

ENLARGEMENT OF FIRE STATION.

Acting on Opinion, Council Com-
mittees Decide to Re-adver-
tise for Bids.

WORK MUST BE BY CONTRACT.

Will Investigate Alleged Nuisance in
City Creek—Food Inspector's
Report.

The committee on police and prison
and fire department of the city coun-
cil last night decided to recommend to
the council that it re-advertise for bids
for the contemplated enlargement of
fire station No. 1. Such action was
taken upon the recommendation of
City Attorney Day, who rendered an
opinion in which he held that such work
could not be done by the city by day
labor, as proposed, but must be done
by contract after bids have been duly
advertised. The changes and improve-
ments in the station will cost about
\$10,000, and bids were advertised for
several weeks ago.

When the bids were opened by the
council it was found that the lowest
bidder had made an error of about \$1,
000 in his bid, and there was consid-
erable discussion as to whether or not
the bid should be accepted. Chief By-
water was then given the privilege of
the floor, and said that he and the
building inspector could do the work
by day labor at less than the lowest
bid. The council at that time decided
to reject all the bids, and a resolution
was adopted authorizing the chief and
the building inspector to proceed with
the work by day labor. Since then
the city attorney has looked up the
law on the subject and found that the
work can not be done by day labor,
hence his opinion and the action of the
committee in recommending that the
council re-advertise for bids.

TO LOOK INTO NUISANCE.

The public grounds and streets com-
mittee decided to visit City Creek
canyon to investigate the complaint
made by President Joseph F. Smith and
others to the effect that the rock crusher
working at the mouth of the canyon
is a nuisance because it scares horses,
creates considerable dust and makes
the entrance to the canyon almost im-
passable.

FOOD INSPECTOR'S REPORT.

The committee on markets received
the report of City Food Inspector J. J.
Meyer for the six months ending June
30, 1904, and ordered the same filed.
During that period 21,459 pounds of
food and provisions were examined by
the inspector, 20 samples of milk were
analyzed, and 19 samples of icecream
were analyzed. The report states that
all of the milk tested was of excellent
quality, and that the dealers inspected
were in first-class condition. The re-
port also states that the dealers of food
in the city have co-operated with him
in his work and have helped him en-
force the pure food laws.

New Course Established in Brigham Young University.

In a few days there will issue from
the press of the Deseret News an an-
nouncement by the Brigham Young
university. Provo, of the establishment
of a course in nursing and obstetrics,
which will be distributed to the patrons
of this school. This progressive institu-
tion has secured the services of Fred-
erick Clift, M. D., a graduate of Cam-
bridge, England, and of the Keokuk
Medical college, Keokuk, Ia. He is a
successful practitioner of this state of
11 years' standing. As a justification
for work of this kind in secondary
schools, the doctor offers the following
data as introductory to the course
to be established by the parent
Church educational institution:

Civilization nowhere displays its pro-
gress so much as in the care of the sick.
In greater progress has been made
during recent years in the science of nursing
than in any other profession or calling.
Little provision has been made for
the special training of those called to
the work for our hospitals are neces-
sarily limited in their accommodation,
and can only train the few who marry
develop into specialists in their respec-
tive lines of work. Further pecuniary
conditions do not allow of nursing
whose physical and mental powers ex-
tend to them for this profession, to
devote two or three years to unremun-
erative work in such institutions.

The practical experience gained in a
hospital is valuable, but the general
consensus of opinion is that it should
follow, and not precede a theoretical
course of instruction in what is now
admitted to be a science. The hospital
nurse has but little time for the study
of that which forms the foundation of
her work. As a result, she often
loses hold of her vocation, because she
lacks a knowledge of the elementary
principles on which the science of nursing
is based, and is unable to keep pace
with the progressive thought of the day.

On the other hand, the nurse who has
thoroughly mastered the first principles
as taught in a school of nursing, even
though she may never enter a hospital
ward, can apply these principles to
each individual case, and they will en-
able her to adapt herself to the chang-
ing conditions of medical and surgical
experience.

To those seeking a vocation, the pro-
fession of nursing is one of the most
attractive that a sympathetic woman
can aspire to. The sick, like the poor,
are ever in evidence and the advanced
demands a knowledge not only of the
art of nursing, but also personal attri-
butes which only an educated woman
can acquire.

The field is an ever widening one, and
with intelligent self confidence, inspired
by the knowledge gained in the class-
room, the nurse goes forth and will be
recommended by physicians and pa-
tients, not because she is a hospital
graduate, but because she proves her-
self equal to emergencies, intelligent
and faithful in the discharge of her du-
ties.

Mrs. Clara Weeks-Shaw, whose life
has been devoted to the care of the sick,
writes: "There are few who will not be
called upon to serve in this capacity at
some time in their lives, fewer still who
will not at some time have occasion to
be grateful for the ministrations of a
skilled and efficient nurse, or annoyed
by the blunders of an awkward and in-
competent one."

Another writer in one of our medical
journals, after dealing with some of the
difficulties, says: "From this brief con-
sideration, it is evident that the changes
most needed are: (1) Leisure for study;
(2) Instructions in the principles of

of sufferers have proved their matchless
merit for Sick and Nervous Headaches.
They make pure blood and build up
your health. Only 25 cents, money back
if not cured. Sold by Z. C. M. I. Drug
Store.

AT THE RESORTS.

The local alliance of Theatrical Stage
Employees held forth at Utahna Park
last night. Fully 2,000 people were in
attendance and a most excellent pro-
gram was presented. It opened with a
clever comedy sketch by Williams
and Hammer, followed by a comical
Irish ballad by John Morrison. Then
Amelio Manolo, assisted by her hus-
band and two boys, made a hit with
their clever gymnastic performances,
while J. Murray Smith rendered an il-
lustrated song which served as a fitting
prelude to an exhibition of the mar-
velous art between Willard Bean and Tommy
Burns. Other features were: Lenora's
trapeze performance, a baritone solo by
William Knox, a duet by Smith and
Morrison, club singing by Bassett and
Rippling, German warbles by J. W.
Clifford and Smith, a watermelon feast
for four negroes, a baritone solo by Jean
Wilson, a soprano solo by Minnie Wil-
liams and a fancy dancing exhibition by
Frank Kuhn which was followed by a
clever one-act farce. The proceeds are
for the benefit of the local union.

About 1,000 Scandinavians indulged in
an outing at Calder's Park yesterday
afternoon and evening. A feature was
music from the middle of the lake.

Lagoon was well patronized yesterday
by the Nauvoo Legion association, and
the South Cottonwood and Murray
wards. With the Legion were the In-
dian War Veterans and the Veteran
Firemen. There was a good program,
including a drill by 16 young women
in costume.

The Philippine War Veterans had a
time of rejoicing at Saltair yesterday.
Several hundred of "the boys" were in
attendance and clad as they were in
their khaki uniforms, the beach looked
as though it had been placed under
martial law. There was no formal pro-
gram carried out, thus affording the
veterans an opportunity of mingling
together and recalling experiences while
in the service of Uncle Sam. Bathing,
luncheon and dancing rounded out what
was to all a most enjoyable day. The
proceeds of the outing are for the bene-
fit of the sick fund.

Liberty Park, the spacious resort to
the southeast, was the scene yesterday
of a public gathering of little folks.
While the outing was principally for
their benefit, a good many of the larger
folks were there also, and all had a
most excellent time. The affair was
being held in connection with the Sunday
schools of Liberty stake, each of which
had headquarters in different sections
of the park. In the afternoon a pro-
gram of sports was carried out, there
being a wheelbarrow race, a tug-of-
war, a shoe and stocking race, a steep-
le-chase and a mile dash. This was
won by H. Franklin, with J. W. Symons
a comparatively close second. There
was also a ball game between the First
and Second wards, the former winning
by a score of 13 to 5.

A CRUISE ON THE ESTHER.

Dr. Wilcox Takes a Party of Friends
To Antelope on Davis Launch.

Dr. and Mrs. C. F. Wilcox were
host and hostess of a most pleasant
lake party last night. Their guests
numbered sixteen, and after a bath in
the briny waters at Saltair, they were
taken on board Captain Davis' trim
little gasoline launch, Esther, which
was headed direct for Antelope Island.
The run to the island was made in 40
minutes, and its shores reached just
as the shadows of night were closing
around it. The surface of the lake
was as smooth as glass, and the moon
shone full and strong upon the waters
silhouetting the landscape in a man-
ner most picturesque.

During the little voyage, Dr. Wilcox
stood on the bow of the craft dispensing
delicious refreshments to the party,
which made merry with song and story.
The tender selection of Fred Graham,
always full of tender melody, were par-
ticularly enjoyed. The Esther's pas-
sengers were Dr. and Mrs. Wilcox, Miss
Wilcox and Miss Stewart, Prof. and
Mrs. McMillen, Mr. and Mrs. John E.
Hansen, Mr. and Mrs. Graham, Mr.
and Mrs. Horne, Mrs. H. J. Grant, Miss
Grant and Mr. and Mrs. George Derr.
The man at the helm was Doris Da-
vis, who proved himself an excellent
sailor, and the complete master of the
situation.

BUGLE BLASTS.

The Rookies at Fort Douglas are be-
ing given a three hours' drill each day,
to get them into presentable shape for
the review before Lieut.-Gen. Chaffee.
First Lieut. W. W. Taylor of the
Twelfth infantry arrived last evening
from the Philippines, being called home
by the sickness of his wife, who is now
at the Sanitarium in this city. He says
the cholera has about subsided where
his regiment is encamped.

Twenty officers from the post and
their wives went to the lake last even-
ing.

Reports show that for the fiscal year
ending June 30, the expenditures at
Fort Douglas for improvements during
that time amounted to \$131,000.

RATES WILL HELP PACKING PLANT.

Are Much Lower Here Than in
The Territory Contiguous
To Denver.

LEARY LOOKS UP THE FIGURES.

Sufficient Business in This Section
Alone to Keep the Plant Going
For Some Years.

In connection with the proposed
packing house plant scheme Mr. Leary
finds that, with few exceptions, the
rates into Salt Lake from the feeding
districts of the state are lower by from
\$10 to \$20 per car than those obtaining
in the territory contiguous to Denver.
Mr. Leary says that the bulk of the
supplies required in this territory for
some years will be drawn from the
country tributary to Salt Lake on an
average of \$25 per car as against \$55
for Denver, and \$45 for the markets
at the river. Toole county feeders can
market their fat kine on a \$25 rate in
this city, and as far as the southern
limits of the state shippers can reach
the Salt Lake market at \$35 from Ogden,
\$40 at Milford and \$45 at the Nevada
state line.

Mr. Leary further says, "Factory
feeders at Lehi get a \$14 rate and the
Utah valley feeders a \$20 one while the
Nephi and Rush valley producers pay
from \$32 to \$35. As against these
charges to Salt Lake, the rates to the
Missouri river markets range from \$130
to \$155 and from \$100 to \$120, approxi-
mately, to Denver. The rates to Salt
Lake from D. & R. G. points in Sanpete
county are \$32 per car; from Salina,
\$39; from Richfield and Eismore, \$42
and \$43, respectively, and from Mary-
vale, \$45. Thistle Junction and Heber
take a \$30 rate, and the latter is the
center of a big feeding district. On the
north, the Short Line maximum rate, at
from Bear River valley points, is \$24;
from Cache valley and stations to the
Idaho line, \$28, and east on the Short
Line as far as Granger, \$42. Shippers
from Rexburg and St. Anthony can
market at Salt Lake for \$65 and \$69 per
car; and from any point south of Butte,
at a maximum of \$72. The rate from
Idaho Falls is \$45, from American Falls
and two points made a hit with their
clever gymnastic performances, while J.
Murray Smith rendered an illustrated
song which served as a fitting prelude
to an exhibition of the marvelous art
between Willard Bean and Tommy Burns.
Other features were: Lenora's trapeze
performance, a baritone solo by William
Knox, a duet by Smith and Morrison,
club singing by Bassett and Rippling,
German warbles by J. W. Clifford and
Smith, a watermelon feast for four ne-
groes, a baritone solo by Jean Wilson,
a soprano solo by Minnie Williams and
a fancy dancing exhibition by Frank
Kuhn which was followed by a clever one-
act farce. The proceeds are for the bene-
fit of the local union.

"The rates from the big river plants
to Salt Lake now on fresh meat, ex-
clusive of the refrigerating charge, is
\$1.40 per 100, and on mixed shipments,
\$1.15, and consignments of this sort
can only be distributed from this cen-
ter by adding the local. Therefore,
the products of the local plant could be
distributed at less than the points
named at the following figures: cost of
Bingham, 16 cents; Ogden and Park
City, 20 cents; Provo, 25 cents; Tintic,
50 cents; as against the Missouri river
rate of \$1.40 to Salt Lake, plus the lo-
cal quoted. The Salt Lake output
could go into all Idaho points at an
average of about 65 cents per 100
pounds, and into Butte on a 90 cent
rate."

Mr. Leary reports that the railroad
men are favorable to the packing house
proposition.

CHURCH PAMPHLET OUT.

List of Authorities Issued by the
Deseret News.

The "News" presses have issued this
week a long awaited pamphlet, giving
a list of the Church officials in all the
world with the names and addresses of
the presidents of the various missions.
A 16,000 edition has been printed, and
the books have been widely circulated
among the Church authorities, business
men, and Deseret News agents through-
out the west. It is the first concise and
authentic compilation that has been
made in years, and it will be of decid-
ed convenience as a reference book, to
a wide list of people in Church and
business circles.

The "News" has been advised that
some irresponsible persons have been an-
nouncing the community for a publica-
tion similar to this, using the name of
the Deseret News as publishers. Such
people are frauds, and it is regrettable
that those who have been victimized by
them did not demand a sight of their
credentials. Everyone authorized to do
business for the Deseret News always
bears written authority from this office.

Be Wise

10 DAYS

When the food fails to keep you well

Change

for sickness is a cry of Nature for the
right element to build and rebuild the
body properly.

A 10 days change from the
old diet to a new, works won-
ders if skillfully selected. Try

A Little Fruit,
A Saucer of GRAPE-NUTS and Cream,
A Piece of very Hard Toast,
A Cup of well-made POSTUM COF-
FEE.

Nothing more for breakfast.
At midday the same and add 2 soft-
boiled eggs.

Then eat a meat and vegeta-
ble dinner at night. Such a
change will work some sur-
prising results for health.

"There's a Reason."

World's Fair Exhibit, Piece 102
Agricultural Building.

TWENTY YEARS AGO TODAY.

(DO YOU REMEMBER?)

The Denver Tribune announced that the Burlington would immediately ex-
tend from Denver to Salt Lake.
Ten thousand brick layers and laborers struck in Chicago for a nine-hour
day.

TEN YEARS AGO TODAY.

President Dole proclaimed the republic of Hawaii an independent govern-
ment, whose purpose it was to obtain annexation to the United States.
The Kansas Pacific bondholders committee sued Russell Sage and the
Gould estate for \$11,000,000 for misappropriating railroad stock.

FIVE YEARS AGO TODAY.

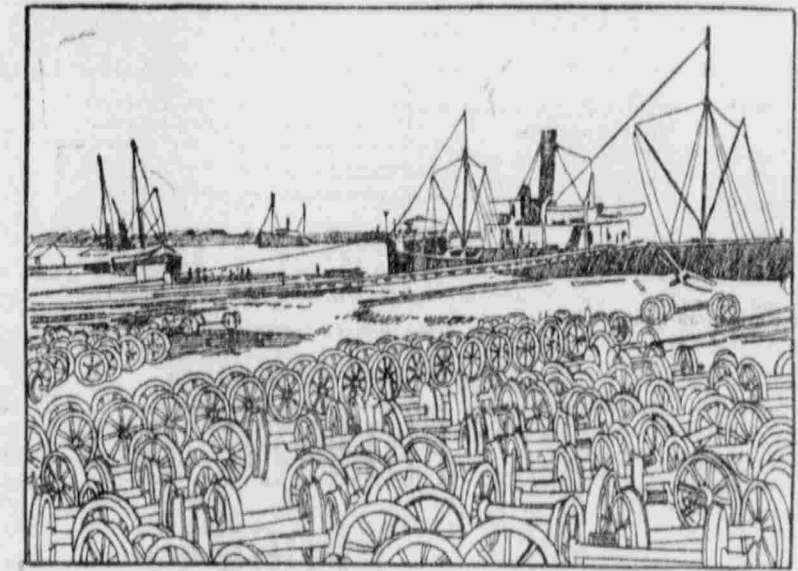

Robert G. Ingersoll died suddenly of apoplexy at his home in Dobbs Ferry,
N. Y.
A dynamite bomb thrown by street car strikers blew up a car barn in
Cleveland and threw the entire city into excitement.

IN THE HANDS OF HIS ENEMIES.

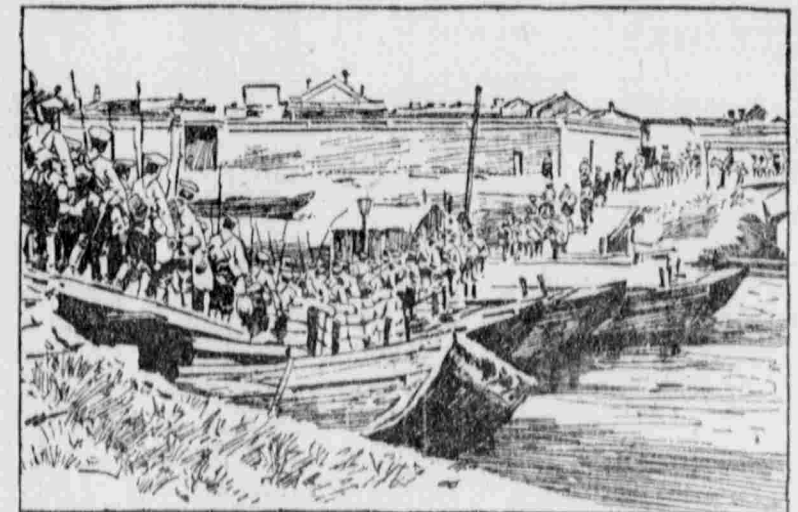

The wounded Russian soldier, as shown in the picture, made from a photo-
graph, has fallen into the hands of good Samaritans. The intelligent young Jap-
anese surgeon and his assistant are as tender and painstaking in making the
diagnosis as though the sufferer were of their own race, and the gentle and
sympathetic looking nurses are ready to begin their ministrations. The stricken
moujik, who had been led to believe that to fall into the hands of the yellow
heathen was equivalent to worse than death, will learn more of the inherent
humanity which actuates his little enemies than he could have been taught in
any other way.

RUSSIAN RAILWAY WHEELS UNLOADED AT NEWCHWANG.

Part of the rolling stock for the Manchurian railway is carried by steamers
to the port of Newchwang, where they are unloaded and taken to the nearby
railway station at Yinkow, whence they are shipped by rail to the main line.
In the cut is shown a cargo of car wheels that are being unloaded from Russian
ships.

RE-ENFORCEMENTS FOR PORT ARTHUR.

The picture represents a body of Russian troops arriving at Port Arthur.
They are crossing the pontoon bridge which leads from the railroad station to
the fortified part of the stronghold. So long as the Russians had control of the
railroad it was possible to send fresh troops into the beleaguered fortress. In
view of the disheartening effect which the Japanese activity produced on the
imprisoned civilians these frequent arrivals of new material served a useful
purpose by creating at least a temporary diversion.

AUTHOR OF A NOTED POEM.
Mrs. Julia A. Fletcher Barney wrote
the celebrated verses beginning "Little
drops of water." She is now a resi-
dent of Galesburg, Ill., and is in her

eighty-second year. The poem was
written about sixty years ago, while its
author was studying shorthand in Bos-
ton. She composed it in ten minutes at
an exercise in meter for her classmates
to use. The following day she added a
verse, and on the next Sunday she read
it to her Sunday school class. Some of
the parents of the Sunday school chil-
dren heard the verses and were so im-
pressed with them that they had them
published.

A Beautiful Young Society Woman's Letter.

ST. PAUL, MINN. }
321 Wabasha St.
Dr. Hartman, Columbus, O.,
Dear Sir:
"I took Peruna last summer
when I was all run down, and
had a headache and backache,
and no ambition for anything.
I now feel as well as I ever did
in all my life, and all thanks
is due to your excellent Pe-
runa."—Bess F. Healy.

The symptoms of summer cat-
arrh are quite unlike in different
cases, but the most common ones
are general lassitude, played-
out, tired-out, used-up, run-down
feelings, combined with more or
less heavy, stupid, listless, men-
tal condition. Relish for food
and the ability to digest food
seems to be lost.

Skin eruptions, sallow com-
plexion, biliousness, coated
tongue, fitful, irregular sleep,
help to complete the picture
which is so common at this
season.

Peruna so exactly meets all
these conditions that the demand
is so great for this remedy at this
season of the year that it is nearly
impossible to supply it.

Pe-ru-na Contains No Narcotics.
One reason why Peruna has
found permanent use in so many
homes is that it contains no nar-
cotics of any kind. Peruna is per-
fectly harmless. It can be used
any length of time without
acquiring the drug habit.

Thousands of women suffer from pelvic catarrh and catarrhal
nervousness and don't know it. If you feel fagged out, begin at
once taking Dr. Hartman's Peruna. It will relieve your catarrhal
affliction and all your organs will be restored to health. Buy a
bottle to-day, as it will immediately alleviate your case.
