UNION.

BENEFIT ENTERTAINMENTS.

Given by the Sunday School and Primary—Phenomenal Snow Fall.

Special Correspondence.

Union, Salt Lake Co., Dec. 21.—A concert for the benefit of the Sunday school was given on Saturday night, which netted a nice sum for prizes to be given the scholars on Wednesday, Dec. 30, when a huge Christmas tree will be loaded with the presents for the children. There will be "capital" prizes for those who have the best attendance record for the past year.

The Primary association gave an entertainment last Saturday night which was well patronized and the children acquitted themselves in excellent style.

There is some sickness in the ward, notably the young daughter of Bishop O. P. Miller, who is still very sick. Last week the 5-year old son, Hugo, of Joseph O. Smith, was operated on at the Holy Cross hospital for appendicitis. He is reported as doing as well as could be expected.

Our veterans, Bishop Phillips and Counselor M. H. Brady "noting as young as they used to be," but are still with us as staunch and true as of yore.

A remarkable shower of small snow stars fell on the bench just east of Union during Sunday afternoon, thousands of them being as perfectly formed as made by machinery. They were from one-eighth of an inch to one-half an inch in diameter, and elicited much admiration.

Richfield, Sevier Co., Dec. 20.—After long years of agitation for a sugar factory the proposition is now assuming tangible shape. A large and enthusiastic meeting of beet growers was held in this city yesterday, in which all the precincts of the county were represented. The success of sugar beet growing having been amply demonstrated in the fine crops of the past two seasons, the greater portion of the meeting was given to the discussion of ways and means to establish a sugar factory in the county.

The statement was made that Messrs. Eccles and Kiesel and others of Ogden would put up a factory next year if the necessary inducements were forthcoming. It was also stated that other parties are figuring on entering this field, and it was finally decided to appoint a committee to enter into correspondence with all parties who might become interested in a sugar factory in this county and to open negotiations with them. A committee was appointed, com-

position assuming tangible shape—Canvassing Committee Appointed.
