Mrs. Julia Farnsworth Lund read a paper on the causes leading to the rev-olutionary struggle, the birth of the na-tion and the adoption of the flag. The address was replete with patriotic sen-timent, the speaker being a lineal de-scendant of men who fought in the greatest struggle for liberty that the world has ever known. Mrs. Lund's offort was highly appreciated by the audience, many of whom, like herself, could lay just claim to having in their veins the blood of men and women who wrought this great republic from con-ditions that bordered on serfdom. Wells related rem-iniscences of the exodus, and during her remarks took occasion to say that the alleged picture of the Prophet Jo-seph Smith printed on the programs bore buil little resemblance to him. The musical features of the afternoon were solos by Horace S. Ensign and Miss Winnifred Smith, the former sing-ing "The Star-Spangled Banner," the audience waving flags and joining in the chorus. Miss Smith's selection was "The Flag Without a Stain." her sister, Virginia Smith, accompanying. Several selections were played by Clive's or-chestra.

CITY CREEK STILL HIGH.

Fifteen Inches of Water Covered North Temple This Morning.

City creek continues as yesterday with 15 inches of water over the railroad track on west North Temple street; only the situation is worse in this way, that the manure embankments are soaked to the seepage point, and water from the flood is now run-ning over the roadway that hitherto has been comparatively dry. The waghas been comparatively dry. The wag-ons hauling dirt and manure were go-ing all last night, making such a noise that between that, the mosquitoes and fears of further disaster, the unfortu-nate citizens of that section of the city didn't sleep much. The Tribune has yet to learn of anything out of the way with City creek, or that the residents of the Third precinct have any just cause for complaint at all. Taxpayers to the number of 133 had signed a peti-tion last evening, to the city council, tion last evening, to the city council, urgently requesting much needed as-sistance from the municipality. Mr. Derrah reports traffic conditions quiet because of the approaching national elections elections.

S. H. BABCOCK WITH COL. DODGE

One of the most elaborate afternoon parties of the spring season was the tea given today by Mrs. E. O. Howard. The occasion was the opening of her new home on South Temple street, and a hundred guests were present dur-ing the afternoon. The rooms were decorated with a profusion of June roses, the living room in red, the din-ing room in white, and the hall in plnk, while the punch table was also dec-orated in pink roes. Receiving with the hostess were Mrs. Mont Ferry, Mrs. George Y. Wallace, Mrs. O. W. Pow-ers, Mrs. Ernest Bamberger and Mrs. B. X. Smith. In the hall were Mrs. Union Worington and Mrs. George J. Gibson; on the veranda Mrs. H. M. Wells and Mrs. Lesile Savage presided at the punch table assisted by Mrs. Edward Ferry and Mrs. Walter Filer. In the dining room were Mrs. John Zane, Mrs. Arthur Bird, Mrs. D. C. Roberts, Mrs. C. R. Pearsail, Mrs. Frank Jennings, and Misses McGrath, Ged-des and McCornick. S. H. Babcock, in 1902, traffic manager of the Rio Grande Western, an office since abolished, is now with the office since abolished, is now with the Moffat road in Denver, Word comes from that city that Mr. Babcock is Col. Dodge's right hand bower. Col. Dodge, heads a construction company which is going to build a big section of the Moffat road and Mr. Babcock's po-sition is of great importance, as might be expected. Sait Lake weather bureau, and he has disagreed with the latter as today's climatology. A low area to the south, which developed yesterday, in apparent-ly inconsequential nothingness, develop-ed today into a very consequential area, including the whole state of Utah with-in its environment. So today is showery and threatening with more of the same thing prophesized for tomorrow. The air is at times "muggy" and oppressive, and then a cold current darts in, and a heavy coat is comfortable. The barometric conditions have chang-ed but slightly since last report. The low barometric area continues over the plateau and Rocky mountain slope, causing showers and thunderstorms over portions of those districts, and eastward to the Missouri valley. Another dis-turbance is central over the north At-lantic coast, producing precipitation over the Atlantic states. Heavy fains are reported this morning at Denver, New York, Washington and Norfield. The temperature changes are unimportant. Over the north Facific states and lake region the barometric pressure is high.
