

MINING, BUSINESS AND STOCKS.

DAISY MOVES

FORWARD TODAY.

Several Thousand Shares Sell at 2 1/2 Cents Per Share.

STAR CON. WAS WEAKER.

Value is Dropping—Emerald Active—Ben Butler Sells—May Day Softening.

TODAY'S METALS:

SILVER 61 1/2
LEAD \$4.00
CASTING COPPER 15 1/2

The sale of 4,000 Daisy today on the Exchange at 2 1/2 cents a share will be surprising to a number of people. No good reason seems to exist for the jump upward from the figures of the past few weeks, excepting that some people are not without hope that the Daisy will be made to pay.

With no word regarding Lower Mammoth the stock was allowed to sag somewhat. Not much activity was shown by the stock, 200 shares of which were taken up at 4 1/2 and 48.

Northern Light was very weak at the outset, 750 shares going at 4 1/2. The stock strengthened after the first sale and was quite active up to 5 1/2.

Star Consolidated was much weaker owing to lack of information as to the condition of the mine and the fact that no shipments have been made for some days past. The stock fell down to 2 1/2.

Valco is also on the toboggan, in spite of the news from the Park that drifting on the vein is still in progress. It sold today at 3 1/2.

May Day continues to hang around 50 and Emerald was traded in at 4, with Ben Butler going at 1 1/2.

Closing quotations were posted as follows:

August Flower.

"It is a surprising fact," says Prof. Houton, "that in my travels in all parts of the world, for the last 10 years, I have met more people having used Green's August Flower than any other remedy, for dyspepsia, deranged liver and stomach, and for constipation. I find for tourists and salesmen or for persons filling office positions, where headaches and general bad feelings from irregular habits exist, that Green's August Flower is a grand remedy. It does not injure the system by frequent use, and is excellent for sour stomachs and indigestion." Sample bottle free at A. C. Smith's Drug Store.

Sold by dealers in all civilized countries.

The advertising force of the MUSCATINE OAT MEAL CO. are in the city advertising FRIENDS' OATS.

PREACHING AND PUBLIC SPEAKING.

Of the 5,000 copies of this popular book published last year only three or four hundred remain and the author has decided to sell these through the ordinary agencies for church publications. Your local agent will order the book for you or it will be sent postpaid from the Deseret News Office. Cloth, \$1.25; Half Morocco, \$2.00.

BANK STATIONERY.

And printing specially attended to at the Deseret News Office. Estimates promptly furnished. Rush orders a specialty.

Royal Bread.

Is positively healthful, contains no chemicals, is made from best wheat. Ask your grocer for it. Look for label.

CONDITIONS AT

THE MAMMOTH.

Mr. McIntyre Says a Dividend Will be Paid About Aug. 1st.

WILL BE 5 CENTS A SHARE.

News from Nome—The Highland Boy—May Day Looks Well—Rich Copper Ore.

President Samuel McIntyre came in today from Tintic and reports the mine looking about the same as at last report.

The mine force is just about getting down to business again after celebrating the Fourth.

With regard to the proposition to close down the mill as stated by the mill superintendent last Saturday, Mr. McIntyre said that a consideration of other matters made him decide to continue running it for the present with ore shipped over the railway. Mr. McIntyre does not intimate when the difficulty will be settled, but from a conversation with him today it would appear that the management is at present very undecided as to the course to be pursued. Nothing will be done on the tramway, at least not at the present time. It is intimated that other surveys may have to be made. The proposition to move the mill has also been discussed. Some repairs and changes will soon be necessary and it is a question in Mr. McIntyre's mind, whether it would be better to move the mill to the mine, where it is said several advantages present themselves in the way of a rock retaining wall and plenty of sunshine during the winter months. The water would have to be pumped to the mill if this were done. He, however, others may think of the proposition. Mr. McIntyre expresses the belief that it would not be a bad move. Meantime the mill continues to run and it is unlikely that the railway will cease hauling ore this month at least.

With regard to the rumor that the Mammoth might hand out 10 cents per share on the 1st, Mr. McIntyre said the mine would not be doing so badly if it continued to pay 5 cents a share. The text dividend, it was said, will be paid soon after August 1st, and will be one of 5 cents per share.

SOME CITY ITEMS.

Quarantine Ordeal—High Wages—Many Coming Home.

The "News" special correspondent at Nome City, Alaska, writes under date of June 26th, as follows:
We are just now returned from a ten-day's smelter quarantine at Egeg Island, which lays fifteen miles north of St. Michaels. It is a common belief among the passengers that it was another fool of a doctor who did not know mailpox from smallpox. We had but the one case and he was not in bed more than forty-eight hours. We had to stand a vaccination ordeal, but some fooled the doctor and very many took it just because they could not get around it. It immediately washed the vaccine poison out with alcohol and carbolic acid. By this means very many of them neutralized the poison. About three out of every five people on our ship were not in favor of vaccination, so that taking them as an average, the public are wiser than the d—phool doctor.

If you have any reports about the Garonne or Spookum being lost, don't give them any credence, for the Garonne is here safe and reports the Spookum safe and due this week.

Nome has grown to be an immense city of tents in the ten days that we have been quarantined. Carpenters are getting \$1.50 per hour with four men to a job. Longshoremen get \$1.00 per hour, miners get \$5 per day, and laborers various prices.

The beach does not pay and there are very few light returns from all the creeks so far heard from except Anvil.

A great many people are going home, and it is reported that \$40 will buy a first-class passage home. Outfits are selling at disastrous figures, and provisions and groceries can be had for the freight advance above Seattle prices.

Fresh beef is offered in any quantity for 50 cents per pound, with a good prospect of lower prices soon.

The health of the city is good and outside of a few suicides and murders, there is little mortality.

From this on Nome will be a good place for a poor man to stay away from. There is a reported strike at Glorin but as to its extent, richness and authenticity, I can give you no particulars.

IMPERIAL COPPER CO.

Samples of Excellent Copper Ore Brought Up by Manager Lewis.

Manager A. B. Lewis, of the Imperial Company, at Frisco, reports an important strike in that property. It was made in the main working tunnel at a distance of 170 feet from the entrance. Six feet of very good ore is said to have been cut through. In speaking of the samples brought to town, from which assay returns will be obtainable this evening, Mr. T. R. Jones says that they showed a splendid grade of copper ore. Messrs. W. R. and John H. Kirk, of Chicago, accompanied Mr. Lewis to the mine, and as heavy stockholders in the property they are very much elated at the response which the property is making to the efforts of the management. The driving of the tunnel will be continued and at the same time a force of men will begin drifting on the vein just encountered.

AT THE MAY DAY.

Fifty Men Employed in the Development of the Property.

Manager Hunt of the May Day came in from Tintic today and reports everything looking well at the mine. About 50 men are now on the payroll and the management is working nearly all this force on development work. A few men are engaged in breaking down ore which can be economically handled but for some time to come most attention will be given to opening up the property. "More ore is in sight now," said Manager Hunt, "than was ever seen in the May Day before." Six cars will be on the market on Monday and it will not be long, it is said, before the company will be out of the woods.

TIMBER FOR MINES.

Users Are Not to Buy Timber Taken for Other Than Mineral Lands.

With regard to the notice that has been served on the Mercur and other mining companies of Mercur district, that they are buying timber which has been cut on forbidden ground, Manager Dorn of the Mercur mine says the

purchase of such timber by his company has been made unknowingly if made at all. About two months ago, in obedience to the ruling of the general land office which says that no timber shall be cut for mining purposes from other than mineral lands. Manager Dorn took the contract to furnish timber from the parties who had furnished it previous to the ruling, and have it to Ferguson and Anderson who represented that they had a permit to get their timber because the special agent who preceded Mr. Sowers had decided that the property was mineral land. It appears now that this was an error. This ruling will work a hardship on all the mine owners of the State, but it will especially affect the small owners who are not able to ship a car of timber at a time.

AT THUNDER MOUNTAIN.

A. R. Chambers Reports Free Gold in Every Piece of Rock.

A. R. Chambers, who represents a syndicate of men who have money with which to buy mines and mining machinery to sell, came through the city yesterday on his way East from the Thunder mountain country, says the Boise Statesman. Mr. Chambers stated to a gentleman from Nampa that he had been sent from Colorado by 10 people he represented to make some investigations in the Lemhi country. There he heard of Thunder mountain and of the remarkable mining that has been done by the Caswell brothers there. He decided to make an investigation and came to Boise for that purpose. He had a rather rough trip to Thunder mountain, the road being in bad shape from Banner. He remained in the district four days and took a large number of samples. Some of these he panned and in every one he secured enough gold to entice him.

He told the gentleman with whom he talked that the entire mountain was evidently impregnated with gold. Mr. Chambers is quoted as saying that he had never seen so much gold in any place as was presented at Thunder mountain. He did not believe the values ran very high, but there was such a mass of matter carrying gold that with the right kind of a mill, it could be made to pay handsomely, in his opinion.

"There is gold in everything," he is quoted as saying. Every piece of rock and every particle of dirt that he panned produced gold and he became very enthusiastic over the showing. He said there was plenty of water for power, and that a mill could be connected with the ground he examined very easily with a tramway.

THE HIGHLAND BOY.

The Company Does Not Intend to Pay Much Attention to the Lead Chute.

The statement that the Highland Boy Mining Company, of Bingham, is going to pay more attention to the lead chute in the mine is denied by Manager Poland. The company will, as usual, only extract lead ore when the bins at the smelter are glutted with copper ore. This sometimes happens for short periods, and rather than stop the tramway and lay the men off, small quantities of lead ore will be shipped to the Germania smelter.

The mine is said to be looking well. Gold bearing ore for use in lining the oxidized ore bodies above the fourth level. The estimated quantity of ore in sight before the ore body was opened up on the seventh level, was 500,000 tons, but this is being largely added to by the extensive development work now in progress on the level. No one is to speak of being extracted below the fifth level. With the new smelter addition completed a daily output of 500 tons will be necessary. This will mean about 100,000 tons per year and with the estimated amount in sight a year ago last April, and that which has since been exposed on the seventh level, the company has sufficient ore reserves blocked out for several years after the smelter addition is completed.

IN CARIBOO DISTRICT.

New Development of Pittsburg Co.—Placer Returns Are Good.

Special Correspondence.
Gray's Valley, Idaho, July 10, 1900.—Cariboo district is now showing more activity. The Pittsburg Mining Co. is making new developments and have now a splendid showing, others are putting on greater force. The placers are employing about thirty men, the returns are good and speak well for the future. Some claims have been recently sold and others are being bonded, and the outlook for the future is bright.

MINING NOTES.

R. G. Wilson is inspecting the camps of Madison county, Montana.

Capt. De Lamar is expected to reach Salt Lake tomorrow afternoon.

The Swansea of Tintic reached the market today with cars of ore.

The Ophir Hill reported today with another 6-car lot of concentrates.

The Silver Shield of Bingham reached the market today with a carload of ore.

Five cars of ore were marketed today from the Eureka Hill mine at Eureka.

Ten cars of ore were on the market today from the Centennial Eureka of Tintic.

The Naat property at Bingham marketed 3 cars of high grade lead ore today.

The delinquent list of the Tesoro Mining company shows the late assessment paid on all but about 5,000 shares.

J. A. Copeland is now manager of the Taylor Brunton Sampling Works, with his office in the Dooly block.

J. A. Cunningham Jr., who is up from Mammoth with a crushed finger, reports ore being delivered to the mill over the railway.

A car of copper matte was on the market today from the Glasgow and Western Exploration company's Nevada property.

The Taylor-Brunton sampler reported 22 cars of ore from Tintic, 6 from Stockton, 4 from Bingham, and 1 from Nevada today.

Col. Bruback will go out to Tintic early next week to inspect the Silver Bow property, of which he was recently made manager.

Mr. Holden said today that work would be started on plans for the new Utah States smelter to be erected in the valley.

The Wilson Leaching company of Pine Grove, Nevada, reached the sampling rooms yesterday afternoon with 600 pounds of gold cyanide.

Directors J. W. Lewis and L. A. Copeland of the Silver Shield expect to inspect that Bingham property on Sunday. It is said to be showing up well at the present time.

Messrs. L. E. Ritter and J. M. Wheeler of the South Swansea expect to visit that Tintic property tomorrow. While away they will look over the camp generally and after returning will probably sink the themselves to Brighton.

Sinking is being carried on at the working shaft at the Ely Mining company property at Ely, Nev., and the management is trying to decide which of the various kinds of mills would be the best to treat the ore.

Advises received yesterday from the Nevada company's mine at Galena, Nev., state that an extension of the drift on the 140-foot level has encountered the same vein on its dip, that was tapped by an unbrake from that level, never the shaft. The ore is said to be looking better than ever.

MARKET WAS DEPRESSED.

Selling to Take Profits and Low Foreign Prices the Cause.

Union Pacific and New York Central Gains a Point Generally, Rise Was Not Important.

New York, July 13.—Selling to take profits and the depression reflected from foreign markets made the prices lower for practically all the stocks but the offerings were not large. An effort was made to advance prices, but the rise uncovered large realizing orders which speedily put the market below the opening average. In Sugar and Brooklyn Transit the reaction reached a point, while other active stocks took large fractions. Notable strength prevailed for American Ice and Minneapolis and St. Louis which rose 3 and 2 1/2 respectively. The declines ceased before 11 o'clock, but the market showed little rallying power, was dull and narrow. As there was no pronounced pressure in any quarter, prices gradually hardened with Union Pacific and New York Central gaining a point. Generally considered, the rise was unimportant and did not hold. The list dropped back to the lowest.

The bond market was broader than for some time, but transactions were small and prices were up and down.

MONEY.

Money on call steady at 1 1/2 per cent. Prime mercantile paper 3 1/4 to 3 1/2 per cent.

Sterling exchange, firm, with actual business in bankers' bills at 4 1/2 to 4 1/2 for demand and 4 1/2 to 4 1/2 for sixty days; posted rates 4 1/2 and 4 1/2; commercial bills 4 1/2 to 4 1/2.

Silver certificates—61 1/2 to 62 1/2.

Bar Silver—61 1/2.

Mexican dollars—18 1/2.

Government bonds steady; 3s refunding, when issued, registered and coupon 100 1/2; 2s registered 100 1/2; coupon 100 1/2; new 4s registered and coupon 100 1/2; old 4s registered 100 1/2; coupon 100 1/2; 5s registered and coupon 100 1/2.

Sugar—Raw, strong; fair refining, 4 1/2; centrifugal, 56 test, 4 1/2; molasses sugar, 40.

CHICAGO MARKETS.

PRODUCE.

Chicago, July 13.—September wheat opened at 80 1/2 to 81 and declined to 79 1/2 to 80.

Wheat—July, 77 1/2; Aug. 78 1/2 to 79 1/2; Sept. 79 1/2 to 80 1/2.

Corn—July, 43 1/2; Aug. 43 1/2 to 44 1/2; Sept. 44 1/2 to 45 1/2.

Oats—July, 23 1/2 to 24; Aug. 24; Sept. 24 1/2 to 25.

Barley—July, 12 1/2 to 13; Sept. 12 1/2 to 13.

Lard—July, 6 1/2 to 6 3/4; Sept. 6 1/2 to 6 3/4.

Ribs—July, 6 1/2 to 6 3/4; Sept. 6 1/2 to 6 3/4.

Cash: Wheat—No. 2 red, 80 1/2; No. 3 red, 79 1/2; No. 2 hard winter, 75 1/2 to 76 1/2; No. 3 hard winter, 73 1/2 to 74 1/2; No. 1 northern spring, 78 1/2; No. 2 northern spring, 76 1/2; spring, 74 1/2 to 75 1/2.

Corn—No. 2, 42 1/2; No. 3, 42 1/2.

Oats—No. 2, 24; No. 3, 23 1/2.

Rye—58.

Barley—40 to 48.

Flax—1.50.

LIVE STOCK.

Cattle—Receipts, 3,800. Steady; butcher's stock firm. Good to prime steers, 5.00 to 5.75; poor to medium, 4.40 to 5.00; stockers and feeders, 2.50 to 4.00; cows, 2.00 to 4.75; heifers, 1.00 to 3.10; canners, 2.00 to 2.25; bulls, 2.00 to 4.50; calves strong, 4.50 to 6.55; Texas fat steers, steady, 4.15 to 5.00; grass steers, 3.00 to 4.10; Texas hogs, 3.50 to 3.75.

Hogs—Receipts today, 14,000; tomorrow, 13,000; left over, 5,700. Active 10c higher top, 5.45. Mixed and butchers, 5.15 to 5.45; good to choice heavy, 5.25 to 5.45; rough heavy, 5.05 to 5.25; light, 5.25 to 5.45; bulk of sales, 5.50 to 6.25.

Sheep—Receipts, 3,000. Steady. Good to choice wethers, 4.10 to 4.50; fair to choice mixed, 3.10 to 4.10; western sheep and yearlings, 1.50 to 1.60; Texas sheep, 3.15 to 4.00; native lambs, 4.50 to 6.00; western lambs, 5.00 to 6.25.

KANSAS CITY LIVE STOCK.

Kansas City, July 13.—Cattle—Receipts, 1,500; steady to strong. Native steers, 4.00 to 4.40; Texas steers, 2.00 to 4.50; cows, 1.85 to 3.50; native cows and heifers, 1.00 to 4.00; stockers and feeders, 3.25 to 4.80; bulls, 2.75 to 4.25.

Hogs—Receipts, 13,000; 50 1/2 higher. Bulk of sales, 5.15 to 5.25; heavy, 5.25 to 5.35; packers, 5.15 to 5.30; mixed, 5.15 to 5.25; light, 5.05 to 5.20; Yorkers, 5.15 to 5.25; pigs, 4.50 to 5.10.

Sheep—Receipts, 2,000. Strong. Lambs, 4.00 to 6.00; muttons, 2.00 to 4.00.

OMAHA LIVE STOCK.

Omaha, July 13.—Cattle—Receipts, 1,500. Best 10c higher, others steady; native beef steers, 4.00 to 5.00; western steers, 3.50 to 4.50; cows and heifers, 3.50 to 4.40; canners, 1.50 to 3.25; stockers and feeders, 3.00 to 4.30; calves, 3.00 to 4.75; bulls, stage, etc., 2.50 to 4.25.
