MILLIONS OF HORSESHOES.

"Two million kegs, containing 160,000,000 horseshoes, are used annually in the United States and Canada, approximately speaking," said S. L. Martin of Boston, who represents an iron manufacturing concern of the east.

"That was about the number used last year, and all the hue and cry about rubber shoes and automobiles is raised in the face of the constantly increasing sale of horseshoes. As a matter of fact, the use of rubber horseshoes, which is confined almost altogether to the large cities, is a help to manufacturers. The sale of the old-fashioned shoes goes on increasing, and in addition to that the manufacturers have an opportunity to make the steel portion of rubber shoes. All so-called rubber shoes have a rim of steel in them, and it is usually of better metal and gives the manufacturer a wider berth for profits than the old-fashioned shoes."—Louisville Courier-Journal.

HOW TO GET SUNBURNED.

This is about the time of the year when legs and arms are sunburned, due to the carelessness of the boys and girls who fail to take precautions as necessary to avoid the painful experience.

A simple way to avoid sunburn is to expose your arms and legs gradually. The first day that you go without stockings or with short sleeves in the sun, do not run about more than an hour or so before again donning stockings and covering your arms.

Instead of being blistered as the result of the exposure, you will find your skin has turned pink, and later, a mahogany color. Repeat the performance after a couple of days, and you will be surprised to see the skin assume that rich color noted among sailors and men who live out of doors a great deal without having to undergo the tortures of sunburn.—Boston Globe.

Abscess.

W. H. Harrison, Cleveland, Miss., writes, Aug. 16, 1902: "I want to say a word of praise for Ballard's Snow Liniment. I stepped on a nail, which caused the cords in my leg to contract and an abscess to rise in my knee, and the doctor told me that I would have a stiff leg, so one day I went to J. P. Lord's drug store who is now in Denver, Colo. He recommended a bottle of Snow Liniment; I got a 50c size, and it cured my leg. It is the best liniment in the world."
