He was assisted by Mrs. Corinne Harris Hammer, soprano, Miss Edna Dwyer, contralto, J. H. Summers, tenor, and A. J. Kisselburg, baritone, all of whom acquitted themselves with credit. PROMOTION FOR F. H. KNICKERBOCKER

Popular Young Railroad Man Made Assistant to Vice President of Short Line.

SECRETARY TO MR. BANCROFT

Has Been Connected With Harriman System Here for Over Thirteen Years in Various Capacities.

F. H. KNICKERBOCKER.

Frederick H. Knickerbocker, for several years private secretary to W. H. Bancroft of the Oregon Short Line, will on Jan. 1, be promoted to be assistant to the vice president and general manager of the road. The promotion comes as a fitting New Year's gift, and will be hailed with as much pleasure by Mr. Knickerbocker's many friends, both in and out of the railroad service, as appreciated by himself. He has acted as the right hand man to Vice President and General Manager Bancroft for some time, and is recognized as a young man with remarkable executive ability, and as affable as he is able.

Frederick H. Knickerbocker was born in Chicago. When he was about 3 years old his parents moved to Omaha, where the young man was given a college education. After spending a year or two in business pursuits he came to Salt Lake City in March, 1897, to enter the office of J. A. Reeves, who was then assistant to S. A. Eccles, general traffic manager of the Oregon Short Line. This was while the general offices of the Short Line were located in the Commercial club building on West Temple street.

On Jan. 1, 1900, Mr. Knickerbocker went to E. E. Calvin, general superintendent of the Oregon Short Line, as private secretary, and on May 15, 1902, he became private secretary to W. H. Bancroft, vice president and general manager of the Oregon Short Line. This position Mr. Knickerbocker still holds, until his new appointment goes into effect tomorrow.

RAILROADS IN CANADA.

Mileage Greater in Proportion to Population Than in United States.

Ottawa, Ont., Dec. 31.—In proportion to population, Canada is building more miles of railways than is the United States. Canada's entire railroad mileage is now 233,000, which is one mile to every 300 inhabitants as compared with one mile for each 381 inhabitants in the United Sattes.

In 1867 in all Canada there was just 2,278 miles of railroad track. There have been constructed in 1909 and are under construction or contract nearly twice as many miles of track as there were in Canada in 1868, or 4,327 miles.

HEIGHO ON TOP.

Gallant Idaho Colonel Now President Of the "Pin" Road.

That Col. E. M. Heigho is still much in evidence in the official roster of the Pacific & Idaho Northern is shown by the list of officers of that road, chosen by the directors of the road Dec. 16: The list follows:

President, Col. Edgar M. Heigho, Weiser, Ida.; vice president, F. R. Cordley, resigned; general manager, Col. Edgar Heigho, Weiser, Ida.; vice president and general counsel, Samuel Norris, New York, vice J. H. Richards, resigned; treasurer, James B. Ford, New York, vice C. W. Webb, resigned; secretary, John D. Carberry, New York, vice C. W. Webb, resigned.

The following appointments have been made: Assistant treasurer, William Wood; assistant secretary, F. S. Miller; auditor, F. S. Miller; Superintendent, A. L. Wiley, all of Weiser, Ida.

NEWS TO J. M. DAVIS.

General Superintendent O. S. L. Denies Rumors of Pending Resignation.

"There is absolutely no truth in the rumor as far as I know," said J. M. Davis, general superintendent of the Oregon Short Line, when his attention was called to his reported resignation contained in an Ogden dispatch in a morning paper this morning. "It is all news to me. There have been similar rumors afloat for two or three months, but it is impossible to locate responsibility for such reports, except in the imaginations of some people. No, there is no truth in it."

The report referred to elaborated upon the main premise of the supposed resignation of General Superintendent Davis, and located him with some of the Harriman lines in Mexico, just to let him down easy. Then the promotion of E. C. Manson, superintendent of the Salt Lake division of the Southern Pacific, to the place vacated by Mr. Davis was announced, with A. B. Stevenson, superintendent of the Utah division of the Short Line succeeding Manson, and A. T. Brewer, head of the car service department of the Short Line was given Stevenson's place.

The denial of the truthfulness of the report by General Superintendent Davis, however, breaks down the fabric of this pretty tale, involving at it did a series of likely promotions.

MUST HAVE THE BUSINESS.

Great Northern Says Government Must Hand Over Mail Contract.

Seattle, Wash., Dec. 31.—Unless the government gives the Great Northern railway a large mail tonnage for the 46 hour fast mail from St. Paul, that train will be taken off. A statement to this effect was made last night by John A. Miller, general agent for the road in Seattle. He asserted that should the mail for Portland be given to the Great Northern, it would raise the tonnage sufficiently and could be delivered into the city of Portland at least six hours ahead of its present schedule.

MUDGE IS PRESIDENT.

Rock Island Official Succeeds Winchell On Gulf Property.

Ft. Worth, Texas, Dec. 31.—H. U. Mudge has been elected president of the Chicago, Rock Island & Gulf railroad to succeed B. L. Winchell, who has become associated with the 'Frisco system.

McDONALD IS AUDITOR.

Succeeds C. B. Seger as Head of Accounting Department of Espee.

San Francisco, Dec. 31.—A. D. McDonald, secretary and auditor of the Pacific Electric company of Los Angeles, has been appointed auditor of the Southern Pacific company, according to an announcement made at the latter company's office yesterday. McDonald succeeds C. B. Seger, whose appointment as general auditor of the Harriman system with headquarters at Omaha was announced several days ago.

CONSTRUCTION FOR YEAR.

Nearly 4,000 Miles of New Lines Have Been Built in 1909.

Chicago, Dec. 31.—The railroads of the United States constructed a total of 3,748 miles of new lines in the present year, which is an increase of 534 miles when compared with the year previous. With the exception of 1908, the present year has proved the lightest 12 months period, so far as new railroads construction is concerned, in eight years.

Most of the mileage was constructed into new territory. A large portion of the new construction was in the Pacific northwest, where the Harriman, the Hill and the St. Paul interests engaged in competition for new territory.

FIRST GYROSCOPE RAILWAY.

New Westminster, B. C., Dec. 31.—Work already has been begun on the first gyroscope railway in America to be devoted to commercial transportation purposes. The line of railway will encircle Okanagan lake. Spur tracks will be run to points where business warrants.

A LOST TRUNK.

The amount of trouble an apparently insignificant affair can occasion, is illustrated in an amazing amount of official correspondence caused by the going astray of a trunk while in transit by express from Kansas to this city. The value of the trunk was $50, and the value of the time of officials and employes engaged in tracing up that trunk was easily 10 times that. The package was finally located at Pocatello, and returned to Salt Lake with its contents uninjured; but there were 132 letters written about that trunk, which made quite a stack bound together and looked quite formidable as the volume lay on the agent's desk today.

SPIKE AND RAIL.

Holiday Rates for New Year's go into effect today on all local lines, selling dates including Saturday and return being good until Jan. 3. Holiday traffic is reported as exceptionally heavy by the passenger departments of all roads centering in Salt Lake City.

A coal shipment from the mines of the Consolidated Fuel company at Hiawatha, 20 miles from Price, will be made on New Year's day. The shipment will include 500 tons of first-class coal, and will be followed by like daily shipments from the mine to the Utah, Idaho and Nevada markets.

General Agent Williams of the Milwaukee and Mrs. Williams have returned from a trip to New York. Mr. Williams says the eastern roads are hard pressed to find sufficient number of cars with which to haul their freight, while a year ago at this time the side tracks were filled with empties for which there was no use.
