AT THE OFFICE OF THE

DESERET EVENING NEWS

SALT LAKE CITY.

☞ Mailed on receipt of price.

Records! Records!

WE ARE NOW PREPARED

*to receive orders for BRANCH and WARD RECORDS, of a new and improved form, which has been approved by the presiding Bishopric and others.*

*We shall make them of four, five and six quires each, holding 2,040 2,560 and 3,060 names each, respectively, and the price will be for four quires, $12.00, five quires, $13.00, six quires, $15.00. Each book will contain a suitable index, and be well bound in Linen and Russia Leather with ornamental lettering pieces for name of the Ward on the side. The book being of a large size, we do not think it advisable to make them over six quires.*

*Specimens can be seen at this Office, and orders received for size of book required.*

*Bishops in the Country desiring Records can order by mail, and we will make accordingly and forward them.*

### Last Night's Dispatches.

### EASTERN.

**Steam Propeller Burned.**

NEW HAVEN, Conn., 31.—The steam propeller *Hammill* was burned on Tuesday night, on the sound off the mouth of Connecticut River. Five men on board were saved.

**Pacific Ocean Survey.**

WASHINGTON, 31.—For several years past the bureau of navigation, at the Navy Department, has made strenuous efforts to obtain a sufficient appropriation to make a proper survey of the Pacific Ocean, and especially the coast between the Isthmus and San Francisco, for the benefit of commerce between those places. The necessity for a proper survey of the very locality where the Pacific Mail Company's steamer *City of San Francisco* was recently wrecked, has been felt, and it was proposed to make such a survey. Estimates prepared for that purpose were to be submitted to Congress, but the late Secretary of the Navy did not deem it advisable to give the matter his approval, and therefore the survey could not be made.

**How it was Done.**

CHICAGO, 31.—The new grand jury is investigating some remarkable charges made by the *Post*, and apparently well substantiated in some respects. They are that the late Sullivan-Hanford murder case was tried before a jury packed through the connivance of bailiffs, bunko steerers, thieves, and police, acting under instructions from their superintendent Hickey; that the mayor was concerned in the business, indirectly, through his wicked partner in business; that in return for this service the thieves and scallawags received permission to ply their trade unmolested, and that they were organized into repeating bands on election day, and under the direction of the well-known Crook, voted systematically for the present city government. That Sullivan aided them as a recompence for their work for him, and that besides these facts, which have been sworn to before the grand jury, to-day, others of an equally startling character are forthcoming.

**The Texas Border.**

NEW YORK, 31.—The *Times* Washington special says it is surmised that General Ord is instructed to protect the Texas border as best he can until Minister Foster shall have had reasonable time to make a formal demand upon Diaz's Government to suppress lawlessness along the Rio Grande.

**Turkish Dilatoriness.**

The *Times* correspondent within the Turkish lines, describing the Turkish dilatoriness, reports that on the 6th of May, 300 Krupp guns were buried in the snow on the road between Trebizond and Erzeroum. It is known that these have not since been mounted, from which it is believed the Turks are not adequately prepared to resist the Russian advance through Songhau passes to Erzeroum plains.

**Explosion in a Mine.**

DENVER, 31.—This morning, when the day force went to work in a silver ore tunnel, near Terrible Mine, Georgetown, they found the mangled corpses of John Gregory, Harry Walters and a companion named Pope, all of whom had been mangled and killed by an explosion of powder. There are no survivors to account for the cause.

### WESTERN.

**Sandwich Islands—Particulars of the Great Tidal Wave.**

SAN FRANCISCO, 31.—By the arrival of the *City of Sydney*, we have an account from the Honolulu *Advertiser* of the great tidal wave of May 10th. It appears to have occurred simultaneously all over the group. At Kahauli, on the Island Maui, the first unusual subsidence of the sea was noticed about a quarter before five in the morning. An observer in this town, who was near the harbor and saw the exposed reefs, places the occurrence at exactly the same time. J. J. Porter, of Hilo, Hawaii, fixes the moment of the wave which overwhelmed the village of Walakea, precisely at the same time, and the statement of Capt. Smithers, of the whaling bark *Pacific*, which was lying at the time in Hilo Bay, corroborates this.

The difference between the highest and lowest water mark, at various localities, we ascertain to be as follows: Hilo, on the east side of Hawaii, 36 feet; Kealakekua Bay, west side of Hawaii, 30 feet; Kawaihae, west side of Hawaii, 5 feet; Kahului, north side of Maui, 22 feet; Lahaina, south side of Maui, 12 feet; Honolulu, south side of Oahu, 4 feet 10 inches; Nawiliwili, south east side of Kauai, 3 feet.

In some cases the difference in the height of the wave may be accounted for by the configuration of the coast and outlying reefs. The following is an account of the disaster of Hilo, from an eyewitness:

Hilo, May 11, 1877.

*To W. O. Parke, Esq.*

Dear Sir—We have had a great disaster at Hilo. On Thursday morning, 10th inst., about four a. m., the sea in the bay was seen to rise and fall in an unusual manner, and at five o'clock it swept in a mighty wave, washing up and into nearly all the stores in front of the town, carrying off a great deal of lumber, and all of the stone wall makai, or wharf.

The perpendicular height of the wave, since ascertained by levelling, was twelve feet three inches above the low water mark. At Walakea the damage was frightful; every house within a hundred yards of the water was swept away. The steamboat wharf and store house, Spencer's storehouse, the bridge across the stream and all the dwelling houses were swept away in an instant, and now lie a mass of ruins far inland. Five lives were lost and numbers were bruised and had their limbs broken. The body of a woman was found by the boats off Hoolii. The boats of the American whale-ship *Pacific*, Captain Smithers, lying in the harbor, picked up six people who were swimming for their lives in the bay. The *Pacific* was lying in four fathoms of water, but she grounded when the sea receded, and then would be whirled round and round as the sea came in again. All expected to see her drag ashore. The sea continued to rise and fall all day. I timed one of the tides in the morning about seven o'clock, and from its lowest ebb to its full flood was only about four minutes. It rose about fourteen feet perpendicular height in that time. In the afternoon, in the space of one hour, the sea rose and fell three times, with a height, above half tide, of from seven to ten and a half and three feet each time. The wave at Walakea must have had a perpendicular height of sixteen feet to have taken the bridge and wharf where they now lie. The water swept completely over Cocoanut Island; the hospital there has disappeared.

Yours in haste,

L. SEVRANCE.

The volcano of Kilauea has been unusually active of late. The steamer arrived at Hilo on Wednesday, 2nd instant. As she passed down the coast on the following night, the light of the crater was unusually brilliant.

On Friday, at 2.45 p. m., several pretty severe earthquake shocks were felt, followed a few minutes later by a jet of lava thrown up from the floor of the crater near the east bank, through a crack which had evidently been made by the earthquake. The lava continued to spout at this place, gradually ascending a steep bluff to its summit, then moving along the isthmus, connecting the large crater with the smaller one of Kilaueaiki, down into the pit of which the lava ran. This continued for six hours, the lava being thrown up in numerous jets along the line at different heights, at times reaching one hundred feet. Frequently there would be at least fifty of these jets at once, making a magnificent display. The locality of this eruption and its general characteristics appear to be identically the same as those of 1832, 1840, and 1868. Simultaneously with this, the fires of Old South Lake were suddenly extinguished, and for two days following no fires were seen in Kilauea.

**Hanged—Bark Seized—Suicided.**

Juan Solazal was hanged at San Rafael, to-day, for murder.

The bark *Mary Belle Roberts*, of San Francisco, was seized at Honolulu for smuggling opium, condemned, and the captain lodged in an insane asylum, the victim of drink.

D. M. Knowlton, Assistant Adjt. General of the Grand Army of the Republic, suicided to-day, by strychnine. Temporary insanity from drink is supposed to be the cause.

### FOREIGN.

### GREAT BRITAIN.

**Gladstone on the Turkish Government.**

BIRMINGHAM, 31.—Gladstone arrived here to-day and received a great ovation. Business is suspended. At a meeting in the evening 30,000 were present. Gladstone made an eloquent speech, an attack on the Turkish government and the same accusations as on former occasions. He justified popular agitation, because government pursued a zig-zag policy, and was always ready to revert to the policy of supporting Turkey. If popular pressure was withdrawn he declared that the country sided entirely with the liberal policy. If government disputed the fact they should dissolve Parliament to disprove it. At the close of Gladstone's speech resolutions were unanimously passed, amid great enthusiasm, declaring that a wise and honorable policy would be for England to use her influence in conjunction with the authority of the great powers to exact from Turkey effective guarantees against the maltreatment and oppression of Christians.

**Prepared For War.**

LONDON, 31.—In the House of Commons, Lord Elcho urged the Government to prepare for the eventualities of the present war.

Gathorne Hardy, Secretary of State, said although the Government maintains forces on a peace footing, it had not overlooked any possible contingency.

**Expelled From France.**

A Paris special says Senor Ruiz Zorilla has been expelled from France at the request of the Spanish Government, who accuse him of plotting against the peace of the country.

**Satisfactory.**

The questions raised by the German residents in Cuba have been arranged to the satisfaction of both Spain and Germany.

**Eastern War News.**

The Russian Telegraph Agency reports that according to the latest news from Belgrade, Servia has definitely resolved to maintain strict neutrality.

A Belgrade dispatch says it is rumored that the Roumanians are bombarding Ada Kaleei, the casemates of which are under water.

The Paris *Temps* says the Russian reply to England will be dispatched, to-day. The reply is said to be very conciliatory.

### RUSSIA.

**Not Credited.**

ST. PETERSBURG, 31.—The Turkish government's announcement of the recapture of Ardahan is regarded here as untrue, because telegrams from Tiflis, dated to-day, mention no such event.

### WALLACHIA.

**Traffic Suspended—Health of the Troops—The Czar.**

BUCHAREST, 31.—The railway line between Adjud and Maraschesti has been carried away in seven pieces, and all traffic is again suspended for an indefinite time. The troops were obliged to alight and proceed on foot to the third station eastward from Ploiesti.

The Grand Duke Nicholas has telegraphed the Czar, asking whether, under the circumstances, he will postpone his visit. Meanwhile, however, everything is ordered to be in readiness for his reception on June 6th. The health of the troops is still good, but they are beginning to be affected by the weather.

A brigade which passed through Ploiesti, to-day, was followed by a long train of sick soldiers.

It is stated in Vienna that three army corps have been unable to take up a strategic position because of the floods.

### GERMANY.

**Recovered in Ruins.**

BERLIN, 31.—Advices received here from St. Petersburg represent that the Turks recovered Ardahan after the Russians had reduced it to ruins.

**Soap Making.**

A lady says in the *Western Farm Journal*: The task of soap making may be very much lightened by dispensing with the boiling of soap, and I think the soap much whiter and nicer made cold. To make it take three-fourths of a pound of clear grease to one gallon of lye. Heat the grease and lye separate. Pour the grease into the barrel, then the lye—stirring well. Set the barrel in the sun. Stir several times through the day. Cover at night. The lye should be strong enough to bear a common sized egg to the surface—not out or above it.

The heating of the lye and grease may be omitted, but it takes longer to make and is not so easily stirred.

To those who live in coal burning regions, and who cannot get wood ashes, I will say that I have used white potash in the same way with good success. One year I had more grease than I could make with what ashes I had, and having a small quantity of strong lye when my barrel was filled left unused, I boiled the balance of my grease in it just enough to eat it. Then made it up with concentrated lye, according to directions on packages. The result was excellent soft soap, which I afterwards made into a prime article of white hard soap, by stirring salt into the warm soap, until the lye and soap separated, then cutting in blocks and drying. I had before used the concentrated lye alone, but with a poor curdling soap as the result.

Hard soap I consider much the best for washing clothes with, and always make a part of my soft soap into hard, as above. For floor-cleaning, dish-washing, and many other uses the soft soap is quite as good, or better.

Attorneys-at-Law,

Successors to Chipman, Hosmer & Co.,

629 F Street, Washington, D. C.

*American and Foreign Patents.*

Patents procured in all countries. No FEES IN ADVANCE. No charge unless the patent is granted. No fees for making preliminary examinations. No additional fees for obtaining and conducting a rehearing. Special attention given to Interference Cases before the Patent Office, Extensions before Congress, Infringement Suits in different States, and all litigation appertaining to Inventions or Patents. *Send stamp for Pamphlet of sixty pages.*

*United States Courts and Departments.*

Claims prosecuted in the Supreme Court of the United States, Court of Claims, Court of Commissioners of Alabama Claims, Southern Claims Commission, and all classes of war claims before the Executive Departments.

*Arrears of Pay and Bounty.*

OFFICERS, SOLDIERS and SAILORS of the late war, or their heirs, are in many cases entitled to money from the Government, of which they have no knowledge. Write full history of service, and state amount of pay and bounty received. Enclose stamp, and a full reply, after examination, will be given you free.

*Pensions.*

All OFFICERS, SOLDIERS and SAILORS wounded, ruptured, or injured in the late war, however slightly, can obtain a pension: many now receiving pensions are entitled to an increase. Send stamp and information will be furnished free.

*United States General Land Office,*

Contested Land Cases, Private Land Claims, Mining, Pre-emption and Homestead Cases, prosecuted before the General Land Office and Department of the Interior.

*Old Bounty Land Warrants.*

The last Report of the Commissioner of the General Land Office shows 2,991,500 acres of Bounty Land Warrants outstanding. These were issued under act of 1855 and prior acts. We pay cash for them. Send by registered letter. Where assignments are imperfect we give instructions to perfect them.

Each department of our business is conducted in a separate bureau, under the charge of experienced lawyers and clerks. By reason of error in transmitting many attorneys are suspended from practice before the Pension and other offices each year. Claimants whose attorneys have been thus suspended will be gratuitously furnished with full information and proper papers on application to us.

As we charge no fee unless successful, stamps for return postage should be sent us.

Liberal arrangements made with attorneys in all stages of business.

ADDRESS, Gilmore & Co.,

P.O. Box 44. WASHINGTON, D.C.

WASHINGTON, D. C., Nov. 24, 1876.

I take pleasure in expressing my entire confidence in the responsibility and ability of the Law, Patent and Collection House of GILMORE & Co., of this city.

GEORGE H. E. WHITE,

(Cashier of the National Metropolitan Bank.) d78 on below
