Special Meeting July 20.

copies of a detailed statement of the condition of the Emma Copper company, 17 west Second South street, and notices of a special meeting to be held at 2 o'clock, Tuesday afternoon, July 20. Three plans are submitted for meeting the indebtedness of the company

First-To sell to the stockholders pro rata, according to their record holdings, 150,060 shares of stock at 7 cents per

Second-To make a voluntary assessment on the 745,350 shares of outstanding stock of, say 1½ cents per share, which would yield \$11,180.25. Third-To call a special meeting of the stockholders to amend the articles

of incorporation so as to make the stock which is now non-assessable, assessable according to law.

assessable according to law. The statement issued shows that the annual meeting of the company should have been held on the fourth Monday in November, 1907, but on that date not enough stock was represented for a meeting. Various other dates were set for the meeting, but it was not until April 13, 1909, that a majority of the stock was represented for a meet-ing.

When the company was incorporated It took over seven unpatented claims and secured four patented claims on a bond of \$18,000 and one other patented claim on a bond of \$5,000. Through the sale of treasury stock the company re-ceived \$39,420, with which it paid off the bonds, with the exception of \$3,000 the panic came on and it was obliged to cease work for lack of funds.

DIRECTORS PAY UP.

When the company closed down three of the directors paid off the bal-ance of the \$3,000 due on the bond, and accepted a mortgage on the property. When the adjourned annual meeting was held on April 13, 1909, the total indebtedness was shown to be \$\$,805.94. Of this amount, mortgages were given to the parties who had advanced the \$3,000 bond money, paid off the judg-ments, advanced the money for assess-ment work incorporation taxes etc. ments, advanced the hibbey for assess-ment work, incorporation, taxes, etc., for the sum of \$4,786.80. There was due for mine supplies, power, etc., \$2, 019.09 and for surveying, office rent, salaries, labor, overdatt, etc., \$2,000.05, making a total of \$8,805.94. Since that time a local mining and marbinery company whose claim was machinery company whose claim was included in the \$2,019.09, secured judg-ment for \$1,158.97 and sold the property under execution sale for that amount.

The property is subject to redemption before Jan 7, 1910. Since April 13, the interest on mortgages, legal and inci-dental expensés has increased the indebtedness until it is now about \$9,500 The company has 254,650 shares of stock in the treasury. DIG AQUEDUCT IN GOLD.

Laborers Make Rich Clean Ups in Excavating for Los Angeles Water, cavating for Los Angeles Water. Randsburg, Cal., July 12.—The water supply of Los Angeles from the filtered knows of the Owens valley country will wind through a stratas of gold. Part of the excavation for the aqueduct is found to be heavy with auriferous veins, and in a number of cases pockets of gold have been taken away. For some parts of the construc-tion work, laborers actually fight, be-cause of the chance of striking a

present rate of copper the company, it is believed, should make a profit of 3 cents a pound. Under the improved conditions it is believed probable that copper can be laid down in New York at 9.64 cents a pound.

MeINTOSH FINANCING OHIO.

Report from Boston Shows Manager In Role Raising Money Needed.

According to a report in the Boston News Bureau Colin McIntosh, manager of the Ohlo Copper company has been of the Ohio Copper company has been in Eoston interesting a number of bankers there in the bonds of the com-pany and endeavoring to dispose of the same at from \$5 to 90. He is al-leged to have stated that the floating indebtedness of the company is be-tween \$200,000 and \$300,000 and that \$600,000 is needed to put the company on a firm financial basis and start oper-ations in a manner that would assure the early paying of dividends. Mr. McIntosh asserts that it is noth-ing short of a crime with the millions

Mr. McIntosh asserts that it is noth-ing short of a crime with the millions of tons of ore in sight for the company to be held back by a few hundreds of thousands. He asserts that the devel-opment work and the cost of construe-tion and machinery has amounted to \$1,200,000. The development amounts to 12,000 feet. Out of 4,000 assays made in various parts of the mine it is as-serted they averaged 1.74 per cent cop-per. The caving system of mining, the gravity system combined with the in-stallation of electric haulage will mak-the cost of mining and concentration the cost of mining and concentration close to \$1.10 per ton. The Mascotte tunnel grade is from ½ to 1 per cent. The mill is believed to be able to make a saving of 80 per cent, yielding 27.8 pounds of copper to the ton. This will assure the company a net profit of \$1.15 on each ton of ore. With the necessary money the company would have the first two units and possibly three units in operation by the first of three units in operation by the first of the year.

ABANDON MONTHLY REPORTS.

(Special to the "News.") Provo, July 12.—A statement was is-sued this morning from the Knight of-dices announcing the abandoning of the

issuing of monthly reports. The statement is as follows: "Owing to the inability of a great many people to understand the brief financial reports of the various Knight companies, heretofore published, and a great number of inquiries, the publica-tion of the monthly report will be dis-

cointinued." SAN FRANCISCO MARKET. James A. Pollock & Co., bankers and brokers, furnish the following, received over their private wire yesterday after

noon: COMSTOCK. Ophir, 1.00@1.42½; Mexican, %@1.00; Gould & Curry, 17@18; Con. Va., \$2%83; Savage, 21@23; Hale & Norcross, 21 bld; Yellow Jacket, 73@75; Belcher, 42 bld; Si-erra Nevada, 28@22; Union, 48@49; Chol-lar, 16 bld; Potosl, 35 bld.

TONOPAH.

oonds steady.

New York, July 12.-Stocks started the week with prices higher than last week's close. The exceptions were among the less important stocks aside from the Hill Pacifics which were included in th frac-tional declines. The features of the opening were Illinois Central, with a rise of 1%, Mercantile Marine preferred 1% and American Smelling and Great Northern Ore Certificates large frac-tions.

rise of 15%, Mercantile Marine preferred 1½ and American Smelling and Great Northern Ore Certificates large frac-tions. The improvement in prices at the open-ing did not bring out much realizing, which encouraged the wider demand for the standard railroad stocks and indus-trials. The buying slackened and some good gains were made but prices were sustained at the best. Reading jumped 1%, United States Pipe preferred 1% Hoeking Coal 1%, Colorado Fuel 1% and Baltimore & Ohio, Louisville & Nash-ville, Norfolk & Western, American Smelting, American Sugar and West-inghouse Electric 1. Reading second pre-ferred yielded 2 and Union Bag 1/4. Prices held firm and in some cases slightly increased, Reading rising 2%, but the trading was small. Central Railroad of New Jersey rose 2, and Union Pacific and Wabash preferred 1%. Union Bag preferred sold at a deellue of 5. St. Paul, Minneapolis & Saulte Ste Marid, United States Steel reached its previous high record price of 6% and while there was no sign of any large selling orders awaiting the market the advance halted. The number of minor specialities were up from 1 to 1% including American Agricultural Chemical and Leather pre-ferred, Bethlehem Steel and National Biseuit.

up from 1 to 1¼ including American Agricultural Chemical and Leather pre-ferred, Bethlehem Steel and National Biscuit. The market closed steady and very duil, United States Steel sagged back without topping its previous record and Reading reacted 1. The tope was easier.

PRODUCE. CHICAGO.

CHICAGO. Chicago, July 12.--Wheat for July de-livery touched a new high record for the stason when it sold at 123% per bushel during a wild flurry at the opening of the market due to general rains in the harvest belt during the last 48 hours. Other deliveries, however, failed to re-spond to any great extent to the strength of the current month. Cables, however, showed only a slight response to the advance here Saturday, shipments from Russia and Indian were liberal and private advices from Argentina claimed that heavy rains had occurred where drouth had prevalled. These factors had a depressing effect on the distant deliv-eries, but the July option was affected chiefly by the additional delay to har-vesting in this country owing to wet weather. The opening in July was % to 13% higher at 1.0% to 1.20%. Heavy realizing sales caused a guick decline to 1.7%, but the price again railied to around 1.20. Corn was irregular. July being firm while the more deferred months were weak. July opened ½ to ½, higher at 12% to 12% and advanced to 72%. Oats followed other grains. July open-ed ¼ to 5%, Provisions were dull and easy, a 5c decline in live hogs caus-ing moderate begits farther in the pit. Prices at the start were 5 to 75c. lower. The July delivery was inclined to be strong the greater part of the day the

the close of the morning market. If only a part of what was said about the stock this morning is true there will be a little earthquake. By the more conservative it is not believed that conditions at the property are what the rosy pictures painted it to be. That the company has found some more ore is declared to be true but fur-ther than that no information is ob-

ther than that no information is ob-

tainable. Iron Blossom was stronger today and

Colorado was steady. Sloux Consoll-lated was lower today and much of the stock was offered at \$1.15. It sold at that price and also at \$1.12%.

The . I number of shares that changed hands at the morning session

was 47,995 and the amount represented by the transactions was \$38,673.50.

On the curb market Emma Copper was offered at 3 cents and a bid of 15 cents was made for Nalidriver.

tion work laborers actually fight, be-cause of the chance of striking a pocket. From one stretch of the ex-cavation, less than 12 feet long, samples of high grade ore were taken which, in some instances show assays of \$900. The aqueduct will literally cross a bed of placer gold and also go through lodes. All sorts of stories are to be heard along the aqueduct regarding gold the aqueduct regarding gold one being as to the luck of ϵ McCullum, a Los Angeles , who cleaned up \$1,200. IS SOON TO BEGIN WORK. Newhouse Returns With the uncement Everything Ready. Cactus mine at Newhouse is o start operations and will do so ately is the announcement of Newhouse, who has just re-from New York. The financing organization of the company has mpleted up to a point that in-e work starting at once and by of the week both the mill and ill be grinding out copper conis scarcely anything of ime to say," declared Mr. New-his morning. 'Everything is go-ad nicely and I can say that I rtainly not been idle during the was away, work at the Cactus mine will be up immediately. Ninety-five nt of the securities for the re-zation plan have already been ed, which I believe is a remark-. Jennings, an engineer, who re-examined the property for the a stockholders, declared that was in sight 1,127,083 tons of 1.8 at copper ore: 1,000,000 tons of 1.8 at copper ore: 1,000,000 tons of 1.8 per cent copper and 1.000,000 tons r cent. The mill will start with the of 30,000 tons of ore a month efficiency of this plant will recost of concentration from 55 ton to 45 cents a ton. CONCENTRATES.

Herbert Salinger, representing the National Zinc company of Bertelsville, Oklahoma, is in Salt Lake for a few days husting for zinc ores, carrying 40 per cent of the metal. The price is figured on the units above or below that percentage.

More trouble is apparently ahead of More trouble is apparently ahead of the Nevada Hills company, as on Sat-urday a suit was filed at Goldfield by George A. Bethune, asking that the deed of the property to the company be set aside, alleging fraud. The de-fendants are John T. Hodson, W. H. Clark, John A. Kirby, W. V. Rice and the company. Bethune is associated with Harry B. Lind, who was recently defeated in an effort to get an interest in the company on an alleged grub in the company on an alleged grub stake agreement.

mix modelate beings wentiment in the plt. Prices at the start were 5 to 7½c.
lower.
The July delivery was inclined to be strong the greater part of the day. The market closed firm for July but weak for the other deliveries, July being up ¼ at 1.19½.
Corn-A weaker tone developed during the final half of the session owing to profit-taking in July. That option sold of to 71%. The market closed easy, with July unchanged at 72%.
