

PANAMA MAKES UNIVERSAL APPEAL

Minister Bunau-Varilla Addresses
A Note to Count Cassini, the
Russian Ambassador.

REVOLUTIONARY STORY TOLD.

A Like Communication is Addressed
To All the Embassies in
Washington.

Washington, Nov. 17.—Accredited to the United States, the republic of Panama and the world at large as minister plenipotentiary and envoy extraordinary of the republic of Panama, Philippe Bunau-Varilla, and special instructions from his government, has addressed a note to the envoys of the powers represented at Washington, requesting that they notify their respective governments of the formation of the sovereign state of Panama, and expressing the hope that his government will receive recognition at their hands.

Count Cassini, Russian ambassador, at the head of the diplomatic corps, was first addressed. The note to his excellency is identical, mutatis mutandis, with the notes sent to the other embassies and legations. Following the lead of Count Cassini, the other ambassadors, the ministers and the charges d'affaires, will transmit the communication of the Panama minister to their foreign offices and await instructions.

The note to the Russian ambassador is as follows: "The government of the republic of Panama has entrusted to its minister plenipotentiary to the government of the United States the mission of notifying the government of his majesty, the emperor, through your excellency, of the formation of the independent and sovereign state of Panama."

"In performing this agreeable duty, I allow myself to call the attention of your excellency to the high motives which have justified the overthrow of the former state of things. The people of the isthmus have exercised the most indisputable and the most legitimate of all natural privileges when they have broken the bond with Colombia—a bond which at its origin was meant to be purely federal and the maintenance of which had to be subordinated to the free consent of the parties. This federal bond has been modified by Colombia in contravention of the stipulated conditions. Since the revolution of 1885 the latter power has without any consent of the people of the isthmus suppressed the federal form and established a centralized government which has caused the state of Panama to lose the title of sovereign state and the natural privileges attached to it."

"More recently events have shown that the action of Colombia was tending to put into jeopardy not only the very element of the life of the people, but also the end which the obvious intentions of Providence have assigned to it."

"The justice of our cause, the pacific and majestic way in which the popular liberty has been reconquered, the care of the obligations of my government toward foreign citizens have justified the wise and considerate action of the governments of the United States and of France, which have already in an official manner established their diplomatic relations with the republic of Panama."

GUATEMALA'S ATTITUDE.

New York, Nov. 18.—In response to a request for the attitude of the gov-

THE DAUGHTER OF PROF. RENO OF ELWOOD, IND.,

RESTORED TO HEALTH BY VINOL.

Mrs. Reno's Letter and Advice to
Mothers, Published by Request of
Mr. Druehl of Druehl &
Franken.

Mrs. Reno says: "Our daughter Marion was troubled with indigestion; she became fretful, could not sleep at night, lost flesh, and we feared that we should lose her. We tried different doctors, and many kinds of medicines, with no apparent success, until we tried Vinol. Two bottles cured our little daughter; she can eat anything, sleeps well, and has gained flesh. We think it is the best medicine in the world for children. I advise every mother who has an ailing child to try Vinol. I know nothing equals it, and it tastes so good there is no trouble in getting children to take it."

A reporter of the News asked Mr. Druehl of Druehl & Franken of this city, who are selling so much Vinol, regarding it. Mr. Druehl assured the writer that this is only one of a great many such cases that are constantly

coming to their attention where Vinol has actually saved the lives of children when all else had failed.

"You know, of course," said Mr. Druehl, "Vinol is not a patent medicine, and it contains all the medicinal, curative elements of cod liver oil, without the nauseating oil; it is delicious to take, and will make rich, pure, red blood, sound flesh, and muscle tissue, and create strength and health more surely and quickly than anything we have ever sold in our store."

"In the strongest manner we unhesitatingly endorse and guarantee Vinol to increase the appetite, cure stomach troubles, give strength and renewed vitality to the aged, build up the run down, tired and debilitated, make the weak strong, cure chronic coughs, colds and build up the convalescent, or will return to the purchaser every dollar paid for it. We just wish every mother in Salt Lake City who has a sick, puny or ailing child would try Vinol on our guarantee," Druehl & Franken.

N. B. Vinol is for sale at The Smith Drug Co.'s of this city also.

MARION RENO.

coming to their attention where Vinol has actually saved the lives of children when all else had failed.

"You know, of course," said Mr. Druehl, "Vinol is not a patent medicine, and it contains all the medicinal, curative elements of cod liver oil, without the nauseating oil; it is delicious to take, and will make rich, pure, red blood, sound flesh, and muscle tissue, and create strength and health more surely and quickly than anything we have ever sold in our store."

"In the strongest manner we unhesitatingly endorse and guarantee Vinol to increase the appetite, cure stomach troubles, give strength and renewed vitality to the aged, build up the run down, tired and debilitated, make the weak strong, cure chronic coughs, colds and build up the convalescent, or will return to the purchaser every dollar paid for it. We just wish every mother in Salt Lake City who has a sick, puny or ailing child would try Vinol on our guarantee," Druehl & Franken.

N. B. Vinol is for sale at The Smith Drug Co.'s of this city also.

This is the season of the year when Scott's Emulsion does some of its best work. Fortifying the system against the ravages of winter is one of the most effective uses of Scott's Emulsion; it builds up the strength of the whole body and puts one in a healthy, vigorous condition. Weak lungs, throat troubles or bronchial affections get more positive help and relief from Scott's Emulsion than from any other source.

Cod liver oil itself is very scarce just now; cheap adulterations and mixtures of inferior oils are offered everywhere.

This is why Scott's Emulsion should be insisted upon. It never varies from the high quality and absolute purity that has made it the standard for thirty years.

Send you a sample free, upon request.

SCOTT & BOWNE, 409 Pearl Street, New York.

ernment of Guatemala toward the new republic of Panama, President Manuel Estrada Cabrera has cabled the Herald as follows:

"In Guatemala, the recognition of the republic of Panama as a nation by the United States is regarded as a matter wholly within its rights. In Guatemala, Panama's sovereignty will be observed and respected."

"This nation, as a matter of fact, believes that the resolution for the establishment of the republic is valid under international law."

"Guatemala, however, up to the present time has received no information or communication from the people of Panama or Colombia other than such as is contained in the public press."

GEN. REYES' RESPONSIBILITIES.

New York, Nov. 18.—Cabling from Bogota, capital of Colombia under date

Nov. 15, the Herald's correspondent says:

Gen. Rafael Reyes left Honda today for Barranquilla.

He has been consulting with the government regarding the necessity of dividing his responsibilities with the Colombian army and in solving the great actual problem of the presidency by designating Nicolas Boguera, Liberal, for the presidency, and Joaquin F. Velez, Conservative, for the vice presidency.

The municipal council of Bogota has offered \$25,000 to lead a national patriotic subscription.

Great military movements are going on and the most supreme moments in Colombia's history are coming.

The French steamer due at Colon tomorrow is expected to bring important news from Barranquilla respecting the situation there. A strict censorship has been exercised over all messages from that port, and it is believed that there is trouble of some sort which Colombia desires to keep secret.

Important events are also anticipated between Venezuela and Colombia. It is reported here that President Castro may take advantage of the present situation to extend Venezuela's territory beyond the Orinoco.

FRENCH OFFICERS FIGHT.

Capt. Mueller Assaults Gen. O'Connor on Boulevard Haussmann.

Paris, Nov. 17.—Gen. O'Connor, commander of a subdivision of Algeria, who is here formulating military plans of campaign, engaged in a fist fight today on the Boulevard Haussmann with Capt. Mueller, a retired military officer. The captain approached the general, crying, "You have made lying reports against me," and struck O'Connor in the face. The two men clinched and rolled over on the pavement until separated, when Gen. O'Connor said Capt. Mueller would hear further from him.

SENATOR DIETRICH TALKS.

Intimates Indictment Was Found Through Spite of U. S. Attorney

Washington, Nov. 17.—Senator Dietrich said today of his indictment at Omaha on the charge of conspiracy and bribery in connection with the appointment of Jacob Fisher as postmaster at Hastings, Neb.:

"There is absolutely nothing to have warranted the indictment. I have never received a dollar or any property from Mr. Fisher or any other person in exchange for my influence. I have some friends, as governor I refused to pardon Joe Bartley, the defendant in the case. I have it from a reliable authority that Mr. Summers, present United States district attorney, is largely responsible for securing the pardon of Bartley."

"It has been intimated to me for a long time that Summers would make trouble if I did not cease my endeavor to have him indicted from his present position. I do not know, of course, the testimony given to secure my indictment. It must be absolutely false, or I would not have been indicted."

Attempt to Wreck Miners' Train

Cripple Creek, Colo., Nov. 17.—An alleged attempt to wreck a passenger train, filled with miners, returning from work, by removing the spikes and fish plates from a rail on the Florence and Cripple Creek railroad in Eclipse Gulch, was frustrated early today.

The engineer received warning and stopped his train before reaching the loosened rail. The military today arrested H. H. McKinney, who was held a prisoner in the guard house for 14 days in Pueblo and several others who are suspected of complicity in the alleged plot.

Germans to Study Cotton Growing

Berlin, Nov. 17.—The German colonial society contemplates the sending of a number of young men to Texas agricultural and technical schools to study the methods of growing and marketing cotton. The young men will spend a year on a cotton plantation and so acquire practical experience which later they will employ in the German colonies.

German-American Trade.

Berlin, Nov. 17.—The Chemnitz correspondent of the North German Gazette has had an interview with Baron von Sternberg, German ambassador at Washington, regarding German-American trade and tariff matters. Answering a question as to whether there is any prospect of moderating the alleged restriction of German goods by the United States customs authorities, the ambassador is represented as saying that the position of American manufacturers and their financial backers is such that seldom can anything be accomplished by the mere lodging of complaints and further that the manufacturers have powerful support in the United States senate. The ambassador, according to the interview, said he saw no indication of the adoption of specific

instead of ad valorem duties, of which the German exporters complain.

"I came to Germany," said Baron von Sternberg, "precisely for a discussion of this question. I can assure you that President Roosevelt and his cabinet attach great importance to the friendly relations of the United States and Germany."

Asked whether a prospect exists for the making of a commercial treaty with the United States, the ambassador is represented as saying:

"At present such a treaty is not to be thought of. The Americans are fully aware of the advantages of their position, and influential manufacturers would not willingly surrender them."

MAITRE LABORI INDIGNANT.

Says It Would Be Easy to Make a Scandal in the Humbert Case.

Paris, Nov. 17.—Maitre Labori, who was leading counsel for the Humberts, has issued a statement saying it would be easy to create a scandal if the names of all those who had been intimate with the Humberts were published. He refers to people who engaged him to compromise them, and says he will not give their names, but he classes as infamous the alleged action of the government in making public only some of the papers in the case, and asking all of them, without distinction, be published.

SAN DOMINGO PORTS.

United States Has Refused to Recognize the Blockade.

New York, Nov. 17.—The United States government has refused to recognize the blockade of San Domingo ports made two days ago and has protested against it. This was confirmed by Nevada N. Stranahan, collector of the port of New York, today. The collector received telegraphic advice from the treasury department advising him the state department does not consider the blockade effective, and has entered vigorous protest against it. The collector in conformity with his instructions and the protest has notified masters of vessels sailing to San Domingo, that clearance papers will not be given for any ports in San Domingo, thus officially refuting the effectiveness of the blockade.

At the offices of the Clyde line it was said that the Cherokee will clear tomorrow for her usual trips, leaving at the ports which the local Dominican consul says are closed.

Sugar Saved Austrian Deficit.

Vienna, Nov. 17.—The Brussels sugar convention has resulted in preventing a deficit in the Austrian budget. The removal of duties has saved 14,000,000 kronen and the finance ministry expects a gain of nearly 7,000,000 kronen more by the increase of the sugar duties owing to greater consumption following the reduction in price.

Another saving of 7,200,000 kronen has been effected through the conversion of Austrian rents.

Even allowing for this total saving the budget is generally regarded as unsatisfactory and as being framed on artificial lines in order to show a surplus. The revenues from taxes on spirits, beer and tobacco all show a decrease owing to a reduction in consumption.

The present situation is unsatisfactory because of threatened obstruction on all sides and the parliamentary session is expected to prove barren, notwithstanding the appeal of Dr. von Koerber, minister of the interior, for the completion of the Ausgleich.

A Blow at Trust Made Articles.

Washington, Nov. 17.—Representative Richardson Preyer introduced a bill today to place all trust made articles on the free list and to reduce the rate of duty on all articles manufactured in the United States and sold more cheaply abroad than in this country.

Lost Jewels Soon Found.

New York, Nov. 18.—Col. E. H. Power of New York, has the unusual experience of losing a package containing \$40,000 worth of jewelry and finding it within a few hours, says a London dispatch to the Herald.

Mrs. Power had sent her jewels on from Carlsbad by a friend and her husband started to take them to a safe deposit. Col. Power put the package on board the train, and when he was covering them with his overcoat, on the way he stopped at a tailor's, and catching up his overcoat, paid the cab driver and dismissed him. It was not until he was leaving the tailor's that he remembered the precious package. Much wrought up, he hurried to the Scotland yard and a score of detectives began to search the city. A few hours later the police inspector called on Col. Power and announced that the cabman had been found and turned over the jewels. Under the law the finder is entitled to one per cent of the value, so he will be substantially rewarded.

Clubhouse for Workmen.

New York, Nov. 18.—This city is to be the home of the most costly clubhouse for workmen in the United States. Plans for the structure, which is to be in East Eighty-fourth street, near Third Avenue, have been approved by the city authorities for approval and it is expected that construction work will be started early next spring. The clubhouse is to be five stories

high, 100 by 102 feet in area, and is to cost \$1,000,000.

Facilities for mental and physical culture are to be the best obtainable. A gymnasium, class rooms, lecture rooms and library are provided, and it is the intention to have regular courses of lectures, debates and studies for members.

A large ball room will be arranged, with a stage for theatrical entertainments and dancing. The main entrance on the first floor there will be a bar and cafe, with reading and billiard room.

The Workmen's Educational and Home Association of New York, which was organized in 1896 and now has more than 1,400 members. Through entertainments and other means funds were raised to purchase the property.

Strike at Snowshoe Settled.

Wilkesbarre, Pa., Nov. 18.—The strike at Snowshoe, in the soft coal district, has been settled at a conference here.

The company agreed to give the men 65 cents a ton for low coal and 60 cents for high coal until April, and then 65 cents.

EX-COM. MSWEENEY.

He is Charged with Having Stolen Important Public Documents.

New York, Nov. 18.—Edward F. McSweeney, of Boston, formerly commissioner of immigration at Ellis Island, has appeared before United States Commissioner Shields for examination on a charge of having stolen important government documents. He was accompanied by counsel and witnesses were present from all parts of the United States and Canada for the government documents. He was accompanied by counsel and witnesses were present from all parts of the United States and Canada for the government documents.

It is charged that Mr. McSweeney, on leaving office, had official letters and other documents belonging to the government packed up with his personal papers.

McSweeney declares he had a clerk pack up his private papers and left the boxes at the immigrant station for high, 100 by 102 feet in area, and is to cost \$1,000,000.

AN ORGAN GRINDER WITH A HISTORY.

The well dressed organ grinder shown in the illustration is a former army officer named Kingston, who commanded the expedition which captured Kolobani, the famous Ashanti warrior. For some reason or other Mr. Kingston was asked not long ago to resign his commission, and in his indignation he has adopted this unique scheme of drawing attention to his case and arousing a popular agitation in his behalf. He denies that any charge can be proved against him and distributes handbills giving an account of his career. These handbills state that Mr. Kingston has seen over eleven years' service as a commissioned officer.

soms time. Government officials there opened the boxes and found what were asserted to be official records. These documents, he says, were inadvertently mixed with his private papers and were of no use to him or others.

Identification of several letters of small import occupied the time of the first session.

Am. Financial Affairs Criticized.

New York, Nov. 18.—Discussing American financial affairs, in connection with several recent bond issues, the Daily Telegraph today says scores what are set down as misleadingly advised recently received here from the United States, says a Herald dispatch from London.

"Inasmuch as many American railroad companies are known," the paper declares, "to be endeavoring to use false capital and in view of the scarcity of money from which we are suffering and the needs of our own railways, it is to be hoped that financial houses in this country will not make too ready responses to American blandishments."

Report to the Labor Gazette, just published, show a steady decline from the condition of industrial activity recently prevalent in this country. The percentage of unemployed is from one to two per cent greater in the principal industries, while the average day's work in the collieries and iron mines has been reduced.

Big Haul by Fashionable Thieves

Chicago, Nov. 18.—A fashionably dressed young couple, the woman wearing fur and jewelry, the man of refined appearance, have stolen jewelry and diamonds valued at \$1,800 from the residence of Mrs. Katherine Smith. The couple appeared at the house and asked if they could not rent apartments there for the winter. After some conversation Mrs. Smith took them to the second floor to show them some rooms. The first room was satisfactory, but Mrs. Smith led her callers to the rear of the house.

It was then, the police believe, that the man slipped away and entered Mrs. Smith's room.

Returning to the parlor, the rooms were soon engaged and the young couple departed, promising to return. A few minutes later Mrs. Smith went to her room and discovered the loss of her jewels. There is no clew.

Arrests in Western Siberia.

New York, Nov. 18.—Forty arrests have been made at Krasnoyarsk, western Siberia, in connection with the revolutionaries movement. The headquarters of which are in Ekaterinburg, according to a Herald dispatch from Chefoo.

A member of the staff of the Novik has been arrested at Port Arthur, where arrests are said to be numerous, but the police conceal everything.

Despite the cheerful tone of the Russian press, matters are most serious, and the correspondent declares, owing to the impatience of the Japanese at the Russian expedients to gain time.

Peculiar Epidemic Among Students

Williamstown, Mass., Nov. 18.—A peculiar illness, accompanied by high fever, has prostrated a number of students at Williams college. Ten are now in the hospital. The college authorities are endeavoring to ascertain the cause of the epidemic.

Two Little Tots on Their Travels.

New York, Nov. 18.—Unable to speak a word of English, two little Italians were seen today on their way to San Francisco. They are five and seven years old respectively and are on their way from Florence to meet their mother, Mrs. Marguerite Tosci, who anxiously awaits their return. The little ones were seen on their way home on this side of the Atlantic.

Mrs. Tosci's confidence in the inhab-

The fiery sting of sunburn is soon stopped by rubbing on Kieckapoo Indian Oil generously. It gives quick and lasting relief. For prickly heat, hot and tender feet, golf hardened hands and all inflamed condition of the skin, it is invaluable. It cools, softens and soothes. Try it. Only 25 cents a bottle at all druggists.

Kieckapoo Oil FOR SUNBURN & PRICKLY HEAT

Hants of the country has not so far been misused for the purpose as they sat in the Grand Central station, wearing about their necks large tags bearing their names and destination—No. 5 Montgomery street, San Francisco—were the center of a crowd of sympathetic men and women for several hours. One kind hearted woman took the youngsters to a restaurant and not only filled them up on coffee and cake, but supplied them with a generous basket of sandwiches and fruit.

John Siemer to be Extradited.

Salem, Or., Nov. 18.—On the request of Gov. Cummins of Iowa last evening Gov. Chamberlain issued a warrant for the extradition of John Siemer, wanted in Lyons, Clinton county, Ia., to answer to a charge of forgery. Siemer yesterday completed a two-year sentence in Oregon penitentiary for a similar crime and the Iowa warrant was served on him upon his release from prison. Sheriff Moran of Clinton county started east with his prisoner last night.
