

## REPORTS SHOW A BIC INCREASE

Mineral Output of Western States  
Away Ahead of 1899.

### LEADVILLE'S PRODUCTION

Shows Remarkable Gain—Utah Over  
\$3,000,000 Ahead—Montana's Gold  
and Silver—Idaho Improves.

That 1900 has been a banner year for all the mining States of the West is shown by the reports which have been prepared by individuals who know most about such matters. Not only has Utah increased her output upwards of \$3,000,000 over that of 1899, but Idaho and Montana have also run away ahead during the past year.

#### COLORADO OUTPUT.

Some discrepancy is seen in the reports of the Colorado mineral output as given by two Denver papers. The Republican gives the output as follows: Gold \$29,770,265; silver, \$12,623,545; lead, \$6,855,978; copper, \$1,211,859; zinc, \$1,260,000; tungsten, \$1,600; coal, \$5,000,000; iron, \$5,684,000. Total, \$55,925,398.

The Rocky Mountain News gives the following totals as the result of carefully compiled statistics of the State's output: Gold, \$35,183,457; silver, \$15,445,595; lead, \$1,317,819; copper, \$1,224,370; zinc, \$1,000,000; tungsten, \$1,600; coal, \$5,000,000; iron, \$5,684,000. Total, \$62,822,874.

A difference of more than \$10,000,000 is seen in the two estimates, which will be best understood by those who have attempted the task of preparing such a report.

#### IDAHO RICHES.

A dispatch from Boise, Idaho, says: The production of metals in Idaho during the year 1900 amounted to \$14,500,000, an increase of \$585,532 over 1899. The gold production, according to present estimates, fell off \$500,000, while that of other metals increased. The figures for the year are as follows:

Gold	\$1,900,000
Silver	6,000,000
Lead	6,000,000
Copper	150,000
Total	\$14,500,000

A Seattle, Wash., dispatch says: At the close of business hours for the nineteenth century and the year 1899 ended day after tomorrow Assayer Fred A. Wing of the United States assay office at Seattle said that in the past twelve months his receipts at the office have been forty-six and one-eighth tons of gold and silver.

The total quantity of gold for the year was 1,345,123.41 troy ounces, with an assessed value of \$25,035,755.12, and it represented the individual deposits of 7,104 persons.

Over \$18,000,000 came from the Klondike and the remainder from other parts of Alaska, British Columbia, Washington and other States.

The highest mark was reached in July last, when over fourteen tons of the yellow metal was deposited in the assay office in twenty-six working days. Nemo's output was \$3,723,272.14, which is considered good, taking into account the lack of water there and the almost endless litigation.

#### MONTANA GOLD.

A Tribune special estimates the Montana gold production for 1900 at 246,000 ounces, and the silver at 16,700,000 ounces, as against 229,217 ounces of gold and 16,850,755 ounces of silver in 1899.

#### LEADVILLE GAINS.

The figures of the year for the Leadville district show a remarkable gain of nearly \$1,000,000 over 1899, and the valuation of output, with a tonnage of over 320,000 tons of ore, says a Tribune special. The valuation of all metals produced is \$12,577,378, divided as follows: Gold, \$2,550,146; silver, \$4,627,044; lead, \$2,704,576; copper, \$445,562; zinc, \$1,872,442; manganese, \$141,000; blenuth, \$240,900.

#### GARDINER PROCESS.

Is to be Used on a Large Scale at  
Hecla, Wyoming.

The Salt Lake friends of Robert Gardiner have been pleased to learn that his process for leaching copper is to be applied on a large scale at Hecla, Wyoming. The Denver Post says that Henry Schwartz of Denver has purchased 11 claims with a 15 stamp mill and a smelter in the Silver Creek district, which he has adapted for leaching the copper ores by the Gardiner process. The ores carry from 24 to 30 per cent copper, with considerable gold. Mr. Gardiner, whose process is owned by the American Copper Mining and Leaching company, has been very successful in his work. A saving of 90 per cent copper has been made. After the ore has passed through the leaching solution it is then treated on Cammet as soon as the tankage capacity is increased Mr. Schwartz says he will be able to handle 40 tons of ore per day.

#### MAMMOTH SHIPMENT.

Two Cars of \$400 Ore Shipped from  
the Mine Yesterday.

Secretary Wilkinson of the Mammoth Mining company reports the shipment from the mine of two cars of high grade ore, two bars of bullion and seven cars concentrates. Mr. McIntyre, who instructed the secretary regarding the shipment, says that another lot of bullion will be sent out later in the week. Mr. Wilkinson says the high grade ore will run about \$400 per ton. It is stated that the present shipment is not the ore which is being sacked from the latest strike.

#### Bingham's New Road.

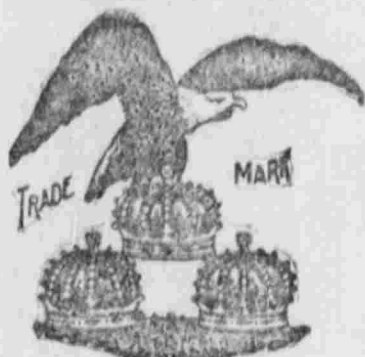

Owing to the holidays the work of completing the Copper Belt Railway at Bingham has been delayed. The three miles of track leading to the Bingham Copper and Gold company's property will not be completed before the end of the month. The work is being done in first-class style. The best kind of rails are being laid on the best ties which will make it one of the most solid and substantial roads of its kind in the country.

#### Liberal Group Sold.

The Boise Statesman says: Fred R. Reed has secured the Liberal group of mines on the Bailey gold belt, about 25 miles northwest from the town of Hailey, from William Sweet and others. The purchase has been made for a syndicate of New York people who, after having the property thoroughly examined, have decided to develop it on a large scale. A force of 20 miners will be put to work as soon as practicable. This is a most promising group of claims. While it is in the nature of a prospect there is ore in sight that will pay to mill.

The ore is richer in gold and more strongly mineralized than was the case

## Ask For It.

Hundreds of good housekeepers who have used Three Crown Baking Powder, Extracts and Spices will use no other kind as they know the brand "Three Crown" guarantees them a pure and good article at a lower price than the imported goods would cost. Ask your grocer for the "Three Crown" brand the next time you order goods in our line.

### Hewlett Bros. Co.

SALT LAKE CITY, UTAH.

In the Top and Golden Star—on the same belt—at the same depth. In the latter properties at a depth of 300 feet heavy bodies of chalcocite are found carrying 100 per ton gold and 50 per cent copper.

#### MINING NOTES.

The Con. Mercur will shortly be listed on the Boston Exchange.

The Morse Shice of Fay, Nev., is on the market with about \$10,000 worth of gold cyanide.

Superintendent R. C. Chambers, who came down from Park City last evening, says that 21 bars containing 25,776.75 ounces silver.

## NEW YEAR CHEER IN DREAR PLACES

Inmates of Penal Institutions and  
Infirmary Remembered.

### GOOD DINNER, KIND WORDS

Pleasantly Reminded that They Are  
Not Forgotten Although Victims of  
Unfortunate Circumstances.

It is a pretty benevolent custom that brings comfort and cheer to those in drear places on special occasions—occasions when the outside world is engaged in celebration and rejoicing over events that victims of untoward circumstances cannot participate in. That custom is always observed in Salt Lake. Today was no exception to the rule except in two instances and in those Christmas was most pleasantly celebrated.

#### AT THE STATE PRISON.

Nothing out of the usual routine was done at the State prison today. The prisoners detained at that institution were feasted on Christmas, but today had to content themselves with simply knowing that the first day of the New Year had come; and a new century had been born.

#### AT THE COUNTY JAIL.

All of the prisoners confined at the county jail were treated to a wholesome and tasty dinner today at 3 o'clock. About twenty-nine convicts partook of the repast and enjoyed the food provided, with evident relish. While these inmates of the prison are not able to begin the new century under favorable circumstances, still they were reminded of its commencement by the feast tendered them.

#### AT THE CITY JAIL.

New Year's is just the same to the city prisoners as is any other day, so far as good things to eat is concerned. The city alms house, 7½ cents per meal, and those who have the feeding of the prisoners in charge cannot afford to supply the weary Willies with turkey, mince pie, wine, etc. So the usual menu, which was as follows, was on the festive board today:

1. Soup à la Kimball.
2. Bread, home made.
3. Potatoes, baked.
4. Coffee.
5. More soup, etc.

#### AT THE INFIRMARY.

Mrs. Jennie Whipple did herself proud today in serving those who find themselves unfortunately—rather fortunately—under her care at the county infirmary with an excellent New Year's dinner. There were nearly one hundred aged, infirm, and otherwise ailing people of different ages and both sexes, that gathered round the well-laden tables. The hearty welcome was made to the inmates notwithstanding their enfeebled and dependent condition, and they will evidently have some cause to rejoice in being able to celebrate the twentieth century's birth under such circumstances. The feast consisted in part of chicken, mashed potatoes, corn, custard pie, fruit, tea, coffee, milk, and many of the other good things of earth.

### BACK FROM NEW ZEALAND.

Elders R. K. Hardy and H. K. Aldous Talk of  
Conditions There.

Attended a Meeting in Hawaii and  
Heard President Geo. Q. Cannon  
Speak in Native Tongue.

R. K. Hardy and H. K. Aldous of this city, returned on Sunday evening from New Zealand. They left this city on July 3rd, 1897, for a mission to that country. They labored exclusively among the native Maoris, and the work was never before in so prosperous a condition as it is now. The Elders are meeting with much success in street preaching and in their work among the European inhabitants of the islands.

Just before they returned they attended a meeting in Honolulu, just at the close of the semi-annual festivities that were held there recently. The meeting was attended by Presidents George Q. Cannon, Cluff and Woolley, the last named of the Hawaiian mission. President Cannon was the source of much marvel to that he spoke in the native tongue with wonderful fluency, although he had not labored among the natives for forty-six years. President Cannon is in the best of health and seems to be enjoying his visit very much.

It is now mid-summer at Honolulu, and the change from that temperature to the one that Salt Lake is now having had a tendency to take their breath away, and to produce a series of protracted sneezes.

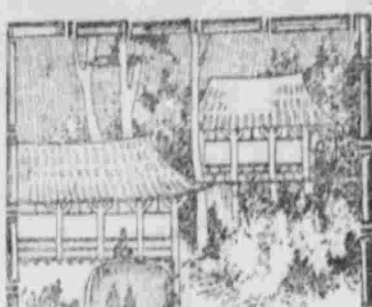

#### AFTER COYOLE SCALES.

A meeting of the Utah Wool-growers' association will be held in this city after the adjournment of the Live Stock association, on the 19th inst. President Smith and Secretary Callister have issued a call for the gathering; the main subject to resolve consideration will be as to the best methods of getting rid of the destructive coyotes which are increasing to an alarming extent over the State, resulting disastrously to the sheepmen's interests.

DETACHED FROM THE CITY.

and Near Eastern Foothills That Can  
not be Taxed by Municipality.

An important decision was handed down by Judge Hiles last yesterday afternoon, resulting in quite a large tract of land lying along the eastern extremity of the city limits and adjacent to the foothills, which the court declared to be detached from the boundaries of Salt Lake City. Judge Le Grand Young, the Wagner Brewing company, and Jax Thompson, commenced this action in May last in which they prayed for an order restraining the city from collecting taxes of any kind upon the land in question, alleging that no benefits were ever received by it from the police protection, municipal improvements, such as sewers, watermain, light, roads and the like, and that the land was not subject to an agreed statement of facts, and the court found that the territory sought to be eliminated from city taxation was never a part of the town, site as originally entered, or of any other

try made subsequently; that the area is very sparsely settled, and that the total assessed valuation of all property within the district, including Wagner's brewery, in 1900, was only about \$14,000.

It was found that the decisions in a number of similar cases were to the effect that municipal corporations cannot legally collect taxes on property so far from the center of the city as to receive none of the benefits for which taxes are levied and collected. Within the past few years our courts decided that the city had no right to collect a license tax from Wagner's brewery.

### SHERIFF HOWELL'S REPORT.

A Very Good Showing Made by the  
Retiring Official.

Sheriff John F. Howells completed his annual report late yesterday afternoon. The report shows that in 976 civil cases processes were served, and in 845 criminal cases warrants were issued. It further states that \$7,851.04 was received as gross fees, and for the various offenses named below 250 arrests were made:

- Petit larceny, 18; polygamy, 1; willful destruction of property, 1; battery, 5; vagrancy, 6; trespass, 2; prostitution, 3; resisting an officer, 1; assault, 6; attempting to break jail, 3; inebriation, 5; disturbing the peace, 11; highway robbery, 1; robbery, 3; carrying burglar tools, 3; cruelty to animals, 1; procuring females for immoral purposes, 1; obtaining property by false pretenses, 1; peddling without a license, 1; adultery, 7; sending obscene literature through the mails, 2; assault with deadly weapon, 3; burglary, 3; housebreak, 1; rape, 2; grand larceny, 23; attempt to commit grand larceny, 3; obtaining money by false pretenses, 3; insanity, 3; drunkenness, 2; murder, 4; abduction, 1; embezzlement, 7; interfering with United States mail, 1; attempting to commit murder, 1; imperiousness, 1; United States officer, 1; fugitives from justice, 3; sodomy, 1; selling liquor to Indians, 1; defaulting jurors, witnesses, etc., 17.

Twenty-seven persons were taken to the State prison, nine to the Reform school, and 27 to the insane asylum. Property to the value of \$4,821.50 was stolen, and \$2,271.50 of which was recovered and restored to the owners. From the report it would seem that Sheriff Howells has been assisted by the sheriff's force in this country.

### PERSONAL.

C. H. Arbuckle, game warden for the State of Idaho, is on his way home, staying at the Kenyon.

J. A. McClellan of the Payson Globe is visiting with his brother, Prof. J. J. McClellan in this city.

Secretary Clarence B. Hurt of the Riverdale Irrigation company at Boise, and member of the executive committee of the Irrigation Congress, is stopping at the Kenyon.

Joseph Leiter of Chicago, the man who cornered wheat in such a sensational manner some years ago, is numbered among the guests at the Knutsford.

Ed. S. Snelgrove has returned from a week's visit to Portland.

John Gallacher, the restaurant man, is out and about again after passing through a siege of illness for the past few days.

### PRIESTHOOD MEETING.

The Priesthood of the Salt Lake Stake of Zion will meet in the Assembly Hall, Salt Lake City, on Friday, January 4, 1901, at 7 p. m. The Bishops are requested to bring the statistical report of their wards to this meeting for the year ending December 31, 1900.

Philadelphia, Jan. 1.—Samuel Riddle & Sons, woolen manufacturers, with mills located at Glen Riddle, Pa., have presented a petition in voluntary bankruptcy. Their assets are said to be \$294,242 and the liabilities, \$301,000.

### NOT HEREDITARY

In the main, consumption is not hereditary; it is infectious.

Low vital force is hereditary; which gives consumption its chance. An infection starts it.

Between the two, the crop is a big one: about one-sixth of the human race.

## HE IS SUCCESSOR TO GOV. ROOSEVELT

Benj. B. Odell Jr., Inaugurated as  
Governor of New York.

### GRAND INAUGURAL FETE.

Impressive Ceremony at the Empire  
State Capital Participated in  
by a Great Crowd.

Albany, N. Y., Jan. 1.—Benjamin B. Odell, Jr., was today inaugurated governor of New York. There was a greater outpouring of people and a grander military display than have attended a ceremony of this character for many years. Over 150 national guardsmen were in line in the escort column, and in addition civilians who have been the life-long friends and neighbors of the new executive, and who had come to this city to attest their friendship.

The governor-elect and his military escort were cordially greeted on their march from the executive mansion to the capitol, and the governor-elect repeatedly had to bow his acknowledgments.

### RECEIVED BY GOV. ROOSEVELT.

Gov. Roosevelt and his staff received Gov. Odell and staff in the public audience chamber of the executive suite in the capitol building. The new governor was warmly greeted by Gov. Roosevelt. They spent several minutes in conversation, after which a line, headed by the two governors, and composed of the military staff, Lieut. Gov. Woodruff and the other State officers, was formed and proceeded to the assembly chamber, where the inauguration ceremonies took place. The chamber was filled to overflowing. On the platform were seated Mr. Odell, wife of the governor; Mr. B. B. Odell, Sr., his father; Albert Odell, his son, and other members of the governor's family, and members of the State officers' families; the heads of State departments, and their wives and daughters, and their friends. Gov. Odell, Gov. Roosevelt and the other members of the executive party entered the chamber at the noon hour, and were greeted with applause.

### WELCOMING SPEECH.

In welcoming the new governor, Gov. Roosevelt said: "Gov. Odell, it becomes from this moment your high and solemn duty to stand at the executive head of the greatest State within our Union, a State which in point of size, population, wealth and wide variety of interests and of industries, rises above many a world-famous kingdom, or commonwealth. Great as are the duties upon the one hand, and on the other hand, your task is neither light nor easy. But you come to it with the special ability and special training which peculiarly fit you to perform it well and well. In a sense a governor's term begins with his election for, as soon as elected, he must begin to make ready for his exacting and engrossing duties. The earnest you have already given us in the way in which you regard these duties, and of the spirit in which you approach them, is such that we have the right to express, not merely the hope, but the confident belief that at the end of your term as governor you will have won the right to stand with that list of public servants whose memory the great Empire State delights to hold in peculiar honor."

### GOV. ODELL'S ADDRESS.

Gov. Odell then delivered his inaugural address as follows: "With the assumption of responsibilities come doubt and uncertainty which even the applause and good wishes of our friends cannot entirely dispel. Especially is this true of him into whose keeping is placed the administration of the affairs of our commonwealth."

"New York, an empire in itself, with its vast population, its many and diverse interests, demands from its chief executive the greatest conservatism and wisdom as to its needs and that its business affairs shall be transacted with economy and good judgment."

"Under our form of government, when the will of the majority has been expressed, we should forget our partisanship in our desire to uphold and strengthen the hands of those whom for the time being we have clothed with authority and upon whom the responsibility for the proper enforcement of our laws is placed."
