JAS. S. KIRK & COMP'Y CHICAGO.

Dr. FOOTE, Senior,

Of 120 Lexington Avenue, New York,

Hereby cautions the public NOT to Employ or Communicate With a man styling himself "Dr. Foot, Jr." without making due inquiry.

This man came to Salt Lake City representing himself as the son of Dr. E. B. FOOTE of New York, the well known specialist, as abundantly proved by affidavits. As rumors came into Salt Lake City from Dakota and Montana from a man made there, he changed the base and represented himself as the son of a more noted specialist in New York City than Dr. E. B. FOOTE, the well known author. Mr. JOHN F. THOW, of the well known Trow's Directory, in New York City (forty years in the directory business), Ex Governor FRANK FULLER, of Utah, and the Hon. ABRAM WAKEMAN, for many years Postmaster in New York City, also Surveyor of the Port, gave their affidavits that there are no other doctors in New York by the name of FOOT or FOOTE, excepting Dr. E. B. FOOTE, the the author of "Medical Common Sense," etc., and his two sons, Dr. E. B. FOOTE, JR., and Dr. HERBERT T. FOOTE. The genuine Dr. FOOTE, JR., will hereafter always employ the initials, E. B., in designating his name. Heretofore he has been known not only at home but wherever his publications have been circulated, by the name of Dr. FOOTE, JR. Greater care will be taken hereafter, in view of the fac that an unprincipled person has assumed to profit by his and his father's reputation.

Those desiring further and more detailed information in respect to this matter, will receive it by addressing Box 418, Salt Lake City Utah.

Persons having information of advantage to plaintiffs will kindly communicate the same to J. W. Ivey, with Sutherland & McBride, Salt Lake City.

Those desiring to consult Dr. FOOTE professionally or to order remedies should address either

Dr. E. B. FOOTE, Sr., or Dr. E. B. FOOTE, Jr., 120 Lexington Ave., New York.

Consultation Free, in person or by letter. d&s one

FLOWING WELLS!

I am prepared to Bore for Water any depth, from One Hundred to Four Hundred Feet, in any kind of material, Rock, Quicksand, Cement or Gravel ☞ For particulars see S. H. MARKS, d242 1m At the Cooperative Furniture Co's., 102 West South Temple St.

☞ Passenger Trains Arrive in Salt Lake, daily as follows

FRANCIS COPE, General Freight and Passenger Agt. JOHN SHARP, General Superintendent.

A MAN WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY, WILL SEE BY EXAMINING THIS MAP, THAT THE

CHICAGO, ROCK ISLAND & PACIFIC RAILWAY

By reason of its central position and close relation to all principal lines East and West, at initial and terminal points, constitutes the most important mid-continental link in that system of through transportation which invites and facilitates travel and traffic between cities of the Atlantic and Pacific Coasts. It is also the short and best route to and from points East, Northeast and Southeast, and corresponding points West, Northwest and Southwest.

The Rock Island system includes in its main line and branches, Chicago, Joliet, Ottawa, La Salle, Peoria, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Fairfield, Ottumwa, Oskaloosa, West Liberty, Iowa City, Des Moines, Indianola, Winterset, Atlantic, Knoxville, Audubon, Harlan, Guthrie Centre and Council Bluffs, in Iowa; Gallatin, Trenton, Cameron and Kansas City, in Missouri; Leavenworth and Atchison, in Kansas; Albert Lea, Minneapolis and St. Paul, in Minnesota; Watertown in Dakota, and hundreds of intermediate cities, towns, villages and stations.

THE GREAT ROCK ISLAND ROUTE

Guarantees its patrons that sense of personal security afforded by a solid, thoroughly ballasted road-bed; smooth tracks of continuous steel rail; substantially built culverts and bridges; rolling stock as near perfection as human skill can make it; the safety appliances of patent buffers, platforms and air-brakes; and that exacting discipline which governs the practical operation of all its trains. Other specialties of this route are Transfers at all connecting points in Union Depots, and the unsurpassed comforts and luxuries of its Passenger Equipment.

The Fast Express Trains between Chicago and the Missouri River are composed of well ventilated, finely upholstered Day Coaches, Magnificent Pullman Palace Sleepers of the latest design, and sumptuous Dining Cars, in which elaborately cooked meals are leisurely eaten, "good Digestion waiting on Appetite, and Health on both." Between Chicago and Kansas City and Atchison, are also run the Celebrated Reclining Chair Cars.

THE FAMOUS ALBERT LEA ROUTE

is the direct and favorite line between Chicago and Minneapolis and St. Paul, where connections are made in Union Depots for all points in the Territories and British Provinces. Over this route, Fast Express Trains are run to the watering places, summer resorts, picturesque localities, and hunting and fishing grounds of Iowa and Minnesota. It is also the most desirable route to the rich wheat fields and pastoral lands of interior Dakota.

Still another DIRECT LINE, via Seneca and Kankakee, has been opened between Newport News, Richmond, Cincinnati, Indianapolis, and Lafayette and Council Bluffs, Kansas City, Minneapolis and St. Paul and intermediate points.

For detailed information see Maps and Folders, obtainable as well as Tickets, at all principal Ticket Offices in the United States and Canada; or by addressing

R. R. CABLE, President and General Manager, Chicago. E. ST. JOHN, General Ticket and Passenger Agent, Chicago.

EVENING NEWS.

Thursday - September 24, 1885

CORRESPONDENCE.

JOTTINGS BY THE WAY.

"Homespun" Records Incidents of Travel from Dixie Northward.

Editor Deseret News:

Not much of interest usually happens in country towns in two weeks time; but I fancy I have gleaned a few items that may be of interest. On leaving St. George late in the day, we only drove over to Harrisburg. In this little town, we were hospitably entertained. From there we went next through Leeds, speedily, through Bellvue, and up to

KANARRA.

We halted for the night at the old Bishop Roundy homestead. How many travellers know these old brick walls and the nearty welcome always found within the doors, always on the latch to the Saints.

Who that has ever travelled to Dixie in the (good?) old days, but well remembers the frank, honest face of Bishop Roundy, smiling his welcome from his doorway. How well I recall the next to the last trip the late President Young ever made south, on which occasion I happened to be one of the party. Halting at the gate, the Bishop came out, and then ensued a laughing colloquy benween the President and himself. Turning to his party, the President called out—"Well, I guess we'll have to stay here; Bishop Roundy says he'll take the burrs off our carriage wheels if we don't."

As we walked under the old, familiar porch, the extreme silence, the quiet and loneliness of the place struck like a chill to my heart. The Bishop's widow, aged, but full of the gracious spirit of hospitality, drew us within. We were allowed to sleep in the bed, kept sacred now to Apostles, and the great of our people, where President Young always slept.

The meeting between the two widows, one of whom is of our party, was sad.

The dear old lady related many things that happened when her husband was alive. His tragic death has never lifted its shadow entirely from her heart.

The earthquake felt in Kanab extended to this place, and was quite distinctly felt. The rocking pulsation was very plain.

Crops were never better here; and the water this year has been wonderfully increased. Where formerly two supplies were had, now four are obtained.

AT CEDAR

the crops have been somewhat injured by the rabbits, and at Summit the grain has been almost carried away by the little pests.

The Cedar sheep herd has done very well this year. The company have sold their wool to the Provo, Washington and Beaver Factories receiving cloth, with which they are paying off their wool dividends.

The good people of Cedar manage their meat affairs so that they have fresh mutton twice a week during the summer, and not at all in the winter.

At Parowan we made a very pleasant stay over night with the late Geo. A. Smith's daughter, Mary A. Wimmer.

The fruit crop here has been good this year. There is quite a deal of sickness among the children here.

At dinner time (on leaving Parowan for Beaver) we camped at Elkhorn Springs. We were quite surprised and reminded of the old freighting days, by finding encamped here nine teams.

ARRIVING AT BEAVER

we drove into President Murdock's yard. He, in speaking of the fruit crop, said the apples were a failure this year, owing to the ravages of a small spider that eat the life of the buds and leaves, leaving them wilted and destroyed.

The factory at this place is doing remarkably well. The cost of the whole property is $30,000. This includes, besides the factory itself, six good city lots, well fenced and under lucern cultivation; has a good grist mill, with two sets of burrs, as there is south of Salt Lake; and attached to the mill a good dwelling house occupied by the miller.

The factory pays an excellent dividend. In the ten years it has been running, it has paid a dividend of 225 per cent. A sinking fund has been made by reserving 5 or 10 per cent. every year of the dividends. And just now the superintendent, Wm. Ashworth, has gone east to purchase machinery by which the working power of the mills will be just doubled. This machinery will cost about $3,000. It is mostly for the making of superior blankets and stocking yarn.

The room and other facilities of the mills are ample for this extra machinery; and when in good running order, the dividends will be just doubled. Where they have been 15 per cent a year, in time past, now they will be 30 per cent. Capital stock is paid up and overpaid.

FORT CAMERON,

was recently purchased by Prest. Murdock, but awaits the action of Congress in settling the title, to be turned into a first-class seminary or college.

Health of the people at Beaver is very good.

The grand jury is discharged. To-day the Court has taken up the "first "cohabitation" case. No excitement on the subject seems to exist. Good by. HOMESPUN.

UTAH COUNTY NOTES.

CONFERENCE AT PROVO — FRUIT-RAISING AT PLEASANT GROVE.

PLEASANT GROVE, Utah County, Sept. 21, 1885.

Editor Deseret News:

Presidents H. S. Eldredge and Jacob Gates held Seventies Quarterly Conference at Provo on Saturday the 19th instant, in the Provo meeting house. Statistical reports and other Seventies business was attended to. Presidents Eldredge and Gates and Elder Stevenson were the speakers in the forenoon and Elder Robert Campbell, President A. O. Smoot, Counselor David John and President Eldredge were the speakers in the afternoon.

There was a good attendance from various points of the county, and all seemed to return refreshed to their homes.

The Presidency of the Seventies Council intend, as fast as practicable, to hold conferences throughout the various Stakes of Zion, which will have a beneficial effect, by encouraging the various quorums.

Elders Cambell and Stevenson stopped off the train at Pleasant Grove and spent the Sabbath there.

At 10 a. m. they addressed the Saints on the fulfillment of prophecy, and topics of the times. We had the pleasure of visiting Brother Wm. Wadley's sixty-acre farm, which is situated one mile and a half northeast of town, near the mountain and sloping towards the south. A small spring just above the farm and in a ravine that a few years since only had watering capacity of one row of grape vines, now not only irrigates three acres of grapes but also a large orchard of various kinds of fruits, the magnitude of which may be judged when we learn that at this time Brother Wadley has on his drying boards 600 bushels of peaches, plumbs and nectarines, and also cured over 600 bushels of apricots and has an abundance of apples. The tiny spring spoken of was tapped by digging a trench below so that when it struck the fountain it was 30 feet below its opening. The boy of the adventurer may be imagined when a good sized stream was obtained which has continually increased, until it is of great value to the husbandman, who utilizes it to great advantage.

Brother Wadley is deserving of praise for his diligence in securing so nice a variety of both hardy and tender kinds of grapes, which cover three acres of ground. The yield this year is 10,000 pounds, which supplies Salt Lake and other markets. Brother Robert Campbell and others sampled them and pronounced them delicious, which the NEWS editors will witness for themselves ere long.

The labor and toils of the husbandman of this vicinity are through the blessings of the Lord, causing springs to abound in parched places and the desert to bloom and become fruitful, creating homes that are coveted by the less worthy. It is not uncommon for a family to possess from 200 to 500 bushels of fruit. The codling moth is doing great damage to the apple crop here and thus the bitter is mingled with the sweet throughout life.

EDWARD STEVENSON.

Save Your Seed-Corn Now.

The selection of seed corn should be made while the corn is standing in the field. It is then that its progress in growth may be noted, as also its prolificacy and adaptation to the climate in which it is grown. Seed corn should be selected from special plants. The farmer should inspect every portion of the field, and mark the stalks containing the ears desired. Only tnose who have given this mode of selection their attention are aware of the advantages of annually selecting the best ears on well grown stalks. A field of corn in Nelson county, Va., ten years ago, which was inspected by a committee from Philadelphia, yielded at the rate of 160 bushels per acre, the stalks containing from four to seven ears each, and yet this had been obtained simply by selection. The corn had also been adapted to the soil, and though giving such good results in that locality proved a failure elsewhere. The farmer had a variety of corn best suited to his purpose, but which possessed no advantages to farmers in other sections, which should convince those interested of the importance of selecting seed-corn on the farm instead of depending on others.

Prolific corn is not always desirable on some farms. Unless the soil is fertile such corn will not fill up in the ear as it should. The climate and soil must correspond with the quality of the corn in order to secure satisfactory results, and hence it is sometimes unwise to resort to new varieties without testing them in a few rows. One of the difficulties to be encountered with seed corn is its proper preservation through the winter. Dr. Sturtevant has given much of his valuable time in experimenting as to the methods of so doing, and is of the opinion that no corn should be used for seed unless it has been thoroughly dried, and, if necessary dried in the kiln. The manner of preservation of seeds seems to have strong influence upon its vitality. Corn used thoroughly dried at a temperature of from 70 to 80 degrees germinates better than seed not so carefully managed, but it is better to dry the corn at 100 degrees, and keep it in some place of even temperature and free from dampness.

Although corn will not ordinarily germinate at a lower temperature than 48 degrees, according to experiments made, yet, when dried at a temperature of 100 degrees, grains have germinated at 41 degrees, though slowly. The difficulty in a majority of cases is due to the corn not being sufficiently dried before being laid away for the winter. When the selection is made in the field, as it should be at this season, the corn may easily be cured by keeping it in a room containing a stove. It should not be harvested, however, until fully matured, and only the best formed ears chosen. Should it be desired to change the seed, as is often recommended, do not discard the old variety, but plant a few rows of some suitable kind among the rows from the old seed, and let a cross be made by fertilization, but care should be taken not to make a radical change. Cross the flint varieties with a flint variety only, and under no condition mix yellow and white corn. All that is necessary is to grow and select your own seed-corn, crossing it occasionally with the same kind of corn from another farm, but it is not advisable to procure seed from a distance unless certain it is suitable to your soil and climate.—*Phila. Record.*

Scrofula, and all forms of ser diseases, are rapidly purged ou use of Ayer's Sarsaparilla.

VERY REMARKABLE RECOVERY.

Mr. Geo. V. Willing, of Manchester, Mich., writes: "My wife has been almost helpless for five years, so helpless that she could not turn over in bed alone. She used two Bottles of Electric Bitters, and is so much improved, that she is able now to do her own work."

Electric Bitters will do all that is claimed for them. Hundreds of testimonials attest their great curative powers. Only fifty cents a bottle at Z. C. M. I. Drug Store. 2

TUTT'S PILLS

LEGAL NOTICE.

In the Probate Court in and for the County of Salt Lake, Territory of Utah.

In the Matter of the Estate of Elnathan Eldredge, Deceased.

Order appointing Time and Place for hearing Petition for Order to Sell Real Estate.

IT APPEARING TO THE HON. ELIAS A. Smith, Judge of the said Court, by the petition of Elnathan Eldredge and F. H. Eldredge, Administrators of the Estate of Elnathan Eldredge, deceased (herein filed praying for an order to sell real estate belonging to said estate) that it is necessary to sell the whole or some portion of the real estate to pay the debts outstanding against the estate, and expenses of administration.

It is hereby ordered: That all persons interested in said estate appear before the Probate Court of the County of Salt Lake, Territory of Utah, at the Court Room of said Court, in the Court House in Salt Lake City, on Tuesday, the 29th day of September, A. D. 1885, at 10 o'clock a. m., then and there to show cause why an order should not be granted to the said Administrators, to sell so much of the real estate of the said deceased as shall be necessary.

And it is further ordered that a copy of this order be published in the DESERET EVENING NEWS, a newspaper printed and circulated in Salt Lake County, at least four successive weeks before said 29th day of September, A. D. 1885.

Dated August 31st, 1885.

ELIAS A. SMITH, Probate Judge.

TERRITORY OF UTAH, County of Salt Lake. } ss

I, John C. Cutler, Clerk of the Probate Court in and for the County of Salt Lake, in the Territory of Utah, do hereby certify that the foregoing is a full, true and correct copy of order appointing time and place for hearing petition for order to sell real estate, in the matter of the Estate of Elnathan Eldredge, deceased, as appears of record in my office.

In witness whereof, I have hereunto set my hand and affixed the seal of said Court, this 31st day of August A. D., 1885.
