### WORKING ON THE R. R. LEGISLATION

Officials Quietly Watch the Trend of Affairs in Legislature.

IMPORTANT BILL NOW LAW.

Measure Which Will Have the Effect of Developing the State of Ctab.

Now that the rush incident to the getting out of reports at the first of the year has somewhat subsided, and the stock convention visitors have ceased to invade the railroad offices and bombard the officials with questions relative to freights, climate and one hundred and one things that are not usually considered to come under the heading of railroad affairs, the railroad officials here are turning their attention to legislative work and endeavoring to put in suggestions which will be of materfal benefit to the residents of this State and the railroad alike,

In this direction the first fruits of the quiet way in which the railroad officlais have been working with the legislators to mutual benefit are evidenced in the passage of House bill No. 6, introduced by Smith, empowering railroad corporations to acquire stock and interests in any line within or without

the State, except a competing line.

This bill, which has now become a law, is of vital interest to the people of this State, from the fact that it simply means that through its passage will be attracted capital from the East which will undertake the construction. which will undertake the construction of lines which perhaps might not be of lines which perhaps might not be undertaken by the existing roads at the present time. Under this bill the Oregon Short Line, Rio Grande Western or any other line in this State can guarantee stockholders of any feeder interest on their money from the start. To illustrate a rallward may come forward illustrate; a railroad may come forward with a proposition to build a branch line and solicit capital from eastern financiers for the projection of the same with the assurance that after a fea years the line will be a paying proposition. Under these circumstances, capitalists are liable to be shy of entering any such deal, and the necessary money for the development of the country would not be forthcoming. Under the new order of things their dividends or interest on the money invested will be the money invested will be the money from the start, in the case the money invested will be forthcoming from the start. In the case of the St. Anthony branch in Idaho it goes without saying that that line will be a splendid paying piece of property after the next few years, but during the first year of its existence it barely paid operating expenses consequently there was a vigorous kick registered from those in the East, who had put money in the branch, and who are not with pioneer railroad work

In the West,

Now that it is possible in Utah for railroad corporations to guarantee to any feeder interest on the money invested, it will have the effect of turning the eyes of men with money to invest towards this State in a manner which will redound to the benefit of all the residents who are affected by each in the West, the residents who are affected by such projects for the development of the country, which is only awaiting the ad-vent of the locomotive to burst forth Into prosperity.

#### MISSOURI PACIFIC DEAL.

It is Stated That About 150,000 Shares Have Been Transferred.

New York, Jan. 22,-The Journal of Commerce says:

It was learned last evening on what is considered excellent authority that about 150,000 shares of Missouri Pacific stock have just been transferred on the books of the company to the names the Rockefellers. This is significant as showing in the first place, the business intimacy which has developed between the Rockefellers and Gould interests; this is, in the second place, undoubtedly the reflection of transactions responsi-ble for the advance in the price of the stock, which yesterday touched 90%-certainly a high price if its non-dividend policy is to be continued.

Another report current was that a plan is receiving serious consideration for an exchange of one share of Mis-souri Pacific for four shares of Texas Pacific, A considerable part of the Tex-as Pacific stock is already held by Missouri Pacific interests and such an ex-change would amount virtually to the complete absorption of the Texas road. Whatever may be the basis of these

various stock market rumors, there seems no room for reasonable doubt but that the Rockefeller interests are becoming a power lu the Southwestern railroad territory and that the Gould interests must now, in the "community of interest" plan be placed in the same class or group as the other Morgan-Rockefeller-Hill roads.

#### TRAIN WRECKERS,

Attempted Hold up Frustrated on the U. P. Near Kearney, Neb.

Cheyenne, Wyo., Jan. 21.-Informa tion was received here today to the ef-fect that a desperate attempt was made last night by a gang of train rob-bers to hold up the Overland Limited near Kearney, Neb. The bandits placed a large pile of rocks on the track in order to wreek the train, which order to wreck the train, which is re ported to have had a large amount of money on board. The robbers secreted themselves behind a hill near the rail-

pedestrian traveling along the track came upon the obstruction, was ounced upon, severely beaten and of \$100. He got away from them and ran on to Kearney, where he gave the alarm and a posse was at once organ-lzed and orders given to hold the train. The posse came upon the bandits and captured one, the others escaping. The officers are still in pursuit.

### THE CARLAND MURDER HEARING

The Case Promises to be a Very Lengthy One.

TWO WITNESSES EXAMINED.

Testimony Shows That Hopkins Was in a Fighting flood on the Night of the Shooting

The preliminary hearing of Frank C. Garland of Bingham on the charge of murder in the first degree, was begun before Justice Kroger at 9:30 his morn-

In the complaint it is alleged that on the night of December 22nd, 1900, the defendant shot and murdered Norton Williams. The shooting took place in the Oxford saloon at Bingham. The day following, Williams was removed to the Keogh-Hosmer hospital, and on December the 28th, he died. The corioner's jury rendered a verdlet to the ffect that the deceased came to his icath from a wound inilicted by a reolver held in the hands of Frank Gar-
