The funeral of Mrs. Bush will be held in the Sugar Ward meeting-house tomorrow, Sunday, June 14, at 2 p. m. Friends are invited.

Prof. Kay of Cornell has accepted the position of assistant professor of civil engineering in the University of Utah, and enters upon his duties in the fall.

The Utah Art Institute has elected these officers for the ensuing year: President, G. M. O'Connell; vice president, S. Whitaker; secretary, Mrs. E. W. Sloan; treasurer, Mrs. Alice Merrill Horne.

The Relief association of the Twenty-second ward will hold its annual meeting in the ward hall on Wednesday, June 14, at 2 p. m. A cordial invitation is extended to all, especially to the older members.

Mrs. Josie Morris will give a pupils' recital in the Independent hall, Eighteenth ward, on Wednesday evening next, beginning at 8:15. The program will consist of recitations, numbers interspersed with both vocal and instrumental music.

The remains of George Elliott, the Railroad Exchange boy, who was buried yesterday afternoon, without any religious ceremony, no communications having been received from his friends.

The Knights of Pythias will observe tomorrow as their Memorial day. In the morning the knights will hold special services in the cemetery, and in the evening there will be a public meeting in the hall.

A beautiful bouquet from the greenhouse of F. F. Thorpe in this city was placed on the "News" editorial desk today, and shows up as a specimen of floriculture. Mr. Thorpe has made great progress as a skillful florist and deserves the reputation he has achieved.

The First Baptists are celebrating the twentieth anniversary of the establishment of their church in this city. There was a social and spread last evening, with the anniversary sermon, and the service of tomorrow will have special bearing on the occasion. The anniversary sermon will be preached by Rev. A. S. Sordrup of Kansas City. The pastor of the church have been Revs. Dwight Spencer, D. D. Forward, H. B. Stegman, and D. Arthur Brown.

Elder William H. Summers of Forest Dale has recently returned from a visit to Great Britain. He says that he is leaving Liverpool on his way back to America. He had just received at the office there that the mail addressed to the Elders in Turkey had been tampered with and the American ambassador, who had promised to look into the matter and have the mail restored, had refused to do so.

The ambassador proffered them all the assistance possible.

Word comes from San Francisco that Harry C. Evans, a well known young Salt Lake who was recently married to Miss Agnes Smith, is critically ill in the hospital.

There about 10 days ago on the advice of his physician, immediately after his arrival in Salt Lake, he was taken to the hospital. His wife was telegraphed for and she has been at his bedside for some days. Mr. Evans has suffered from stomach trouble for some time. More recently he has had repeated attacks of heart failure and his condition is aggravated by dropsy.

The quarantine at the state prison has been raised, and the Christian Endeavor society there will be able to meet with the prisoners from now on. The prisoners are to be taken to the hospital for medical treatment, and the inmates, Mrs. E. E. Shepard will have charge of tomorrow morning's exercise.

The late Peter Moss of Ogden died yesterday at the prison, was a long time a valued, active and conscientious member of the prison Christian Endeavor society. He was for a time its president, and from the hour of his conversion, conducted himself as a Christian man, and was respected by all the officers and inmates of the institution. His loss will be much felt by his late associates.

JOHN PATTEN VISITS UTAH.

Native of This State Has Become A Prominent Inventor.

DESCENDANT OF A MARTYR

Mr. Patten's Method of Ice Manufacture is Proving successful and Very Profitable.

John Patten, a descendant of David W. Patten of early prominence in the Church of Jesus Christ of Latter-day Saints, has returned to Utah after an absence of 21 years, during which time he has succeeded in making a name for himself as an inventor, and has become a life member of four of the leading scientific societies of the country, these being the New York Academy of Science, the Maryland Academy of Science, the Pacific Coast Astronomical society and the American Association for the Advancement of Science.

About the most important invention evolved by Mr. Patten is a patented process for the manufacture of ice, which commodity is produced without the aid of ammonia. So successful is Mr. Patten's method that a great plant has been established in New York and a second one is being placed in San Francisco, and the process has been protected by patent in 22 civilized countries of the world. The method of manufacture employed in Mr. Patten's process is to pump out of steel tanks as much of the air they contain as is possible, producing the nearest approach to a vacuum. Into this is sprayed a small jet of water, which freezes from release from atmospheric pressure, the consequent tendency to disintegrate. When the tank is full a block of ice weighing 2,500 pounds has been made 200 times faster than by the ordinary method.

Another of Mr. Patten's inventions is a process for manufacturing glycerine from waste soap lyes. In all, the inventor has secured 50 patents upon as many appliances and methods, many of which have been successful and are proving to be profitable.

Last night Mr. Patten left for Marysville, where he is interested in mining, and after his return here will proceed to his home in New York.

Mr. Patten is 45 years old and was born in Mandi, Utah, being a descendant of David W. Patten, the first martyr of the Church.

Dancing tonight at Saltair.

AT THE RESORTS.

The temperature of the water at Saltair is now ideal for bathing.

The Federated Miners are at Lagoon today, with indications that this will be one of the heaviest days of the season at the popular Davis county resort.

The usual sacred concerts will be given at Caldera, Lagoon, Liberty Park, Salt Palace and Saltair tomorrow afternoon.

Despite the advanced prices the earnings of the railroads transporting the tourists to Saltair and Lagoon have this week shown a handsome increase over those of the corresponding week of last year.

The Woman's Democratic club will give an excursion to Lagoon on Wednesday, June 14. There will be speeches and music, and prizes will be given to the best lady waltzer, the best gentleman waltzer, for the best two-step for children's races, to the oldest man, to the oldest woman, and also to the largest family present.

Dancing tonight at Saltair.
