prospects. Gains of a point were secured by a sprinkling of prominent stocks. Realizing cost prices some small fractions, but the closing was quiet and steady near the top.

COPPER

Boston, June 29 .- No copper stock quotations.

THE COUNTRY IS PROSPEROUS.

Prospects for an Abundant Harvest Exceedingly Good.

EFFECT OF BANK FAILURES.

On the General Business it Has Ecen Very Small-Movement in Business Lines Continues Good.

New York, June 28 .- R. G. Dun & co.'s weekly review of Trade tomorrow will say: "It does not follow because bad banking methods have caused one of the smaller New York banks to close its doors, with attendant circumstances that created discussion in Wall street, that general business is in any way affected by or at all responsible for the trouble. The country is undeniably prosperous, and with prospects of an abundant harvest to supply our own needs and increasing European deficiences, the situation is viewed with confidence.

"A few mere labor disturbances have arisen, but others have been settled, notably the dispute over the tin-plate scale. Some disagreements in the coal regions at times assumed a threatening aspect, but the troubles have been local and do not affect the mining industry. Reports from the country speak of a continued good movement of merchandise with the jobbing trade and embracing nearly all lines.
"The fiscal year closes with condi-

tions in the iron and coal industry in marked contrast to the situation at the corresponding date in 1900. Quotations were then receding rapidly without stimulating activity, idleness was the rule at furnaces and mills, and wage scales were under serious discussion with employers and labor organizations far apart in their views. This year difficulty is experienced in stopping machinery long enough to make necessary repairs. Prices are well maintained and steady, with unreasonable inflation, while a successful season makes it possible for many concessions to avoid the controversy by voluntarily reducing the hours or advance in wages, and evidences of serious disagreement are the exception. Construction pro-

ceeds at an unprecedented pace, so that ceeds at an unprecedented pace, so that structural material, builders' hardware and kindred goods find ready purchasers. Railway facilities are inadequate to handle expanding traffic, and ships are crowded with orders for freight cars and other equipments.

"Footwear forwardings from Boston have averaged over 100,000 cases weekly for two months, raising the total for

have averaged over 100,000 cases weekly for two months, raising the total for the half year to 2,358,52 cases, according to weekly records of the Shoe and Leather Reporter. The largest previous total for the corresponding months was in 1900, and fell 154,151 cases short of the current year. Exports to Great in 1900, and fell 154,151 cases short of the current year. Exports to Great Britain are also a satisfactory factor in the present movement. Some east-ern shops are so well supplied with con-tracts that deliveries cannot be prom-ised before September 1st. Local manised before September 1st. Local manufacturers are running on short time or
closed for stocktaking. Stocks in deniers' hands are light, which gives the
market a strong tone. Leather is active and firm with hemlock sole in
good demand. Upper leather is selling
freely. Receipts it imported dry holes
are light and prices will be sustained.
"Wheat prospects are further linare light and prices will be sustained.

"Wheat prospects are further lmproved throughout the entire producing
region. More satisfactory to the producer than evidences of a banner yield,
is the failure of quotations to show
commensurate decline, for there is good
profit at the present prices. In four

commensurate decline, for there is good profit at the present prices. In four weeks Atlantic exports, flour included, aggregated 13,663,000 bushels, against 10,980, 076 bushels last year, and \$334.638 bushels in 1899, while Pacific exports were 3,505,400 bushels, compared with 2,853,987 in 1900, and 2,445,740 two years Gains are more conspicuous in tha wooden goods division, because depression had lasted long and been severe.

As the raw material gradually sought a lower level, mills restricted ourchases a lower level, mills restricted ourchaves in anticipation of better terms, except where orders for goods were secured. The clothing trade is now seeking mens The clothing trade is now sceping men's wear in woolens and worstyds, and buyers find stocks light. Values have not yet hardened, but there is little thought of lower prices, either for goods or raw wool. In knit goods jobbers are stock after which positive is

taking stock, after which activity is expected.
"Failures for the week number 204 in the United States against 207 last year, and 23 in Canada, against 21 last
