

## TO REVISE THE PRESENT RULES

New York Yacht Club Has Adopted The Report of the Committee.

## INTERNATIONAL STANDARD

Is Discussed, and Also What System of Measurement Would be Conducive of Best Results.

New York, Oct. 24.—The New York Yacht Club has adopted the report of the committee appointed in February last to revise the present racing rules, with reference to the measurement of racing craft.

The principal change effected is the introduction of the factor of hull displacement, with the factors of length, beam and draft previously considered. The formula, as it now stands, reads as follows: "Length multiplied by square foot of sail area, divided by five times cube root of displacement."

While system of measurement would be conducive of best results, and to the possibility of forming an international standard, the committee of the New York Yacht Club, which was composed of designers and builders in Europe and America, to whom questions were addressed relative to the advisability of the change, has decided to adopt the present system of measurement.

## ON THE RACE TRACK.

Two More Records Go a Glimmering—Owens Silver Goes Some.

Memphis, Tenn., Oct. 23.—Two world records were broken and another one tied, and Owens made a gallant attempt to lower his trotting mark at the Memphis track this afternoon. The exhibition of Owens and Owens Silver, who were reserved for the end of the day's racing, was after 5 o'clock when Owens Silver, accompanied by a runner, appeared for his great effort to lower the two-mile trotting record at 2:25.4, made by himself last week at Lexington.

On the second trial the starter gave Hudson the word, and the trotter fairly flew around the first turn. Hudson apparently checked his stride, and Owens Silver, who was passed in the third quarter, which was passed in 34, doing down the back stretch Owens Silver broke, but soon regained his stride. The half was reached in 1:18.4, and the three-quarter pole was passed in 1:41.4. Here the running mate set a hot pace to the wire, and the mile was made in 2:14.4. At the next pole the time registered was 2:48.4, down the back stretch Owens Silver again moved, and the mile and a half was again set a hot pace and at the last quarter pole the time registered was 3:54.4. Owens Silver began to urge his horse in the final run home, and when the wire was reached a new world record was hung out—the time being 4:28.4. Both horses and driver received an ovation.

Crescentus, with two runners, trotted a mile in 2:04 flat.

In the Diamond handicap Major Delmar trotted the first mile in 2:43.4, equalling the world record for geldings in a race. In the third heat of the same race at half a mile, Major Delmar won handsily in 1:10, which is another record for the distance.

## CLIFFORD WON OF COURSE.

Knocks Kid Opie Out in Second Round of Championship Bout.

Battle, Mont., Oct. 23.—Jack Clifford knocked Kid Opie out in the second round tonight of what was to have been a 26-round contest. Opie made a good showing in the first round and both fought very fast.

After the second round had gone a minute and 20 seconds Clifford sent in a stiff left to the wind and Opie dropped his guard. As he did so, Clifford swung his right to the left jaw and Opie went down in a heap. Clifford falling on top of him. Opie was carried out and had to be carried to his corner. About 800 people saw the fight.

## ANNUAL LEAGUE MEETING.

Minor Association in Session at New York—Reports Heard.

New York, Oct. 23.—The members of the National Association of Minor League baseball leagues began their annual meeting at the Fifth Avenue hotel today. The delegates during the opening session listened to the annual reports of President P. T. Powers and Secy. J. H. Farrell, elected officers and a new national board, and decided to appoint a rules committee of their own.

Among those who were present were W. M. Lucas, Spokane, Wash., president of the Pacific Northwest League, and D. E. Dugdale of Seattle, Secretary. Farrell's report proposed that a player reported for drunkenness or disorderly conduct the second time should be declared ineligible to play with any national association club for the balance of the season. Among other recommendations made in Mr. Farrell's report were:

"It would be advisable to consider a modification of the 'burning' rule, with the idea of establishing a stated penalty for its violation if it is to be continued."

"It is recommended that the national agreement be amended so as to specify fully state the period of time granted clubs in which to accept a player's services."

"I would recommend that provision be made to penalize any club manager who communicates, in the line of nego-

## A GOOD DEAL OF NONSENSE

About "Blood Purifiers" and Tonics

Every drop of blood, every bone, nerve and tissue in the body can be renewed in but one way, and that is, from wholesome food properly digested. There is no other way and the idea that a medicine in itself can purify the blood or supply new tissues and strong nerves is ridiculous and on a par with the fol-de-rol that dyspepsia or indigestion is a germ disease or that other fallacy, that a weak stomach which refuses to digest food can be made to do so by irritating and inflaming the bowels by pills and cathartics.

Stuart's Dyspepsia Tablets cure indigestion, sour stomach, gas and bloating after meals, because they furnish the digestive principles which weak stomachs lack, and unless the deficiency of pepsin and gastric juices is supplied it is useless to attempt to cure stomach trouble by the use of "tonics," pills and "cathartics" which have absolutely no digestive power, and their only effect is to give a temporary stimulation.

One grain of the active principle in Stuart's Dyspepsia Tablets will digest 3,000 grains of meat, eggs and similar foods, and experiments have shown that they will do this in a glass bottle at proper temperature, but, of course, are much more effective in the stomach. There is probably no remedy so universally used as Stuart's Dyspepsia Tablets because it is not only the sick and ailing, but where it exists, the regular use of one or two of them after meals will demonstrate their merit and efficiency better than any other argument.

tations, with any player under contract to another club of this association.

Letters were read from John T. Brush and James Hart, suggesting an affiliation between the National League and the National Association. Mr. Farrell, however, declared after the meeting that the association would remain independent of any other organization.

Mr. Powers and Mr. Farrell were both elected to the position of president and secretary-treasurer. The national board has M. H. Sexton of Rock Island as chairman and W. H. Lucas of Spokane as a member. Adjournment was taken till tomorrow.

## All-Americans Win.

Billings, Mont., Oct. 23.—The All-American Bowling team lost one of the two games with Billings bowlers this afternoon in the first of the series in this city. Vorhies of the All-Americans was beaten in individual contest with A. L. Carey, the state champion, who scored 235 pins to Vorhies' 198. This is the first time Vorhies has ever been beaten in an individual contest. Results:

All-Americans—Wolf, 175, 208; total, 383. Selbach, 173, 164; total, 337. Vorhies, 190, 226; total, 416. Grand total, 544, 588. Total, 1,132. Average, 236.4.

Billings—Tschudy, 201, 202; total, 403. Elliott, 170, 190; total, 360. Daniels, 175, 189; total, 364. Grand totals, 546, 581, 1,127. Average, 235.8.

## O'Brien Beats Jeffords.

Philadelphia, Oct. 23.—Philadelphia Jack O'Brien bested Jim Jeffords of California in a six-round contest at the Broadway Athletic club tonight. Jeffords was almost half a head taller than O'Brien and had every natural advantage, but could do little with the latter. O'Brien fought cautiously. At the outset O'Brien knocked Jeffords down with a blow on the head but Jim was up in an instant. Jeffords showed that he was a clever boxer. O'Brien put Jeffords down for the count in the second round. Jeffords also went down in the sixth round. The fight was O'Brien's from start to finish.

## Chicago Track Doings.

Chicago, Oct. 23.—La Goleta cut two-fifths of a second off the track record for a mile and seventy yards in the second race at Worth today. Results: First race, five furlongs—Applauded won. Avenner second. Instant third. Time, 1:01 1-5.

Second race, mile and seventy yards—La Goleta won. Constellation second. Gallant third. Time, 1:41 2-5.

Third race, six and a half furlongs—Automaton won. Slim W. second. Lincolnton third. Time, 1:20 1-5.

Fourth race, six furlongs—Elsie L. won. Harig second. Hoodwick third. Time, 1:18 2-5.

Fifth race, six and a half furlongs—Carl Kahler won. Evelyn Byrd second. Brummer third. Time, 1:20 1-5.

Sixth race, one mile—Vutaine won. Mohina second. Ilwaho third. Time, 1:40 2-5.

## Crescens Failed Again.

Memphis, Tenn., Oct. 23.—Crescens, in his attempt to reduce his record of 2:02 1-4, failed at the Memphis Trotting association this afternoon, covering the mile in 2:04 flat. Owens Silver went against his two-mile record of 4:28 1-4, and amid much enthusiasm covered the distance in 4:28 1-4, reducing his record 1 1-2 seconds.

## Knocked Out But Won.

St. Louis, Oct. 23.—In a fight at the West End club tonight between Brooklyn Tommy Sullivan and Joe Sherlock of Chicago, Sullivan knocked Sherlock out, but he secured a round by the blow below the belt. The referee awarded the decision to Sherlock because of the foul.

## Emperor and Prince.

New York, Oct. 24.—The New York Yacht club has elected to honorary membership Emperor William of Germany and his brother, Prince Henry of Prussia.

## Their Last Match.

New York, Oct. 24.—Harry Vardon of Scarborough, and James Brad of Romford, both former golf champions, have met in what probably was their last match of the season on Hayling Links, says a London dispatch to the Herald. Vardon secured the match by four up and three to play.

## HARVARD SEEMS TO HAVE BEST CHANCE

Experts Say That the Eleven is Likely to Defeat Yale.

## BEST CANDIDATES PICKED.

Big Teams Settled Down to Hard Work in Preparing for the Big Contests to Come.

All the big football teams will now begin preparing for the important contests of the season. This preparation will consist mainly in the development of team play. The practice games have enabled the coaches to pick the best candidates for the "Varsity," and the other players will be relegated to the scrub for the present season.

A scrub player would have to show very exceptional form to be taken on a "Varsity" team after the team work is well under way. This is the case at Yale, Harvard and Princeton. The Cornell "Varsity" is in such a chaotic condition owing to the number of injured men that, according to report, new material is still being sought for. Practically the same condition prevails at Pennsylvania. Columbia's team is intact, but Coach Morley is on the look-out for better men and another good heavy man for the line.

Harvard won the championship last year by defeating Yale, 23-0, at Boston, 35-6, West Point, 6-0, and Columbia, 18-0. Yale had defeated Princeton, 12-0, and the Tigers beat Cornell, 8-0; Lafayette, 6-0, and Brown, 35-0. Harvard then had a team of fast players entered the contest with Old Eli in the pink of condition. The Harvard team had many substitutes who were almost as good as the regular "Varsity" men. Practically the same condition prevails at Cambridge today, and for this reason some impartial critics look to see Harvard beat Yale and win the championship for the second year in succession.

## HARVARD'S REAL STRENGTH.

The real strength of the Harvard team was shown for the first time in the game with Wesleyan last Wednesday. The carefully trained "Varsity" men, who were to face the Yale later on, played in the first half. Yet in the short space of 20 minutes they scored five touchdowns and a goal from the field.

Three of the touchdowns were made in the first nine minutes of play, although the Methodist's team was far from being weak. Kernan, Mills, Jones, Leatherbee, and Sullivan played through the Wesleyan line as though it were made of paper. The goal from the field was made by Marshall, who is having a hard fight with Daly for the position of quarterback. In that one half Harvard exceeded the score Yale made against Wesleyan a few days ago.

In the second half Harvard was repulsed entirely by substitutes. They failed to play well together, with the result that no more touchdowns were made and Wesleyan scored. Individually, however, the substitutes made an excellent showing.

The Yale team is also composed of giants. Few changes have been made in the Yale "Varsity" since it was organized for the first practice game this season. Owing to this fact the team plays with wonderful smoothness and the formations are worked so rapidly that Yale's opponents in the practice games this season have soon become exhausted.

Yale does not seem to have as many good substitutes as Harvard. The regular line and there is now little doubt that the Crimson has a stronger back field.

## TEAMS HARD TO COMPARE.

It is difficult to tell anything by a comparison of scores made against other teams by Harvard and Yale. The Elie have invariably let up in their work in the second half and resorted to punting in order to test their defense. Yale has never trained her "Varsity" so carefully as she has this year, and there may be a surprise in store for the Cambridge aggregation.

Princeton has plenty of material this season, which is only just beginning to come into shape. The Tigers have been weak on the defense, rugged in interference and given to fumbling. The ginger displayed by the men, however, partly compensates for these defects. In Hart, Kafer and Foulke, Princeton has three fine line buckers, and the Tigers hope to beat Yale through their exceptionally fine aggressive work.

## Races at St. Louis.

St. Louis, Oct. 23.—Fair grounds summary: First race, seven furlongs, selling—Scott Blossom won. Precisely second. Emily Oliver third. Time, 1:25 1-5.

Second race, five and a half furlongs—Monsieur Beaulieu won. Light Opera second. Dr. Kier third. Time, 1:38 1-5.

Third race, mile and seventy yards, selling—Tenebris won. Florie S. second. Trauer third. Time, 1:44 1-5.

Fourth race, six furlongs—Gonheim won. Be D'O second. Fore and Aft third. Time, 1:14 1-5.

Fifth race, mile and sixteenth—Lunar won. Leoria second. Fonsparay third. Time, 1:46 1-5.

Sixth race, one mile—Virgil D'O won. Jack Young second. Bias Massie third. Time, 1:41 1-5.

## Events at Boise.

Boise, Ida., Oct. 23.—A sharp shower in the morning made the track at the fair grounds rather heavy today, and consequently no harness races were pulled off. Following are the results of the other events:

First race, running, six furlongs—three-year-olds and upward, purse \$150—San Sam won. Laureta second. Caligato third. Time, 1:18 1-5.

Second race, running, five furlongs—Three-year-olds and upward, purse \$150—Elsie Glenn won. Rubina second. Poorlands third. Time, 1:03 4-5.

Third race, running, three-eighths of a mile, purse \$100—Quicker won. Big Dutch second. Rattler third. Time, 20 1-2 seconds.

Fourth race, running, special, five and a half furlongs—Argot won. Avator second. Schallwag third. Time, 1:30 1-5.

Fifth race, running, three-quarters of a mile—Glencoe won. Miss Remon second. Time, 1:18.

## LOCAL EVENTS

MORAHIAH BEATS GALENTINE.

Mat Artists Indulged in Rough Work at Theatre Last Night.

There was another packed house at the Salt Lake Theatre last night to witness the much talked of wrestling match between Morahliah, the "Terrible Turk," and Jim Galentine from Iowa. The result was as generally expected. The Turk showed up in better condition than Jim Galentine and won two falls out of three, thereby taking the winner's end of the gate receipts. The greatest struggle of the match fell on the second, when they wrestled Greco-Roman style. In this Galentine had a decided advantage and performed a great many tricks that Turk did not seem to understand. Both men fought it for a time and there was no interference from Referee Charley Lang. Both men used their elbows in "dike done occasionally on purpose," and the Turk got decidedly the worst of it. The first fall was catch-as-catch-can. Galentine got out of many tight places by head rolls and rolls, but the Turk finally secured a half Nelson and bar hold and forced his man to the mat. The fall was gained in 10 minutes. The next was Greco-Roman and it required a struggle of 19 minutes and 20 seconds before Galentine secured a hold the Turk could not break. With a half Nelson, Galentine forced the Turk over and down. As the Sultan's man was the quickest fall he had the choice of the style for the third, and naturally he chose catch-as-catch-can. In 15 minutes he put Galentine to the mat with the same hold as in the first fall. Galentine displayed wonderful speed throughout the match and at times punished his opponent severely, but he neither had the steady strength and staying qualities nor the confidence that the Turk has.

## TREATMENT OF CONSUMPTION.

Eminent Pathological Authorities Assemble in Prussian Parliament House and Discuss Result of Another Year's Inquiries Into The Subject.

Berlin, Oct. 23.—About 100 eminent authorities on pathological research assembled in the Prussian parliament house today to hear and talk over the results of another year's inquiries into the nature and treatment of consumption. Most of those who have come to the congress from a dozen countries have something original to contribute. France is represented by 20 delegates from her scientific bodies and Germany by more. Among the German representatives is Dr. Koch, who, however, today said nothing. Great Britain is represented by four delegates and the other European countries have sent from three to ten delegates. There are two delegates from the United States. Prof. Brouardel of Paris was chosen chairman.

At the first session Home Secy. Posadowsky-Wehner welcomed the delegates on behalf of Emperor William. Court Chamberlain von Krosigk welcomed them for the emperor, and Burgomaster Kirschner extended them a welcome on the part of the municipality.

The feature of the day was an account by Dr. Chalmette of Lille, France, of the house-to-house crusade against tuberculosis in France, especially the nursing at home system carried on by private beneficence. The state partakes in this only by subsidies to the working classes and sanitary education. Societies have been formed in each town, supported by the town councils and various groups that try to prevent the spread of consumption among the working classes and sanitary education their families, supplying advice and medicine at dispensaries. Dr. Chalmette described the operations at Lille since February, 1901. The principle is to give the largest relief to the less seriously injured among the poor, so as to lengthen their economic life. Every patient in the regular intervals is washed with chloride of lime and the walls are whitewashed.

The patients receive clothes, bedding, a pocket cuspidor, a table cuspidor and one litre of lysol weekly. Steam laundry is done for 60 poor families at an average expense for each patient of 20 cents a day. The sanitary education of the families is done at home mostly by intelligent workmen specially taught for this kind of lecturing. They explain how to make a house healthy, disinfect linen and supply food and material for relief during the persons enforced idleness. Expectations are instructed that spitting is as dangerous to the patient as the person around them, because the expectorations inhale bacilli. Dr. Chalmette said nearly two years practice of this scheme gave satisfactory results. Many patients who had been looked after and helped from one to nine months resumed work, having no bacilli in their expectoration and had recovered the appearance of health. In every large patients were assisted, and their economic life was thus lengthened.

Dr. Van Rynn, of Brussels, read a paper on the notification of consumption cases to the health authorities. "The happy results of which and the preventive measures involved," he said, "have been the cause of a considerable decrease in the number of deaths from consumption in a few years." This notification, Dr. Van Rynn added, should exist in all countries where the infectious it is necessary to be informed they exist. The objection to the notification is that it is against individual liberty and professional secrecy and might disquiet patients and make them worse as consumptives lose their situations. This was all confuted by the necessity for acting in the general interest.

The American delegates Dr. Welch of Baltimore and Dr. Chas. Denison, of Denver, were not present. The members of the congress had tea with Countess von Buelow at the chancellors residence at 5 o'clock in the afternoon and they were entertained at various theaters tonight.

To Repel Revolutionists at Carapa no

Willamstad, Island of Curacao, Oct. 24.—News has reached here that Gen. Velutini has left La Guayra, Venezuela, to repel the expected revolutionaries on Carapapo, state of Bermudez, which has been besieged by the rebels for two days. Carmelo Castro, brother of the president of Venezuela was so seriously wounded in the leg in the recent fight at La Victoria that the leg has been amputated.

Broom Combine to be Financed.

New York, Oct. 24.—Arrangements have been made, according to the Tribune, for financing the proposed combination of broom manufacturers

## Gun Club Shoot.

Four members of the Salt Lake Gun club, who were in the frame yesterday, and shot out a score of 50 blue rocks. Callison held high gun making 44 out of a possible 50. The detailed score follows:

1109 1101 1111 1111 1111 1111  
1111 1111 1101 1010 1010 1111—44
