#### A NARROW ESCAPE.

Will Woodhead of this city came near being knocked down and robbed Sun-day night about 2 o'clock. As he was going to his home south of the Rio Grande railwayl depot some one burled a large rock at him from be-hind a fence. The missile came near striking him on the head and if it had Mr. Woodhead unconscious and left him an easy prey to be rob-bed, which is believed to be the purpose the fellow who threw the rock had in mind. Mr. Woodland turned and saw a man behind the fence in the direction from which the rock was thrown; he fired a shot at the man, who started to run in an easterly direction. Mr. Woodhead had only one cartridge left in his pistol and did not fire again because he feared the holdup had companions and the companions and the companions and the companions and the companions are the companions and the companions are the companions and the companions are the compa panions and that he might need the last shot if other rocks should be thrown or other attacks made. He telephoned to the sheriff's office and Deputy Bezzant came down, but a search made by Mr. Bezzant and Mr. Woodhead falled to

#### RAYMOND SUCAR FACTORY

Work Begun and the Contracts Let For the Immediate Erection of the Plant.

Mill and Elevator Nearly Complete-Tremendous Output of Grain-Rapid Growth of Town.

Special Correspondence. Raymond, Alberta, Canada, Oct. 22-John Loxton, our expert welldigger, had the honor of swinging the pick to break ground for the sugar factory building last Tuesday. Following him came several teams and scrapers in the work of excavation for the large boilerrooms. This scene at the sugar factory grounds, situated one and a half miles from the postoffice, at once left no doubt in the minds of our people as to the erection of the much talked of plant, and it also demonstrated the fact that Uncle Jesse Knight and associates mean just what they say. The contract for the entire factory building and machinery complete has been let to Dyer Bros., manufacturers, Cleve-land, O. This firm has sublet branches of the work as follows: Furnishing rock to H. C. Harvey; excavation, E. B. Hicks; rock masonry, F. C. Anderson, all of Raymond, and the lumber to Geo. Rogers of Lethbridge. The building will require 125,000 perches of rock for foundation basement only, 1,250,000 brick and 50 cars of lumber. The brick will be burned on the ground by the original contractors themselves, with the assistance of our local brick Much of this material thus engaged will immediately begin to pile up upon the factory site and some activity will manifest itself in that neighbor hood. The building will practically be a steel structure, sandwiched with brick between the steel frames. Cement will be used in basement, and other places; very little lumber used at all in

the main buildings. The steam hoist and other apparatus will arrive here a few days from Berlin, Ontario where it has recently been used in put ting in place a sugar factory there, the first plant of the kind for all Canada. This holst is used to put in position the heavy parts of machinery and oth-er bulky material. The "News" cor-respondent was informed by Arthur Thelin, civil engineer, now in charge of the excavation, and also by Bishop William Knight, that if weather permitted the foundation and basement must be finished by Christmas, and most of the machinery would be on the ground by that time, so that as soon as frost breaks up in the spring the brick and other work can be pushed through. In all probability some work will be going on all winter, such as building beet neds, outbuildings, etc. The Alberta

MILL AND ELEVATOR. The large flouring mill and elevator is nearing completion. The elevator has so far received about 12,000 bushels of wheat, part being purchased, and balance on farmers' account. The mill will soon be ready for the machinery, and it is thought that by Christmas it will be turning out flour. The mill will have a capacity of 150 barrels per day, and will be erected at a cost of \$20 000 complete. The company was capitalized at \$50,000, and when stock is paid up it will have in the neighborhood of \$30,000 to buy wheat and operate its business. E. P. Ellison. a successful mill man of Layton, Utah, is manager of the firm. The mill has paid 50 cents for wheat, but has ceased buying for

the present.
While Raymond is not having any wildcat boom, it continues to grow. Abount 20 residences and as many granaries are now going up. Families continue to come in from Utah, until at present the village must have a pop-ulation of about 650 people, including six new bables born last month.

BIG GRAIN CROP. Three threshers continue to work on the Raymond grain, and yet the stacks go down awfully slow. Over 100 large stacks are now in the west field, not and also those in town. Not over 10 per cent of the good tillable land has as yet been

Mr. and Mrs. Peterson of Pleasant View, Provo, have arrived to make Raymond their home. About 10 other relatives from the same place will soon follow them.

The excavation for the new \$12,000 school building is completed, and ma-terial will soon be piling up, so they

Two branches of the Lethbridge banks, a jeweler and a physician are the latest additions to our business fraternity.

It is not the desire of the "News" man to boom Raymond, as many who have sought to do who become excited over the country, through having spent but a few months here. Nor is it thought that Messrs, Jesse Knight & Sons sanction a misrepresentation of the advantages of this section for the sole purpose of encouraging immigra-tion. It is true that Raymond has made perhaps more growth in the short strong firm,

RAILROAD ACCIDENTS.

Brakeman Robert Oakley Injured Eureka Hotel Changes Hands.

Special Corespondence. Eureka, Oct. 27 .- Sunday evening the pasenger train on the Rio Grande Western railway, just after leaving this place ran into an open switch near the tunnel under the Eureka Hill dump and the engine and baggage car were de-railed. The road officials had to send to Springville for another engine before the track could be cleared, and it was nearly 3 o'clock in the morning before the passengers for Mammoth and Silver

City reached their destination.
Saturday afternoon Robert Oakley, a brakeman on the Oregon Short Line came near losing his life just west of this camp. He was busy setting the brakes on the freight train when the brake rod broke, and the wheel of the brake struck him in the forehead, rendering him unconscious and he fell underneath the cars, but as luck would have it, he was seen by some of the train crew and quickly rescued from his perilous situation. His injuries were so severe, however, that he had to be sent to the hospital in Salt Lake for treatment.

The Eureka hotel will change hands on Nov. 1. Mr. J. J. Pope, the present owner, having sold his interest in the establishment to Edward Osborne, the well known hotel man of Silver City.
Funeral services will be held over the
remains of Agnes M. Acelia Anderson, he two-year-old daughter of Mr. and Mrs. L. S. Anderson, at the Eureka cemetery Wednesday afternoon. The child died of a contagious disease on Oct. 14, and owing to the nature of the disease no funeral services could be held at that time

Flames Subdued Without Accident -Mild Autumn Weather. Special Correspondence. Magrath, Oct. 24.-The beautiful shouse just finished at a cost of

\$4,500 took fire in the basement by over-crowding the furnace. When the cry of fire rang through the building the excited children rushed out of the two schools on the first floor, those on the second coming down safely, without any accident. The alarm soon spread, and a bucket brigade, with many wagons, with barrels of water from the Pot Hole creek, subdued the flames in a short time and saved the building, h a probable loss of \$200. By late is meant after buds have fairly pushed to the point of bursting. Nurserymetell us that more complaints are re ceived by them of the loss of cherr trees than of any other fruit tree the sell. All other fruit trees have a fal chance of living, even if set late, apple especially are safe even when well ad vanced in spring, with ordinary car To be safe with the cherry and insur-its growth, Joseph Meehan, an experi enced horticulturist, recommends in the Practical Farmer that the cherry b planted in the fall, or very early is spring. The safest way is to set th sible, even before the leaves fall, strip ping the leaves by hand. Before wir ter sets in, place a good mulch of man-ure about them, both to keep out frost and to enrich the ground. If the work cannet be done in the autumn, do it as soon as the frost is out of the ground it If the soil is ary it is well to pour or

### SATURDAY'S GAME. University and National Guard

Teams Will Fight it Out. Another big football game is on the boards for next Saturday. The contest will be between the 'Varsity eleven and the National Guard team and will take place on the university campus. Manager Riser of the 'Varsities, stated yesterday that he would insist on the gam being called sharply at 3 p. m. instead

of 3:30 as heretofore.

This contest will indeed be a battle of the giants. There is a great deal of rivalry existing between the teams and every man will do his very best to see that his team carries off the honors. Manager Margetts and Coach Callahan are getting the Gurds into perfect condition individually and as a team and they promise to hand out a few surprises next Saturday.

'Young Corbett" Gives Young Erne A Terrible Beating.

Philadelphia, Oct. 27 .- Young Erne of this city managed to stay six rounds with Young Corbett, the featherweight champion, tonight at the Washington Sporting club. During the six rounds drne was down 24 times, but only one of these falls was the result of a fair knock down blow. Corbett rushed the fighting from the start and almost every time he crowded Erne the latter would go down on his knees, either to rest or avoid punishment. At the close of the fourth round Corbett caught Erne with a swinging blow squarely on the mouth, sending him in a to the floor. He probably would have been counted out had not the bell saved him. Erne showed much eleverness but was no match for his adversary.
