WILD IRISH STRIKE. Gratifying News Received from Fay, Nevada, by Fred R. Davis. Fred R. Davis, one of the active rembers of the Salt Lake Stock and Mining Exchange, is in receipt of a let-ter from Fay, Nevada, containing the information that what has the appearance of being an important strike has been made in the Wild Irish mine. At a depth of not to exceed 60 feet, so Mr. Davis' informant states, a fourfoot ledge of ore has been encountered with assays running as high as \$100 to the ton in gold and silver. It is not indicated in the letter if the assay represents a general average of the vein, probably not, and Mr. Da-vis is inclined to believe that the ore tested may have come from the rich-est portion of it. Nevertheless he is

GOOD NEWS FROM ALTA COPPER E. R. Woolley, manager of the Alta E. R. Woolley, manager of the Alfa Copper company, has received some good news from Supt. Rampton relative to developments on the Empire claim. The shaft started recently at a depth of not to exceed 10 feet broke into a body of fine ore. The Alfa Copper mine is located near Mackey, Idaho. Mr. Woolley left for the mine Satu-day mght and will probably be absent about 10 days. SUPERIOR AND BOSTON. (Pollock Special Wire.) Lost Packer Smelter Had a Good Run

This Year. An arrival from Idaho brings the in-formation that the Lost Packer Mining company has closed its smelter until next year after a very successful run. Owing to its isolation from the rail-road and because deep snow prevails in winter, it is impractical for the com-The directors of the company are

schuled to hold a meeting today and it has been stated by a shareholder that there is a possibility of a dividend being declared, the amount being equal to the assessment paid into the comof the several months ago, the amount of which was \$1 a share. At least the proposition will be discussed by the directors when they come together.

New Tunnel Will Facilitate Handling

Of Ore Hereafter.

Special correnpondence. Eureka, Oct. 10.—Less than 500 feet of work is to be done before the Black Jack tunnel will be completed. It is to be 1,500 feet in length and will be the means of affording the company an opportunity of placing its ore upon the cars of the Eureka Hill railway with-out a haul by team. A large ore house has been built at the mouth of the tunhas been built at the mouth of the tun-nel, and the company in general is being placed in a condition for the shipment of a heavy tonnage of ore when it starts. Another tunnel is also being driven, which is headed toward the old Star shaft, and has been run 150 feet. This avenue will furnish an outiet for the ore developed in the southern part of The Black Jack ter-ritory and will be about 900 feet in ritory, and will be about 900 feet in
