Twenty Years a Sufferer.
Twenty years ago I was afflicted with the terrible disease of the teeth, which was the cause of the cold and exposure of the face, and a large abscess to form on my face, which kept continually enlarging. After spending hundreds of dollars, with no benefit, I was recommended to try your Golden Dental Discovery, and now, in less than three months after taking the medicine, I am thankful to say I am completely cured, and for the last ten years, I can put my face to the wind.

LOCAL AND OTHER MATTERS.

NOTICE.

There will be a priesthood meeting of the Salt Lake Stake of Zion in the Fourteenth Ward Hall in this city, on Saturday next, August 11th, at 11 o'clock a.m. A punctual attendance is required of all the Bishops and their counselors, and of the Presidents of the various Quorums, (High Council, High Priests, Elders, Priests, Teachers and Deacons,) that are organized in the Stake of Zion. We invite the Presidents of Seventeen of the various quorums residing in the Stake who desire to attend are at liberty to do so.

The Bishops will be required to give a report of their several Wards. This report will state the number of members of the Church in the Ward, the general condition of feeling and fellowship of the members, whether the teachers perform their duty in visiting the Saints, whether the heads of families attend to prayers in their families, how many pay tithing and temple donations, also the number of births and deaths for the three months ending July 31st, 1897, with the baptisms, re-baptisms, and blessings of children, in the Ward during the same period.

To facilitate the business of the meeting, it is requested that the Bishops make this report in writing rather than orally.

By the request of the First Presidency of the Church of Jesus Christ of Latter-day Saints.

A. M. CANNON,

D. O. CANNON,

J. S. E. TAYLOR,

Presidents of the Salt Lake Stake of Zion.

Thermometer 90 degrees F. in the shade at 1 p. m. to-day. Clear.

Voting.—On election day 511 votes were cast in Brigham City, Box Elder County, all for the People's Ticket.

Quite ill.—Dr. Clinton is still quite ill, although his condition today is an improvement upon what it was yesterday. He is being attended by Dr. Benedict.

Successful.—J. H. Clemetshaw, whose little factory in two blocks west of the Townsland House, on First South Street, is making an excellent success of the leather trunk, valise and satchel business. His goods are better than the imported and lower in price. That's what will really make any kind of home productions popular.

Not So Bad.—The fire at the saw mill belonging to the United Order of Richfield, Sevier County, a short time since, was not quite so disastrous as anticipated. A good deal of the machinery that was not fire-proof, was removed and thrown into the creek before it could be reached by the flames, and was thus saved. The mill has been refitted, and has been running again for about week.

The Great Show.—Forepaugh's circus and menagerie comes to Utah with better recommendations and yet higher endorsements than any affair of the kind that has ever pitched its tents in this Territory. The attractions are of an extraordinary character, both in the zoological department and the arena. The announcements in the bills and advertisements are astounding, but reliable men and papers declare that the announcements are fully filled in the performance, so incredulity is dispelled. Those who do not like folk to think they care anything for a circus, will have an excuse for patronizing it by going to see the wonders of the animal creation; and the boys and girls are all saving up their nickels for the show, and we therefore expect to see a tremendous rush when Forepaugh's great exhibition opens at Salt Lake. See advertisement and posters.

A Singular Case.—On Tuesday last a woman who resided in the 3rd Ward, died from a peculiar cause. A year or two since she was troubled with an affection of the right thigh, which was so exceedingly painful, to begin with, that her only means of moving about her room was with the aid of crutches. But for a long time previous to Tuesday she was entirely confined to her bed. In the meantime a substance had grown upon the affected part, accumulating in size until it measured thirty-five inches in circumference, or nearly three feet. Not long since Dr. Benedict took the case in hand, and, besides him, Doctors Hamilton, Foyler and Smart also examined the patient, but the case was one of very great difficulty, none of those expert and learned surgeons being able to define it in all its conditions. Operations disclosed the fact that the huge growth contained but little else than clotting blood. By a final operation the whole mass of matter was removed. Subsequently, after the demise of the patient, while making a post mortem examination, Dr. Benedict discovered that the cause of the whole complaint was that the thigh bone had been broken in two places, a short distance below the hip joint. It is rather remarkable that a person should have had a broken thigh for so long a time without anybody being aware of it. It may be accounted for by the fact that the patient at one time had been subject to epileptic fits, and had probably received the injury in falling when in a state of unconsciousness from that cause.

C. A. Madson, Bishop of Gunnison; James Hansen and John E. Metcalf, Jr., Counselors.

Jens Jensen, President of the Elders Quorum; Geo. Thomsen, of Mayfield, and Austin Kearnes, of Gunnison, Counselors.

John Bartholomew, Bishop of Fayette; John James and Joseph Bartholomew, Counselors.

Wm. G. Petty, Bishop of Pettyville; John L. Peacock and James P. Edwards, Counselors.

Jefferson Tidwell, Bishop of Thistle Valley.

President C. Peterson and his Counselors have visited all the settlements in this Stake of Zion, except Thistle Valley, where the principal members have been absent on an exploring expedition, and this afternoon, organized the High Council, with Pansy McFarlane as clerk and J. P. Christensen his assistant. A spirit is manifest among the Saints throughout the valley to appreciate the opportunity of being more thoroughly organized under the standard and direction of the High Council, and the co-laborers, with a view to increased participation in the labors and consequent blessings of the Latter-day work.

Theatre.—The Theatre last evening was not so fully attended as was expected. The play of "Miss Sarah Multon" was witnessed with great interest, for the acting of Miss Rose Eytling was so intense and yet so natural that indignation was impossible. Force and tenderness were so finely embodied, in quick transition, in her representation of the wife and mother separated by a combination of cruel circumstances from her husband and children, that reality was stamped upon every scene.

We cannot say that we admire the play. The idea that an innocent woman should go down to the grave with the stigma of shame and infamy upon her character, is repugnant to that justice which should always triumph in the drama. And the idea that the sacrifice required by her silence concerning her innocence, would bring happiness to the husband, because he was wedded to another is totally incorrect. For no man with any true feeling would prefer belief in his wife's guilt to a confession to her purity, even if the latter involved the revelation that he had been mistakenly cruel and unjust. The play is too melancholy and sad to suit the popular taste, and nothing redeemed it last evening but the splendid acting of Miss Eytling.

Tomorrow, Friday evening, Miss Eytling will appear as Lady Macbeth, and the magnificent play will be placed upon the stage with a powerful cast and the fine music by the great composer Locke.

Officers Arrested.—Yesterday evening Mr. Moroni Brown, City Marshal of Ogden, and police officer Robert Snaddon, of the same place, were brought to this city by deputy U. S. Marshal Crowe. The two gentlemen named had been indicted by the grand jury for assault and battery upon Julius Kiesel. We understand the bonds of each were placed at \$500. Mr. Brown was allowed time to procure security, but Mr. Snaddon was not so fortunate. He was at once conveyed to the penitentiary and there imprisoned.

There will be an end to such persecutive, extra-official acts some day, or we are greatly mistaken. There is not the slightest room for doubt that a trial of the case will show that Marshal Brown and Officer Snaddon, instead of committing an actual assault and battery, were simply discharging their duty as officers of the law.

If the United States deputies who compelled several respectable women to accompany leave their homes, in Plain City, one of them ill, and another having to leave a sick baby behind, were indicted for assault and battery it would be much more consistent.

From Bear Lake.—Bishop Wm.

Budge, of Bear Lake, arrived here this morning. He looks hearty, feels well and reports everything lovely on the shores of the beautiful lake. We are always glad to see the Bishop, who is one of the live men of the times.

The Lost Found.—Little Tommy

White, the six-year old who disappeared from his home in the 18th Ward, on Tuesday at noon, returned there yesterday evening. On the day he left he accompanied another boy, to go fishing, to the vicinity of Sugar House Ward. His companion left him there, and in his efforts to find his home he traveled further away from it, landing, late on Tuesday evening, at the house of a family, also named White, in Mill Creek, where he remained until yesterday afternoon, when he was brought to town by the kind people into whose hands he had fallen. There was rejoicing in the White family last night, for they had mourned for the little fellow as for one that was dead, thinking something dreadful had befallen him.
