Crystalized Salt.

When Queen Kapiolani was here she expressed a wish to procure some specimens of salt from the lake. Mr. Reid, of the firm of Jeremy & Co., salt manufacturers, has taken pains to procure several very fine specimens of clusters of [salt crystals that have formed on twigs of grease wood, ex-posed to the action of the water of the lake, and when Her Majesty returns, these will be presented to her. They are at present in the possession of Mr. R. G. Lambert of this office.
