

Today's Ogden News

SESSION OF THE CITY COUNCIL.

Councilman Craig Elected Mayor
Tro Tem—Present Judgment
In Chambers Case.

TRADE LABOR ASSEMBLY.

Adopts Resolutions of Sympathy for
Imprisoned Federation Officers in
Idaho—Junction City News.

Ogden, March 12.—Last evening the city council met in regular session and elected Councilman Craig as mayor pro tem, during the absence of Mayor E. M. Conroy, who is at present in California.

A certified transcript of the judgment of the court in the proceedings of J. D. Skene against former Councilman Fred W. Chambers, depriving him of his office, was read before the city council. William Craig, who was acquitted on a similar charge, was president pro tem, when the matter was called up, but relinquished his seat to Councilman Chris Figure. On motion of Councilman Thomas the communication was laid on the table without discussion or action.

An ordinance regulating the use of streets for city improvements after having passed its first reading.

Another ordinance regulating the speed of automobiles to eight miles on the streets and four miles on the cross-roads, licensing the same and providing a fine of \$100 for violation of the ordinance, passed three readings and its final passage.

The license for howling alleys was decreased to \$2 for each quarter per alley in an ordinance which also was passed.

TRADES AND LABOR ASSEMBLY.

Will Send Delegates to Attend Trial of
Suspected Assassins in Idaho.

Ogden, March 12.—The Ogden Trades and Labor assembly held a well attended meeting last evening at its hall in this city. The most important business transacted was the passing of

Manager, E. A. Larkin.

resolutions of sympathy for Moyer, Haywood and Pettibone, the three men who are being held in Idaho charged with being implicated in the murder of Governor Steunenberg of Idaho, and the scoring of Gov. Gooding of Idaho and others. Those present at the meeting appeared to be enthusiastic over the proposition and pledged their support to the three men. It is also stated that when the trial of the men is called, representatives from the local assembly will be sent to use their influence in seeing that the accused are given a fair and unbiased trial.

WEBER COUNTY AFFAIRS.

Roads in Very Bad Condition—Move-
ment to Improve Them.

Ogden, March 12.—The roads throughout Weber county are in a very bad condition according to report submitted to the board of county commissioners from the various road districts. At Randall the roads are terribly cut up by the hauling of lime over them, and the roads in Slaterville, Warren and Harrisville are very bad. The commissioners with the road supervisors will endeavor to have the residents work their own roads immediately in these precincts especially, so that better roads can be had. The recent heavy storms have made the roads so soft that they cut up easily with the heavy loads that have been brought over them. In some parts of the county the mud on the roads is axle deep, making it very heavy for buggies to traverse them and heavily loaded wagons must be drawn with four horses in some places. The commissioners hope during the summer to greatly improve the roads throughout the county by covering them with crushed rocks and rolling them.

ART EXHIBIT TONIGHT.

There will be an exhibition during the next three evenings commencing tonight at the Carnegie library building, the Berlin Photographic company's fine collection of reproductions of the great works of art, also the "Capricious Prints" of Boston. This will afford an opportunity seldom enjoyed by the people of Ogden to see the works of the masters, and should be appreciated by them and largely visited. The exhibit has been arranged by the public schools of the city, and a small admission fee of 10 cents will be charged, and all proceeds thus derived will go to purchasing some of these prints for the public school buildings.

WEDDING PERMITS.

The county clerk has granted marriage licenses to the following couples: Will Opperman, 40, of Astoria, Or., and Miss Georgie Lehnhoff, 25, of Ogden. Edwin S. Jones, 34, of Savannah, Ga., and Miss Effie A. Meyers, 24, of Ogden.

OGDEN SMELTER NOW ASSURED.

About \$50,000 Worth of Machinery Has Been Purchased.

CONTRACT FOR POWER LET.

Others Will Soon be Made for Buildings and Work on O. S. L. Spur to Begin in the Near Future.

(Special to the "News.")
Ogden, March 12.—The new smelter proposed for this locality is to materialize in spite of statements to the contrary. Contracts will soon be let for the buildings, and the spur on the O. S. L. from a point near the hot springs to the site of the plant will be commenced at once.

B. Kadish, one of the managers of the company who has been in the east for about two weeks, has returned to this city and stated today that the smelter was a go. He said that he had purchased between \$40,000 and \$50,000 worth of machinery and had made all arrangements for its shipment.

He also stated that a contract had been made with Brigham City for that municipality to furnish the smelter with electrical power. The spur on the O. S. L. will be for a distance of one mile. Mr. Kadish says that the smelter will be completed during the coming summer, and that it will have a capacity of from 2 to 3 hundred tons per day. When the smelter is once in good running order, it is estimated that at least 500 men will be furnished employment. The protest made by property owners in the neighborhood of the site chosen for the plant has been entirely overcome, and there is now apparently nothing in the way of pushing the project to successful completion.

POLICE COURT DOINGS.

In the police court yesterday the court discharged the four women arrested in a raid on Electric avenue about a week ago. The prosecution failed to make a case against them strong enough to warrant their being held.

Two charges of assault and battery have been preferred in the municipal court against Joseph Bartilott and Benjamin Morlender. The complaining witnesses in each case were Mary Burton and James Burton. The charges are the outgrowth of the free-for-all fight which occurred Sunday evening near Five Points, when James Burton was struck a blow on the head with a rock, rendering him unconscious, and his wife was injured. The trouble was so serious the police and sheriff were called out. Judge Murphy will hear the suits.

Robert Chadwick will serve 20 days.

on the rock pile for resisting an officer.

Frank Hinckley, the man who caused such a disturbance in a saloon a few nights ago, has been charged with exhibiting a deadly weapon. It is understood he threatened to shoot the bartender if he took down the telephone to notify the police, and exhibited the pistol in a threatening manner.

DIES AS RESULT OF INJURIES.

Death came peacefully yesterday morning to Cyrus A. Humblly at his home, 225 Twenty-second street, relieving his great suffering, which he has undergone during the past four months. Last November the deceased was employed as carpenter on a building being erected on Adams avenue, when he slipped from the scaffold and fell to the ground, suffering serious internal injuries, which baffled the best medical skill of the city. Gradually he grew weaker until the end came. Deceased was born in Ontario, Canada, Nov. 22, 1848, but has been a resident of Ogden for over 18 years. A wife, two daughters and three sons survive him. He was a member of the Carpenters' union. The funeral services were held this afternoon at 3 o'clock at the residence.

BRIEFS AND PERSONALS.

Joseph D. Harris, president of the Salt Lake Harbor company, has tendered his resignation, to take effect at once, on account of increased business. Adam Farber is being mentioned to fill the vacancy.

An endeavor is being made to rejuvenate the Humanum in Ogden. A meeting has been called for tonight at the Presbyterian church for that purpose.

Dayton Fenstermaker, who escaped from the reform school Saturday, has not been recaptured.

The case of Sarah J. Belnap vs. J. G. Widdison, suit for damages to land from overflow of water, has been on trial in the district court the past two days.

GLENWOOD.

FUNERAL OF JOHN NIELSON.

Will Build Amusement Hall—Mrs. Hendrickson Suffers Collapse.

Special Correspondence.
Glenwood, Utah, March 9.—Yesterday the funeral services for John Nielson were held in the Latter-day Saints meetinghouse. Appropriate selections were touching rendered by the choir under the leadership of A. T. Oldroyd. The following Elders spoke eulogistically of the deceased: Wm. Sorenson, J. C. Jensen, J. H. Payne, P. C. B. Peterson and C. W. Powell.

The demise of Mr. Nielson is pathetic indeed. For two years he has been an intermittent sufferer from apoplexy, from which cause death came. A wife and six children, the youngest a baby of three months, survive him. The helpful sympathy of the whole community goes out to the bereaved.

Last night, while at choir practice in the meetinghouse, the organist, Mrs. Hendrickson, suddenly swooned away. Dr. McGregor has been in constant attendance at a point where Mrs. Hendrickson is in a very critical condition, due largely to overwork and physical exhaustion.

NEW AMUSEMENT HALL.

At a large mass meeting last Saturday night in the Latter-day Saints meetinghouse, the residents of Glenwood ward to erect a modern amusement hall on the lot adjacent to the Hotel. The approximate cost of the building will be \$200. Many people of the town would prefer the installation of a water-work system as against the erection of an amusement hall, thinking very likely that health is preferable to amusement.

INVALUABLE FOR RHEUMATISM.

I have been suffering for the past few years with a severe attack of rheumatism and found that Ballard's Snow Liniment was the only thing that gave me satisfaction and tended to alleviate my suffering. March 24th, 1902, John C. Dugan, Kinman, Ill., 250, 252 and 254, sold by Z. C. M. J. Drug Dept., 112 and 114 South Main Street.

SUGAR.

SILVER WEDDING.

Mr. and Mrs. Nicol Hood Hold Anniversary.

Special Correspondence.
Sugar, Utah, March 12.—At the cozy home of Mr. and Mrs. Nicol Hood of Sugarhouse ward on Friday and Saturday nights, a grand reception was given in honor of the twenty-fifth anniversary of the wedding of the above named couple. The same date Friday, being the fifth birthday of Mr. Hood.

On Friday evening the hospitable of the ward, relatives of the family, and friends to the number of 60 persons, assembled in response to invitation, Saturday evening "The Thistle Social Club" of which Mr. Hood is president, responded in a body to the invitation extended.

On both evenings excellent programs were arranged and much appreciated, the following taking an active part: Prof. Charles Kent, Prof. John Hood, Prof. Alex. Snedden, David Henderson, Wm. Gray, James R. Smith and a number of others.

The worthy couple were the recipients of hearty congratulations and received a great many silver presents both beautiful and useful from their well wishing friends.

BEET CULTURE.

Suggestions From an Expert on Growing Utah's Money Crop.

One of the advanced grades of farming in this section is raising sugar beets, and in this there may be success or there may be failure. The first requisite is for the soil, of a medium sandy loam, which preferably should be fall plowed, to a depth of eight or nine inches, and not harrowed until spring, as the frost and thaw of winter will act in pulverizing the surface, and the winter moisture will penetrate to a greater depth, and reduce the number of irrigations the next summer. If spring plowing is done it is well to firm the soil by floating crosswise and lengthwise and then harrow it immediately after to keep the moisture in. The seed should be sown in rows, and the seed should be worked until it is fine and mellow, as beet growing is garden culture and on an extensive scale. Ground on which lucern has grown from five to ten years has fertility sufficient to produce a good yield and particularly if potatoes are grown the year before. The seed should be sown in rows, and the seed should be worked until it is fine and mellow, as beet growing is garden culture and on an extensive scale. Ground on which lucern has grown from five to ten years has fertility sufficient to produce a good yield and particularly if potatoes are grown the year before. The seed should be sown in rows, and the seed should be worked until it is fine and mellow, as beet growing is garden culture and on an extensive scale. Ground on which lucern has grown from five to ten years has fertility sufficient to produce a good yield and particularly if potatoes are grown the year before.

Beet growing should be done about April 16, but care should be taken not to plant too early, while the ground is too cold and not too late so that it will not germinate the seed.

The beet is a very hardy plant and will thrive on soil that contains considerable mineral, but naturally yields best on rich loamy soil, which can be made to produce as much as 40 tons per acre, though 15 tons is a very profitable crop. Fifteen pounds of seed to the acre seems to be nearly right, planted from one to one and one-half inches deep. The thinning should begin, for the first time, in June, thinning from eight to twelve inches apart. About ten days after first thinning begin to second thin, by taking out all double beets and hoe out all visible weeds, thereby conserving moisture and loosening the soil around the plants. Cultivate and hoe the times with the horse cultivator before the leaves get too large to interfere. Let the beets suffer before you begin to irrigate, but after beginning see that they get water when necessary. Beet ground should be well leveled.

Fall crop of beet ground lessens the number of irrigations next season. Rotate your farm with lucern, grain and beets. Feed your own stock, and sell your product to the creamery. Harrowed fertilizer is worth the value of the hay and grain the cows eat. If hauled on the beet land.

JOHN P. HOLMGREN.
Bear River City, Utah.

AN IMPORTANT SCIENTIFIC DISCOVERY.

Likely to Revolutionize Pharmacy.

A HAPPY COMBINATION
Of just the right proportion of each of the roots of several indigenous, or native, medicinal plants, or rather of the active medicinal principles skillfully extracted therefrom by the use of chemically pure glycerine of just the right strength, constitutes Dr. Pierce's Favorite Prescription for the cure of weak, invalid, nervous, "run-down," over-worked women. Many years ago, Dr. Pierce discovered that chemically pure glycerine, of proper strength, is a far better solvent and preservative of the medicinal principles found in our indigenous, or native, medicinal plants, than is alcohol. Believing, as he does, that the use of alcohol, even in small portions, if long continued, would do great harm to the human system, he determined not to employ this commonly used agent in making his medicines, but to use pure, triple-refined glycerine instead. Now, glycerine is not only perfectly harmless, but possesses intrinsic medicinal properties, being a most valuable demulcent, solvent, nutritive, anti-septic and anti-ferment. Since they are non-alcoholic, Dr. Pierce's Family Medicines belong *all of themselves*. They are neither patent nor secret medicines. Their ingredients are printed in plain English, on each bottle wrapper.

The exact proportion of the several ingredients used in these medicines, as well as the working formula and peculiar processes, apparatus and appliances employed in their manufacture, are withheld from publicity that Dr. Pierce's proprietary rights may not be infringed and trespassed upon by unprincipled dealers and those who may be piratically inclined.

WHAT OTHERS SAY.
With Dr. Pierce's medicines you don't have to pin your faith wholly to what the manufacturer says of their curative potency as with other medicines. Mercenary motives, the greed for money, getting it, is feared, often lead men, and women too, to put forth unreasonable claims for their "lovely" praised, but many times nearly worthless compounds. Especially should the afflicted beware of the "Cheap-John," free give away, "trial bottle" dodge. It don't pay to trifle with one's health. It should be regarded as too sacred to be experimented with. Dr. Pierce's medicines have a record of nearly forty years of cures behind them, embracing many hundreds of thousands of bad cases restored to health and happiness.

THEY STAND ALONE
In having the professional endorsement of scores of eminent medical practitioners and writers of all the several schools of medical practice, who are the curative properties of the several ingredients of which they are composed, away beyond all that the makers of these medicines have ever claimed for them. These are the more valuable because in every case written without the author knowing that he was praising articles entering into these popular medicines, the matter being composed for publication in various medical journals and books designed exclusively for professional reading and instruction. The afflicted can, therefore, rely upon such testimony as in every way truthful and trustworthy.

A LITTLE BOOK
has been compiled, made up of brief extracts from many standard medical works, giving, but only in part, some of the many good things written by leading medical authorities concerning the several native medicinal roots that enter into the composition of Dr. Pierce's medicines. Any one sending, by postal note or letter, to Dr. R. V. Pierce, Buffalo, N. Y., and requesting a copy will receive it free by return post.

From the same little book of extracts it will readily be seen why Dr. Pierce's Favorite Prescription works such marvelous cures in those chronic and distressing diseases peculiar to women. In all cases of pelvic catarrh with weakening drains, bearing or "dragging-down" pains or distress, and in all menstrual derangements and irregularities, the "Favorite Prescription" will be found to be made of just the right ingredients to meet and cure the trouble.

Your druggists sell the "FAVORITE PRESCRIPTION" and also that famous alternative, blood purifier and stomach tonic, the "Golden Medical Discovery." Write to Dr. Pierce about your case. He is an experienced physician and will treat your case as confidential and without charge for correspondence. Address him at the "Invalids' Hotel and Surgical Institute, Buffalo, N. Y., of which he is chief consulting physician.

It is as easy to be well as ill—and much more comfortable. Constipation is the cause of many forms of illness. Doctor Pierce's Pleasant Pellets cure constipation. They are tiny, sugar-coated granules. One little "Pellet" is a gentle laxative, two a mild cathartic. All dealers in medicines sell them.
