DISPOSING OF LAWS.

DISPOSING OF LAWS.

Righter III and in one of his more confemplative moods, "Way should the laws to made but that we're requestly untered." If his had lived in this age of the words, he might have added, "And why should not our instination be gratified whether there are any laws or not?" While altogether Machiavallian and not not be recognized by proper-mitted people, both expressions have an aprime in surresuming eithermatures which is easily to be seen. His conscience at that quality white filled his place of consciences by laughing at one est at both man planning to punish other had uses, and we repeated in a califolia sense) let the others make the rules while we give them our own interpretation.

plin sense) let the plants make the rules while we give them are own interpretation.

There are severe laws against prigraphing in severy shale and territory, with one or two succeptions, in the Daton. This being the case, one would think that when a male was made the deaths would be attended with the attrictest sectory and many the "everest few" on the hands know argiting about it; but that have the style at all. The wides pitthisty is given the affait by the present the overlay of the style at all. The wides pitthisty is given the affait by the present the excitation of the same and the same and the same and the sector like largest possible witerslance. At the minutine of porting the circles, we obtain the same and instead of the heat-like the same and the same and a same present in the same and the same the rule, that is the less known to be rule, that is the largest possible quarky to pair may be a way more the rule, that is the like known in the rule, that is the like the way to the rule, that is the first known in the rule, that is the like the way to be a to be at the rule of the same and the singlety gives on the rule of the death of the first the first pantial the first planting the whole affait the same the first of the contentable to known of the order of the contentable to known of the rule of the contentable to the contentable ton

THE PREDATORS PESTS.

after. We are strengt that there are intently too known brooks of their, which turn up in different years in various sections of the constity, but their respective heritains average is rose extent. Each brook, powered, comme out of the gravital only own is nevertheen years. The intervals are absolutely, requirer. One brook has been under shear ration attent 1515, and it is possible to make with absolute restaints of a prediction se that the "Nomink" will appear at a given pine in ISSA on ISSA of the "Standard" will appear at a given pine in ISSA of the "Nomink" will appear at a given pine in ISSA of the "Nomink" will appear at a given pine in ISSA of the "Nomink" at all the electronic and "Standard" at all, and electronic and two standard and the training of the destriction of the
