JIKIRI'S DEATH STRUGGLE.

Jikir; himself singled out Lieut, Arwho commanded one section of the at-tacking party. Dashing from the cave, the outlaw flung himself upon the American before Wilson could raise his pistol. With one hand gripping the officer's hair, the bandit slashed at his work with the beauty battle back officer's hair, the bandit slashed at his neck with the heavy native knife he carried, endeavoring to behead him. Lieut Joseph A, Baer of the Sixth cav-alry saw his comrade's peril and dash-ed to his aid. As Jikiri swung back the knife to strike again, Baer shot him dead, and Wilson dropped to the ground, covered with blood flowing from the gashes in his throat. It is feared that Wilson will be incapacitat-ed for further service in the army, as the muscles and cords of his neck were severed by the bandit's knife.

the muscles and cords of his neck were severed by the bandit's knife. Writing of the fight, American offi-cers say that in the desperate hand-to-hand encounter on the narrow ledge some of the assailants may have been wounded by their own fire. In their anxiety to save each other, they were forced to shoot quickly, and high power rifles at close range are doubly dan-ferous as the bullets will plow through The result of the chemical analysis of the viscera is the first absolute proof the police have had that Elsie Sigel was poisoned before her body was strapped up and packed in the trunk. A post mortem examination led the coroner to declare that the girl had been strangled gerous as the bullets will plow through several men. Hundreds of friendly Moros watched

Hundreds of friendly Moros watched the fight at close range. They perched among the rocks where they could see the ledge and not a movement of the combatants, escaped their eyes. Many of them believed that Jikiri bore a charmed skin, impervious to knife and bullet. They would not be convinced that he was dead until they saw and felt his body. felt his body.

NEW LIST OF CASUALTIES

Washington, July 12 .- An additional ist of casualies in connection with the fight of the combined force of the army and navy against Jikiri, the Phil-ippine outlaw, and his followers, on the island of Patien, was today received from Gen. Duvall, commanding the Philippine division. John Hauser, troop A Sixth regiment Sixth U.S. cavalay Sixth regiment, Sixth U. S. cavalry died from wounds received in action

CATHOLIC EDUCATORS CONVENE IN BOSTON

Boston, July 13.-With the singing of mass in the cathedral of the Holy Cross, this city, the sixth amual con-vention of the Cathelic Educational as-sociation was opened today. In the congregation were many of the most distinguished educators of the Roman Cathelic church. Practically all of the Cathelic educational institutions in the United States are represented. A num-ber of the women connected with con-vents and belonging to the sisterhoods of the church are in attendance. The association was formally wel-

Chemical Analysis Has Detected Presence of Poison.

New York, July 13.—After spending three days and two nights on the dis-mantled hulk of the two-masted New York, July 13.-A chemical ana-ysis by Prof. Geo, Ferguson of Columbia university, has detected the pres-ence of poison in the vital organs of chooner Drusie, which had capsized in midocean in a southeasterly gale, Capt. Thomas Janes, his crew of three men, Elsie Sigel, who was murdered in the was packed in a trunk. Further chem-ical tests are being made to determine and a 13-yar-old boy, son of the ves-sel's owner, were rescued, famished and almost frenzied by thirst, by a the nature of the poison. This disclosure by Prof. Ferguson

boat's crew from the steamship Amer-ica, which brought them into this port confirms the evidence submitted to the vesterday. police 10 days ago that a Chinaman tried to buy poison at a drug store near the Chinese restaurant over which the girl was murdered, and that this effort to procure the poison was made

Shipment of Coca Bola and Japanese Oak Landed in California and Being Prepared for Use.

Chicago, July 13 .- Arrangements are

Chicago. July 13.—Arrangements are being made by the Atchison, Topeka & Santa Fe road for a series of ex-periments with ties, which will be watched with keen interest by all the railroads in the United States. The railroad purchased recently in Japan a shipment of coca bola and Japanese oak, which has just been landed in California and is being prepared for use. This wood costs \$1.15 a tie higher than the average American tie. It is said to be capable of 25 to 30 years wear, and is so hard an ordinary spike cannot be driven into it. Holes will be bored and screw spikes will be used. When laid the cost of the ties will be about \$2 each. The shipment received contains about 170,000 ties. MAN IN HIS FIELD

BEEN MURDERED BY GIRL

(Special to the "News.") BLACKFOOT, Idaho, July 13 .- A shocking murder occurred here yesterlay, when without apparent provoca-

New York, July 13—Through the arrest of two young white women, the police expect to solve the mystery which has surrounded the tragic murder of Ung Gow, a Chinese laund-ryman high in the councils of the Ong Leong tong. Ung Gow had been struck on the head and his body was found on the morning of July 1, in two wash tubs filled with scalding water, his head and shoulders in one and his legs in the other. On the information of a Chinese spy connected with the police department, detectives have arrested one young white woman of whom it was known that Ung Gow was very fond. They are looking for a white man who is said to have depended upon this girl for his support. Mads Lewis shot and instantly Lewis was in a bad mood all day and carried a gun to use if he deemed it necessary. He was out irrigating his fields and had called on the sugar factory foreman and told him that if any one interfered with his headgates he would shoot him. Alcorn, who was

mployed in the neighborhood and who

employed in the neighborhood and who had been drinking came along, got into some controversy with Lewis and called him a vile name. They began scuf-fling and both fell over a headgate. Upon getting up, Lewis whipped out his gun and shot Alcorn in the eye, killing him instantly. Lewis, was ar-rested soon after the shooting and is now safe behind the bars. Lewis is 55 years of age, while his victim was 42. There was one witness to the trag-cdy, who gives the story of the mur-der as above narrated. It is probable Lewis will seek justification on the plea that he acted in self defense. Lewis inas a bad reputation and was recently convicted of wife beating. looking for a white man who is said to have depended upon this girl for his support. The night the murder is believed to have been committed. Ung Gow told this white woman that he had several hundred dollars in his bunk back of his laundry with which he proposed the following day to pay an indebtedness on his business. This same night the white man whom the police are seeking demanded a sum of money from the girl and according to the Chinese spy she told him the secret of Ung Gow's hoard. The other white girl under arrest is a chum of the former, and was with her the night that the Chinese money was discussed. The two women, with an 18-year lad, with whom they were dining, when ar-rested in a Chinese restaurant, were taken to headquarters to be question-ed.

shows a gain of 249 per cent, the figures being \$194,900 as against \$650,700. Bridgeport, Conn., leads the list with a gain of 670 per cent, the figures being \$876,278 as compared with \$113,454 for June, 1908. The third city in the list is the Borough of Brooklyn, Greater New York, which shows a gain of 130

HARRY THAW TALKED LIKE A RATIONAL MAN

White Plains, N. Y., July 13.--When the Thaw hearing was resumed today, W. W. Smith of Poughkeepsie, who is more than 60 years old and who admitted hesitatingly that he is known in Poughkeepsie as a philan-thropist, testified he had met Thaw on two or three occasions and talked with him on religious subjects. "I told him we were brother men and should alleviate cach other's sor-rows and troubles." The witness said: "I told him I was one among many who were friendly toward him. I told him I was a Presbyterian and he talked about the Bible and about Christ's sympathetic attitude toward sinners. Mr. Thaw seemed to be very well read and have a good knowledge of the Bible. His conversation was very rational." Otto Metz, a New York court officer and former keeper in the Tombs pri-son, testified he had talked politics with Thaw. "He certainly convinced me that the silver question and Bryanism would be a bad thing for the country," said the witness. Deputy Atty. Clark objected to the place.

a bad thing for the country, said the witness. Deputy Atty, Clark objected to the answer and Justice Mills instructed the witness to confine himself to the actual conversations between himself

The witness said Thaw told him he thought Roosevelt was a "strong man" and made a good president.

Von Buelow Will Propose as Successor

Dr. Von Bethmaun-Hollweg.

Dr. Von Bethmann-Hollweg. Berlin, July 13.—Prince von Buelow, the retiring imperial chancellor, will formally propose, in his audience with the emperor tomorrow, that he be suc-ceeded by Dr. Von Bethmann-Hollweg, secretary of the interior and vice chan-cellor. There is reason to believe his majesty will accept this proposal, and that the appointment will be gazetted at once. Prince von Buelow will thus be permitted to name his own successor at Emperor William's request. Dr. von Bethmann-Hollweg is a col-lege friend of the emperor; they were fraternity brothers in the Borussia corps at Bonn and during the entire reign of William, Dr. von Bethmahn-Hollweg often has advised his majesty. He had, however, shown a disinclima-tion to accept high office. He is a man of reserved and thoughtful habits and sometimes has been called "the philoso-pher statesman."

National Food Company Files Articles of Incorporation With Capital of \$400,000.

the Articles of incorporation of National Food company were filed today in the office of the secretary of state, with a capital of \$400,000, To state, with a capital of \$400,000. To manufacture, raise, buy and sell cereal foods is stated to be the pur-poses of the organization. The incor-porators are all local people, and the officers named are as follows: E. R. South, president; W. P. Funk, vice-president and general manager; Elias S. Woodruff, secretary; E. A. Culbert-son, treasurer; E. R. Miles, Jr., J. T. Corbridge and John L. Smith, direc-tors. wyoming-Pathfinder, Natrona Co., H. H. Crawford vice A. H. Edwards, DRASTIC SALOON LAW

tors. The company will commence at once the erection of a manufacturing plant at Trenton, Cache county, to cost \$150,000, Trenton is the recognized hard wheat center of Utah, and of the United States, for that matter. Much of the wheat entering into the manu-facture of foods at Battle Creek Mich., is raised in the fields at and adjacent to Trenton. It goes east at less than a dollar a bushel and comes back into the state at three pounds for a quar-ter and upwards. The need of a change in such policy, is being felt more every day. Similar conditions exist in other agricultural products, in wool, hides, pelts, and other products, too num-erous to mention. The folly of the people of this state continuing to longer pursue methods so detrimental is being pointed out daily by the Man-ufacturers Association of Utah, and there is apparent an awakeing that bodes well for the retention here of sums that have usually gone out need-The company will commence at once

retail business is raised from \$800 to \$2,000; \$800 for manufacturers' license, and \$1,200 for wholesale dealers. The closing hour was changed from 11 to 9 p. m. Liquor must be sold at the bar only; pool and billiards, dice and cards are forbidden, also talking machines, music boxes, tables, or seats of any kind. Any person under 21 years of age who enters a saloon or misrepre-rents his age as less than that in order to get admittance is guilty of a mis-New York, July 13.—The greatest book-keeping, office and cierical task ever undertaken has been almost completed, and in a remarkably short time. Nine-teen weeks go the United States district court and the Consolidated Gas company. with its allied concerns, commenced the refunding of more than \$0,000,000 to near-ly 1,000,000 consumers. This sum repre-sented an overcharge of 20 cents on ev-ery dollar which had been paid for gas between the time the United States supreme court decided that the law was constitutional. resigned.

EXALTED GRAND RULER Los Angeles, July 13 .- The liveliest

fight for the office of grand exalted ruler in the history of Elkdom reached its final stage when the grand lodge of the Elks met in the Auditorium theater where the election was held.

the Elks met in the Auditorian cheater ter where the election was held. The contest between August Herr-mann of Cincinnati and J. U. Sammis of Lemars, Iowa, for the honor of be-ing the first Elk in the land for the coming year has developed into a sharp but good-natured hattle. The present grand exaited ruler, Ruch L. Holland of Colorado Springs, issued a statement today in regard to a letter circulated among the delegates by supporters of Sammis in which he says that Sammis has not been entirely fair. The letter was written by Hol-land to Sammis some time ago and as published at this time, appears to be an endorsement by the present exaited ruler of the candidacy of Sammis. Holland in his statement, says, how-ever that only a portion of the letter has been given out and that by using only this portion Sammis makes him appear to say what he did not intend to say. The balloting for officers of the grand lodge was begun at 10 o'clock. No offices but that of grand exaited ruler developed a contest.

developed a contest.

Baltimore, July 13 .- Dr. William Osler was 60 years of age yesterday. He is also hale and hearty, but he is not in this city.

The eminent physician who held that a man's best usefulness was ended at 40 and that he ought to be chlorformed at 60, sailed recently for England, after a vacation trip in America. T. R. Ball, registrar of Johns Hei,

kins, said there was nothing in the appearance or manner of Dr. Osler then to indicate that he had any ittention of quitting the world.

POLYGLOT NEWSPAPER.

One in a Dozen Languages to be

Published in United States.

Chicago, July 13 .- A polyglot newspaper printed in a dozen languages is paper printed in a dozen languages is to be established by the United Societies for local selfgovernment for the ad-vancement of the "home rule" and "personal liberty" principles. The pub-lication is to be issued weekly, and at the start is to be printed in English, German, Polish, Bohemian, and Italian, the intention being to extend the edi-tions until every nationality represent-ed in the societies has an issue printed in its own language.

INCREASE IN IMMIGRATION.

Chicago, July 13.--A large increase in immigration through the port of New York is shown by figures compiled by the immigration bureaus of the western railroads for the first five months of this year. The total of allen and cilizen steer-age arrivals was 35.016, as compared with 113.183 in the corresponding months of 1308. The number of allen arrivals increased from 105,679 to 375,277.

stitutions.

held in Ephraim recently. The ordin-ance was introduced by Councilman Johannsen, discussed by President C, N. Lund, Rev. E. E. Morh, C. W. Sor-enson, and Prof. W. W. McKirahan, all of them favoring it. Mayor James Monson, speaking against the ordin-ance, said he preferred either a slightly
