SCHOOL TEACHING.

SALT LAKE CITY, June 28, 1884.

In your evening issue of June 27th, noticed an article headed "Our District School Teachers." It attracted my special attention from the fact that Malta, 1.—All vessels arriving from the profession of the district school teacher is so seldom mentioned in teaching is our local papers, truly not so often as the importance of the profession demands. According to the latest statrict schools number 491, and the children of the school age to be placed under their care number 45,908. So brightest minds. The school-room is the place for character building and the teacher is the builder. A great educator says, "Put that you would have ber, we teachers are preparing citizens for our great republic.

The writer of the article referred to, endeavored to show why so many of our district school teachers were
