VALUABLE TO EVERY HOME.—We shall to our readers a favor by calling their special attention to the value, the usefulness, and we may say the direct profit, of supplying the household with the present year, with one of the *Argosy*, as well as the most valuable, *Journal* issued in this country. It costs hardly half a cent a day, a sum easily saved, while its practical hints and suggestions will be most likely to bring back that amount many times over. The 500 to 600 beautiful, instructive engravings, are alone worth many times the cost of the paper. We refer to the *American Agriculturist*, so called because it has been started 35 years ago as a Rural Journal, but now enlarged and improved to suit the wants of every family in Country, Village, and City. It is packed full of good things, useful, reliable, and instructive. Each number contains 44 large (double octavo), pages, beautifully printed. It has much for instructing and pleasing Housekeepers and Children, and Farmers, Mechanics, Merchants—indeed all classes. Its House Plans and Improvements, with Engravings and suggestions as to cost and the same sense of directions, are worth more than many costly architectural works. Its constant, persistent, far-reaching exposure of humbug and swindling schemes, is of great value to the whole country and to every individual. In short, it is full of good things for everybody, and we advise everybody to take it this year. It will be specially valuable in this Centennial year. Its circulation, which is a hundred fold greater than the majority of other journals, enables the publisher to supply the *American Agriculturist* at the very low rate of \$1.00 a year, postpaid, or four copies for \$3.40. Take outside advice and send for it to the publishers, viz: **MORSE, ORANGE JUD COMPANY**, 545 Broadway, New York City.

THE RESTORATION.—To accommodate the public and meet the great demand for President Yung's discourse on the "Restoration," the publishers have determined to issue an authorized edition, in pamphlet form, neatly got up, in paper covers, and sold at ten cents copy. It is now ready, and can be obtained at the News office.

A Strange Burglar.—About 9 o'clock last night, a German named Offenbach, residing near the city cemetery, created a stir in the locality by calling upon his neighbors for help.

He had been in the back door, when he, Offenbach, who was just retiring, found out another way and locked the intruder in the kitchen. Half a dozen men were seen on the street, and a lantern was procured, and the intruder was seen, and a dark figure sprang from the doorway of the small apartment, but it was the figure of a burglar of the genus, but of a burglar of the genus, who had probably stolen the things in pursuit of an unfortunate house.

Injured His Fingers.—Yesterday morning a six-year-old boy, named Stockdale, residing in the Sixth Ward, got hold of a cap used for exploding gunpowder, and exploded it. roy was deputy collector of Internal Revenue and after the departure of Major in Nov. 1873, became the active business man of the firm. The extension proceeded, while the occasional technical objections from the defendant, and very little of the testimony was ruled out. Fitzroy was asked if he knew the defendant, and he answered that he did.

On cross-examination, Fitzroy says that meeting with Babcock, it was simply an introduction. There was no conversation. It was standing near the elevator. Gen. Babcock came up and Avery introduced us.

After Fitzroy, John F. Sieden, of the firm of Sieden & Co., distillery, was put on the stand.
