# Nervous Cramps in Hands and Feet.

### Dr. Miles' Nervine Was My Salvation.

Sleeplessness is at once a symptom and a disease. Just as soon as the nerves become deranged the patient suffers from sleepless-ness. Deprived of their natural rest the nerves soon lose all force and vitality and while sleeplessness is a symptom in such cases it frequently becomes chronic and remains the chief effect of disordered nerves. Dr. Miles' Nervine quiets the nerves and strengthens them; soothes the tired brain and permits sleep; restores lost energy and vitality and bringssleep, health and strength. "Previous to our coming to the territory three years ago, we lived in Virginia, and it was there that I got acquainted with the wonderful powers of Dr. Miles' Nervine. I had been under the doctor's care and taking his medicine for over two years, but the nerv ous trouble that was gnawing my life away grew steadily worse. I had nervous cramps in my hands and legs, which would draw up and pain me so that I could not sleep at hight. Often I never closed my eyes for ays and nights together. The doctor finally old me he could do nothing more for me and told me he could do nothing more for me and that I was on the verge of insanity. He told use I might try your Nervine as a last resort, and it proved to be my salvation. When I had used four bottles of the remedy together with the Nerve and Liver Pills I had re-gained my former good health."---MRS. MARTHA J. SHEFFER, Omer, Oklahoma.
